FRANKLIN RESOURCES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2024
(Unaudited)

Note 1 – Basis of Presentation

The unaudited interim financial statements of Franklin Resources, Inc. (“Franklin”) and its consolidated subsidiaries (collectively, the “Company”) included herein have been prepared in accordance with the instructions to Form 10-Q and the rules and regulations of the U.S. Securities and Exchange Commission. Under these rules and regulations, some information and footnote disclosures normally included in financial statements prepared under accounting principles generally accepted in the United States of America have been shortened or omitted. Management believes that all adjustments necessary for a fair statement of the financial position and the results of operations for the periods shown have been made. All adjustments are normal and recurring. Management also believes that the accounting estimates are appropriate, and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates, actual amounts may differ from these estimates. These financial statements should be read together with the Company’s audited financial statements included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2023 (“fiscal year 2023”).

During the quarter ended March 31, 2024, the Company identified that it did not eliminate the investment income from certain consolidated limited partnerships for the fiscal year ended September 30, 2023, resulting in offsetting adjustments to investment and other income, net and net income attributable to nonredeemable noncontrolling interest. The Company is not entitled to the economic returns associated with the underlying investments held by these limited partnerships.

There is no impact on operating income, net income attributable to Franklin Resources, Inc., earnings per share, total assets, total liabilities, retained earnings or total shareholders’ equity. There is no impact on the financial results attributable to the Company’s shareholders. The Company has determined this did not result in a material misstatement to its previously issued consolidated financial statements. For comparability, the Company has revised the comparative prior period amounts included in the consolidated statements of income, consolidated statements of stockholders’ equity, consolidated statements of cash flows, and related footnote disclosures.

The impacts on the consolidated statements of income for the three and six months ended March 31, 2023 are as follows:

(in millions)	Three Months Ended March 31, 2023			Six Months Ended March 31, 2023

Note 2 – New Accounting Guidance

Accounting Guidance Not Yet Adopted

In November 2023, the Financial Accounting Standards Board (“FASB”) issued an amendment to the existing segment reporting guidance. The amendment requires annual and interim disclosures of significant segment expenses that are regularly provided to the chief operating decision maker by reportable segment and clarifies that single reportable segment entities are required to apply all existing segment disclosures in the guidance. The amendment is effective for the Company on October 1, 2024, and is retrospectively applicable to all prior periods presented in its consolidated financial statements. The Company is currently evaluating the impact that the adoption will have on its consolidated financial statements.

In December 2023, the FASB issued an amendment to the existing income taxes guidance. The amendment requires the disclosure of additional information with respect to the reconciliation of the effective tax rate to the statutory rate for federal, state, and foreign income taxes and requires greater detail about significant reconciling items in the reconciliation. Additionally, the amendment requires disaggregated information pertaining to taxes paid, net of refunds received, for federal, state, and foreign income taxes. The amendment allows for either a prospective or retrospective approach on adoption and is effective for the Company on October 1, 2025. The Company is currently evaluating the impact that the adoption will have on its consolidated financial statements and has not yet determined its transition approach.

Note 3 – Acquisition

Putnam Investments

On January 1, 2024, the Company acquired Putnam Investments (“Putnam”) from Great-West Lifeco Inc. (“Great-West”) for 31.6¹ million shares of its common stock, cash consideration paid at close of \$221.7 million for investments and other purchase-related amounts, and deferred cash consideration of \$100.0 million to be paid during the third quarter of fiscal year 2024. The cash consideration paid at close was funded from existing cash and we expect to fund the deferred cash consideration from existing cash and sources of liquidity. See below for a summary of the total purchase consideration transferred at closing:

(in millions)	Total
Equity consideration ^{1, 2}	\$ 940.1
Cash consideration	221.7
Deferred cash consideration	100.0
Less: Other adjustments ³	(30.2)
Total Purchase Consideration	\$ 1,231.6

¹ Excludes shares to be granted under a deferred compensation program.

² Market price on closing date of \$29.79.

³ Primarily relates to payments treated as future compensation expense.

Great-West became a long-term shareholder of the Company with an approximate 6.0% stake in the common stock of the Company as of the acquisition date. Shares representing 4.9% of the Company's outstanding Common Stock at closing are subject to a five-year lock-up, and the remaining shares are subject to a 180-day lock-up following the date of closing.

