Section 1- Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

In accordance with our policy, Quest Diagnostics has concluded in good faith that during the 2013 reporting period, Quest has contracted to manufacture products containing conflict minerals and has determined that the use of these minerals is necessary to the functionality or production of these products. Based on our “reasonable country of origin inquiry” (RCOI) conducted, Quest was unable to determine the origin of conflict minerals in our products and therefore cannot exclude the possibility that some may have originated in the Democratic Republic of the Congo (DRC) or an adjoining country (collectively “Covered Countries”) and may not be from recycled or scrap sources for the 2013 reporting period.

Item 1.02 Exhibit

In accordance with Rule 13p-1 under the Securities and Exchange Act of 1934 (“Rule 13p-1”), Quest has filed this Specialized Disclosure Form (Form SD) and the associated Conflict Minerals Report and both reports are publicly available at Quest’s Investor Relations site at www.questdiagnostics.com/investor.