The acquisition of Putnam accelerates the Company's growth in the retirement sector by increasing the amount of the Company's defined contribution AUM and expanding insurance assets, further strengthening the Company's presence in these key market segments to better serve clients.

[Table of Contents](#)

The following table summarizes the estimated fair value amounts recognized for the assets acquired and liabilities assumed and resulting goodwill as of the acquisition date. The issuance of common stock consideration represents a non-cash financing activity related to the statement of cash flows.

(in millions)

as of January 1, 2024	Estimated Fair Value
Cash and cash equivalents	\$ 101.1
Receivables	118.9
Investments	111.2
Assets of consolidated investment products	
Cash and cash equivalents	281.4
Investments, at fair value	849.5
Property and equipment	87.1
Goodwill	189.8

Liabilities of consolidated investment products	
Accounts payable and accrued expenses	(259.6)
Debt	(706.8)
Operating lease liabilities	(109.2)
Other liabilities	(12.1)
Redeemable noncontrolling interests	(20.2)
Nonredeemable noncontrolling interests	(25.8)
Total Identifiable Net Assets	\$ 1,231.6

The purchase price allocation is preliminary and subject to change during the measurement period, which is not to exceed one year from the acquisition date. At this time, the Company does not expect material changes to the assets acquired or liabilities assumed.

The goodwill is primarily attributable to expected growth opportunities from the combined operations and is expected to be deductible for tax purposes. The definite-lived intangible asset relates to trade name, which is amortized over its estimated useful life of 10.0 years. Amortization expense related to the trade name was \$1.3 million for the period ended March 31, 2024. The estimated remaining amortization expense is \$5.3 million per year.

Transaction costs incurred in connection with the acquisition were \$17.8 million for the six months ended March 31, 2024. These costs are primarily comprised of professional fees, recorded in general, administrative and other expenses. The Company also incurred \$103.0 million of acquisition-related compensation and benefits expense during the period, primarily related to the acceleration of expense for historical Putnam compensation arrangements, retention bonuses and termination benefits.

In addition, the Company will pay up to \$375.0 million between the third and seventh anniversaries of the closing date related to revenue growth targets from the strategic partnership with Great-West and its affiliates which will be recognized in operating income.

Operating revenues of the acquired business from January 1, 2024 through March 31, 2024 were approximately \$210 million. Net Income is not available to be separately reported due to the ongoing integration of the combined businesses.

¹ Based on the relative fair value of the instruments.

If the relevant significant inputs used in the market-based valuations, other than discount for lack of marketability, were independently higher (lower) as of March 31, 2024, the resulting fair value of the assets would be higher (lower). If the relevant significant inputs used in the discounted cash flow, as well as the discount for lack of marketability used in the market-based valuations, were independently higher (lower) as of March 31, 2024, the resulting fair value of the assets would be lower (higher).

Note 10 – Nonconsolidated Variable Interest Entities

VIEs for which the Company is not the primary beneficiary consist of sponsored funds and other investment products in which the Company has an equity ownership interest. The Company's maximum exposure to loss from these VIEs consists of equity investments, investment management and other fee receivables as follows:

(in millions)	March 31, 2024	September 30, 2023
Investments	\$ 1,030.7	\$ 925.9
Receivables	217.9	206.1
Total	\$ 1,248.6	\$ 1,132.0

While the Company has no legal or contractual obligation to do so, it routinely makes cash investments in the course of launching sponsored funds. As it has done in the past, the Company also may voluntarily elect to provide its sponsored funds with additional direct or indirect financial support based on its business objectives. The Company did not provide financial or other support to its sponsored funds assessed as VIEs during the six months ended March 31, 2024 or fiscal year 2023.

Note 11 – Commitments and Contingencies**Legal Proceedings**

India Credit Fund Closure Matters. During the six months ended March 31, 2024, there were no significant changes from the disclosure in the Form 10-K for the fiscal year ended September 30, 2023.

Other Litigation Matters. The Company is from time to time involved in other litigation relating to claims arising in the normal course of business. Management is of the opinion that the ultimate resolution of such claims will not materially affect the Company's business, financial position, results of operations or liquidity. In management's opinion, an adequate accrual has been made as of March 31, 2024 to provide for any probable losses that may arise from such matters for which the Company could reasonably estimate an amount.

Indemnifications and Guarantees

In the ordinary course of business or in connection with certain acquisition agreements, the Company enters into contracts that provide for indemnifications by the Company in certain circumstances. In addition, certain Company entities guarantee certain financial and performance-related obligations of various Franklin subsidiaries. The Company is also subject to certain legal requirements and agreements providing for indemnifications of directors, officers and personnel against liabilities and expenses they may incur under certain circumstances in connection with their service. The terms of these indemnities and guarantees vary pursuant to applicable facts and circumstances, and from agreement to agreement. Future payments for claims against the Company under these indemnities or guarantees could negatively impact the Company's financial condition. In management's

opinion, no material loss was deemed probable or reasonably possible pursuant to such indemnification agreements and/or guarantees as of March 31, 2024.

Other Commitments and Contingencies

On November 1, 2023, the Company took possession of office space in New York City located at One Madison Avenue. At the time of possession, the Company recognized an operating lease right-of-use asset and a corresponding operating lease liability of \$396.6 million. The lease agreement is over sixteen years with an aggregate expected commitment of \$707.3 million and is part of a corporate initiative to consolidate existing office space in New York City.

At March 31, 2024, there were no other material changes in the other commitments and contingencies as reported in the Company's Annual Report on Form 10-K for fiscal year 2023.

Note 12 – Stock-Based Compensation

Stock and stock unit award activity was as follows:

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

FORWARD-LOOKING STATEMENTS

This Form 10-Q and the documents incorporated by reference herein may include forward-looking statements that reflect our current views with respect to future events, financial performance and market conditions. Such statements are provided under the “safe harbor” protection of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts and generally can be identified by words or phrases written in the future tense and/or preceded by words such as “anticipate,” “believe,” “could,” “depends,” “estimate,” “expect,” “intend,” “likely,” “may,” “plan,” “potential,” “seek,” “should,” “will,” “would,” or other similar words or variations thereof, or the negative thereof, but these terms are not the exclusive means of identifying such statements.

Forward-looking statements involve a number of known and unknown risks, uncertainties and other important factors that may cause actual results and outcomes to differ materially from any future results or outcomes expressed or implied by such forward-looking statements, including pandemic-related risks, market and volatility risks, investment performance and reputational risks, global operational risks, competition and distribution risks, third-party risks, technology and security risks, human capital risks, cash management risks, and legal and regulatory risks. The forward-looking statements contained in this Form 10-Q or that are incorporated by reference herein are qualified in their entirety by reference to the risks and uncertainties disclosed in this Form 10-Q and/or discussed under the headings “Risk Factors” and “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2023 (“fiscal year 2023”).

While forward-looking statements are our best prediction at the time that they are made, you should not rely on them and are cautioned against doing so. Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other possible future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. They are neither statements of historical fact nor guarantees or assurances of future performance. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them.

If a circumstance occurs after the date of this Form 10-Q that causes any of our forward-looking statements to be inaccurate, whether as a result of new information, future developments or otherwise, we undertake no obligation to announce publicly the change to our expectations, or to make any revision to our forward-looking statements, to reflect any change in assumptions, beliefs or expectations, or any change in events, conditions or circumstances upon which any forward-looking statement is based, unless required by law.

In this section, we discuss and analyze the results of operations and financial condition of Franklin Resources, Inc. (“Franklin”) and its subsidiaries (collectively, the “Company”). The following discussion should be read in conjunction with our Annual Report on Form 10-K for

fiscal year 2023 filed with the U.S. Securities and Exchange Commission (the “SEC”), and the consolidated financial statements and notes thereto included in subsequent filings on Form 10-Q and elsewhere in this Form 10-Q.

OVERVIEW

Franklin is a holding company with subsidiaries operating under our Franklin Templeton® and/or subsidiary brand names. We are a global investment management organization that derives operating revenues and net income from providing investment management and related services to investors in jurisdictions worldwide. We deliver our investment capabilities through a variety of investment products, which include our sponsored funds, as well as institutional and high-net-worth separate accounts, retail separately managed account programs, sub-advised products, and other investment vehicles. Related services include fund administration, sales and distribution, and shareholder servicing. We may perform services directly or through third parties. We offer our services and products under our various distinct brand names, including, but not limited to, Franklin®, Templeton®, Legg Mason®, Alcentra®, Benefit Street Partners®, Brandywine Global Investment Management®, Clarion Partners®, ClearBridge Investments®, Fiduciary Trust International™, Franklin Bissett®, Franklin Mutual Series®, K2®, Lexington Partners®, Martin Currie®, O’Shaughnessy® Asset Management, Putnam®, Royce® Investment Partners and Western Asset Management Company®. We offer a broad product mix of fixed income, equity, alternative, multi-asset and cash management asset classes and solutions that meet a wide variety of specific investment goals and needs for individual and institutional investors. We also provide sub-advisory services to certain investment products sponsored by other companies which may be sold to investors under the brand names of those other companies or on a co-branded basis.

[Table of Contents](#)

The level of our revenues depends largely on the level and relative mix of assets under management (“AUM”). As noted in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year 2023, the amount and mix of our AUM are subject to significant fluctuations that can negatively impact our revenues and income. The level of our revenues also depends on the fees charged for our services, which are based on contracts with our funds and customers, fund sales, and the number of shareholder transactions and accounts. These arrangements could change in the future.

During our second fiscal quarter, global equity markets provided positive returns, reflecting strong corporate earnings in certain sectors and continued expectations of interest rate reductions, although likely slower and later in the calendar year than initially anticipated due to strong economic data. The S&P 500 Index and MSCI World Index increased 10.6% and 9.0% for the quarter and 23.5% and 21.6% for the fiscal year to date. The Bloomberg Global Aggregate Index decreased 2.1% during the quarter, reflecting the shift in interest rate expectations, but increased 5.9% for the fiscal year to date, reflecting strong positive returns in our first fiscal quarter.

Our total AUM at March 31, 2024 was \$1,644.7 billion, 20% higher than at September 30, 2023 and 16% higher than at March 31, 2023. Monthly average AUM (“average AUM”) for the three and six months ended March 31, 2024 increased 11% and 8% from the same periods in the prior fiscal year.

On January 1, 2024, we acquired Putnam Investments (“Putnam”), a global asset management firm, from Great-West Lifeco Inc. (“Great-West”).

The business and regulatory environments in which we operate globally remain complex, uncertain and subject to change. We are subject to various laws, rules and regulations globally that impose restrictions, limitations, registration, reporting and disclosure requirements on our business, and add complexity to our global compliance operations.

Uncertainties regarding the global economy remain for the foreseeable future. As we continue to confront the challenges of the current economic and regulatory environments, we remain focused on the investment performance of our products and on providing high quality service to our clients. We continuously perform reviews of our business model. While we remain focused on expense management, we will also seek to attract, retain and develop personnel and invest strategically in systems and technology that will provide a secure and stable environment. We will continue to seek to protect and further our brand recognition while developing and maintaining broker-dealer and client relationships. The success of these and other strategies may be influenced by the factors discussed in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year 2023.

AUM at March 31, 2024	\$592.7	\$571.4	\$ 255.5	\$163.4	\$ 61.7	\$1,644.7

AUM increased \$189.2 billion, or 13%, during the three months ended March 31, 2024 due to \$148.3 billion from the acquisition of Putnam, the positive impact of \$38.8 billion of net market change, distributions and other and \$6.9 billion of long-term net inflows, which include \$3.1 billion of long-term reinvested distributions, partially offset by \$4.8 billion of cash management net outflows. Fixed income net inflows include the funding of \$13.7 billion related to the strategic partnership with Great-West, partially offset by an institutional client redemption of \$2.0 billion. Net market change, distributions and other primarily consists of \$51.9 billion of market appreciation, partially offset by \$7.9 billion of long-term distributions and a \$5.2 billion decrease from foreign exchange revaluation. The market appreciation occurred substantially in all asset classes, most significantly in the equity asset class and reflected positive returns in the global equity markets. Foreign exchange revaluation from AUM in products that are not U.S. dollar denominated was primarily due to a stronger U.S. dollar compared to the Japanese Yen, Australian dollar, Euro and Canadian dollar.

AUM increased \$222.6 billion or 16%, as compared to the prior year period. Long-term inflows increased 37% to \$84.9 billion, driven by higher inflows in fixed income and equity fund vehicles. Long-term outflows increased 19% to \$78.0 billion driven by higher redemptions in equity fund vehicles and fixed income funds and retail separate accounts, partially offset by lower redemptions in alternative open end and private open end funds.

AUM at March 31, 2023	\$437.1	\$510.1	\$ 258.2	\$146.1	\$ 70.6	\$1,422.1

AUM increased \$34.4 billion or 2% during the three months ended March 31, 2023 due to the positive impact of \$42.4 billion of net market change, distributions and other, partially offset by \$4.3 billion of cash management net outflows and \$3.7 billion of long-term net outflows. Fixed income net inflows included the funding of a \$7.5 billion institutional mandate invested across fixed income strategies. Net market change, distributions and other primarily consists of \$48.1 billion of market appreciation and a \$0.9 billion increase from foreign exchange revaluation, partially offset by \$6.6 billion of long-term distributions. The market appreciation occurred in all asset classes, most significantly in the equity and fixed income asset classes and reflected positive returns in the global equity and fixed income markets.

AUM decreased \$55.4 billion or 4%, as compared to the fiscal year 2022 period. Long-term inflows decreased 19% to \$61.8 billion, driven by lower inflows in equity and fixed income open end funds, equity separately managed accounts, and fixed income institutional separate accounts. Long-term outflows decreased 25% to \$65.5 billion driven by lower redemptions in fixed income and equity open end funds, equity separately managed accounts and fixed income institutional separate accounts.

AUM increased \$270.5 billion, or 20%, during the six months ended March 31, 2024 due to \$148.3 billion from the acquisition of Putnam, the positive impact of \$120.4 billion of net market change, distributions and other and \$1.9 billion of long-term net inflows, which include \$13.9 billion of long-term reinvested distributions, partially offset by \$0.1 billion of cash management net outflows. Net market change, distributions and other primarily consists of \$146.2 billion of market appreciation and a \$1.4 billion increase from foreign exchange revaluation, partially offset by \$27.2 billion of long-term distributions. The market appreciation occurred in all asset classes, most significantly in the equity and fixed income asset classes and reflected positive returns in the global equity and fixed income markets.

Long-term inflows increased 16% to \$153.8 billion, as compared to the prior year period, driven by higher inflows in equity and fixed income fund vehicles, partially offset by lower inflows in multi-asset open end funds and alternative institutional separate accounts. Long-term outflows increased 3% to \$151.9 billion due to higher outflows in equity open end funds, partially offset by lower outflows in alternative private funds, open end funds, and institutional separate accounts.

AUM at March 31, 2023	\$437.1	\$510.1	\$ 258.2	\$146.1	\$ 70.6	\$1,422.1

AUM increased \$124.7 billion, or 10%, during the six months ended March 31, 2023 due to the positive impact of \$91.2 billion of net market change, distributions and other, \$34.9 billion from an acquisition, and \$13.2 billion of cash management net inflows, partially offset by \$14.6 billion of long-term net outflows. Long-term net outflows included a \$2.1 billion fixed income institutional redemption that had minimal impact on revenue. Net market change, distributions and other primarily consists of \$106.6 billion of market appreciation, a \$9.7 billion increase from foreign exchange revaluation, partially offset by \$25.1 billion of long-term distributions. The market appreciation occurred in all asset classes, most significantly in the equity and fixed income asset classes and reflected positive returns in the global equity and fixed income markets. Foreign exchange revaluation from AUM in products that are not U.S. dollar denominated was primarily due to a weaker U.S. dollar compared to the Euro, Pound Sterling, Japanese Yen and Australian dollar.

Long-term inflows decreased 28% to \$132.3 billion, as compared to the fiscal year 2022 period, driven by lower inflows in equity, fixed income, and multi-asset open end funds, fixed income institutional separate accounts and sub-advised collective investment trusts, and equity retail separate accounts. Decreased inflows for open end mutual funds include the impact of lower reinvested distributions, which were \$14.4 billion in the current year period, as compared to \$32.0 billion in the prior year period. Long-term outflows decreased 14% to \$146.9 billion due to lower outflows in equity and fixed income open end funds, multi-asset sub-advised mutual funds and equity separately managed accounts, partially offset by higher outflows in fixed income institutional separate accounts.

Investment Performance Overview

A key driver of our overall success is the long-term investment performance of our investment products. A measure of the performance of these products is the percentage of AUM exceeding peer group medians and benchmarks. We compare the relative performance of our mutual funds against peers, and of our strategy composites against benchmarks.

The performance of our mutual fund products against peer group medians and of our strategy composites against benchmarks is presented in the table below.

as of March 31, 2024	Peer Group Comparison ¹				Benchmark Comparison ²			
	% of Mutual Fund AUM				% of Strategy Composite AUM			
	in Top Two Peer Group Quartiles				Exceeding Benchmark			
	1-Year	3-Year	5-Year	10-Year	1-Year	3-Year	5-Year	10-Year
Equity	58 %	53 %	47 %	59 %	54 %	45 %	46 %	50 %
Fixed Income	58 %	53 %	53 %	71 %	73 %	50 %	88 %	91 %
Total AUM ³	51 %	60 %	44 %	56 %	62 %	51 %	62 %	69 %

¹ Mutual fund performance is sourced from Morningstar and measures the percent of ranked AUM in the top two quartiles versus peers. Total mutual fund AUM measured for the 1-, 3-, 5- and 10-year periods represents 38%, 37%, 37% and 35% of our total AUM as of March 31, 2024.

² Strategy composite performance measures the percent of composite AUM beating its benchmark. The benchmark comparisons are based on each account's/composite's (strategy composites may include retail separately managed accounts and mutual fund assets managed as part of the same strategy) return as compared to a market index that has been selected to be generally consistent with the asset class of the account/composite. Total strategy composite AUM measured for the 1-, 3-, 5- and 10-year periods represents 54%, 53%, 53% and 49% of our total AUM as of March 31, 2024.

³ Total mutual fund AUM includes performance of our alternative and multi-asset funds, and total strategy composite AUM includes performance of our alternative composites. Alternative and multi-asset AUM represent 16% and 10% of our total AUM at March 31, 2024.

Mutual fund performance data includes U.S. and cross-border domiciled mutual funds and exchange-traded funds, excludes cash management and fund of funds, and assumes the reinvestment of dividends.

Past performance is not indicative of future results. For strategy composite AUM included in institutional and retail separately managed accounts and investment funds managed in the same strategy as separate accounts, performance comparisons are based on gross-of-fee performance. For investment funds which are not managed in a separate account format, performance comparisons are based on net-of-fee performance. These performance comparisons do not reflect the actual performance of any specific separate account or investment fund; individual separate account and investment fund performance may differ. The information in this presentation is provided solely for use in connection with this document, and is not directed toward existing or potential clients of Franklin.

Total Operating Revenues	\$2,152.8	\$1,927.2	12 %	\$4,143.9	\$3,894.3	6 %

Investment Management Fees

Investment management fees increased \$140.6 million and \$161.0 million for the three and six months ended March 31, 2024 primarily due to an 11% and 8% increase in average AUM, and for the six-month period, higher catch-up fees recognized at the closing of fundraising rounds in a secondary private equity fund and one additional month of revenues earned by Alcentra, which was acquired on November 1, 2022, partially offset by a decrease in performance fees. The increases in average AUM primarily occurred in the equity, fixed income and multi-asset asset classes, primarily due to the acquisition of Putnam, and, for the six-month period, the alternative asset class.

Our effective investment management fee rate excluding performance fees (annualized investment management fees excluding performance fees divided by average AUM) was 41.4 and 41.7 basis points for the three and six months ended March 31, 2024, as compared to 41.8 and 41.7 basis points for the same periods in the prior fiscal year.

Performance fees were \$85.2 million and \$251.6 million for the three and six months ended March 31, 2024, and \$111.2 million and \$320.2 million for the same periods in the prior fiscal year. The decrease for the three months ended March 31, 2024 was primarily due to lower performance fees earned by certain of our alternative specialist investment managers, and for the six months ended March 31, 2024 was primarily due to a \$65.5 million decrease in performance fees earned by Lexington Partners L.P. ("Lexington"), which were passed through as compensation expense per the terms of the acquisition agreement.

Sales and Distribution Fees

Sales and distribution fees by revenue driver are presented below.

(in millions)	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2024	2023		2024	2023	
Asset-based fees	\$ 291.5	\$ 247.7	18 %	\$ 537.5	\$ 492.7	9 %
Sales-based fees	66.8	53.7	24 %	117.2	100.6	17 %
Sales and Distribution Fees	\$ 358.3	\$ 301.4	19 %	\$ 654.7	\$ 593.3	10 %

Asset-based distribution fees increased \$43.8 million and \$44.8 million for the three and six months ended March 31, 2024 primarily due to revenue earned by Putnam subsequent to the acquisition and increases of 4% and 3% in the related average AUM.

Sales-based fees increased \$13.1 million and \$16.6 million for the three and six months ended March 31, 2024 primarily due to increases of 15% and 13% in commissionable sales and sales-based revenue earned by Putnam subsequent to the acquisition.

Shareholder Servicing Fees

Shareholder servicing fees increased \$24.7 million and \$23.8 million for the three and six months ended March 31, 2024 primarily due to fees earned by Putnam subsequent to the acquisition.

OPERATING EXPENSES

The table below presents the percentage change in each operating expense category.

(in millions)	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2024	2023		2024	2023	
Compensation and benefits	\$ 1,028.2	\$ 847.3	21 %	\$ 1,996.5	\$ 1,826.5	9 %
Sales, distribution and marketing	484.3	406.6	19 %	885.1	795.2	11 %
Information systems and technology	155.1	128.0	21 %	286.1	249.4	15 %

Total Operating Expenses	\$2,023.5	\$1,672.1	21 %	\$3,808.1	\$3,445.2	11 %

The Putnam acquisition had a significant impact on operating expenses in the three and six months ended March 31, 2024; however, due to the ongoing integration of the combined businesses, it is not practicable to separately quantify the impact of the legacy Putnam business.

Compensation and Benefits

The components of compensation and benefits expenses are presented below.

(in millions)	Three Months Ended March 31,			Six Months Ended March 31,

¹ See “Supplemental Non-GAAP Financial Measures” for additional information.

² Includes impact of gains and losses on investments related to deferred compensation plans, which is offset in investment and other income (losses), net; minority interests in certain subsidiaries, which is offset in net income (loss) attributable to redeemable noncontrolling interests; and special termination benefits.

Salaries, wages and benefits increased \$56.7 million and \$67.0 million for the three and six months ended March 31, 2024, primarily due to higher headcount as a result of the acquisition of Putnam and annual salary increases, partially offset by the impact of other headcount reductions.

Incentive compensation increased \$24.3 million and \$58.7 million for the three and six months ended March 31, 2024 primarily due to the acquisition of Putnam, an increase in expense for deferred compensation awards, and higher bonus expense based on expectations of our annual performance, partially offset by lower incentive compensation at specialist investment managers in the three-month period.

Acquisition-related retention expenses increased \$81.3 million and \$86.8 million for the three and six months ended March 31, 2024 primarily due to higher costs associated with recent acquisitions.

Acquisition-related performance fee pass through expenses decreased \$65.5 million for the six months ended March 31, 2024, due to lower performance fees earned by Lexington.

[Table of Contents](#)

Other compensation and benefits increased \$12.2 million and \$23.0 million for the three and six months ended March 31, 2024, primarily due to an increase in special termination benefits and higher net market gains on investments related to our deferred compensation plans. Special termination benefits increased \$8.6 million and \$4.4 million for the three and six months ended March 31, 2024 primarily due to the acquisition of Putnam, partially offset by costs associated with workforce optimization initiatives in the prior year. Compensation expense related to minority interests increased \$0.2 million and \$1.8 million for the three and six months ended March 31, 2024.

We expect to incur additional acquisition-related retention expenses of approximately \$130 million during the remainder of the current fiscal year, and annual amounts beginning at approximately \$190 million in the fiscal year ending September 30, 2025 and decreasing over the following two fiscal years by approximately \$20 million and \$80 million. At March 31, 2024, our global workforce increased to approximately 10,100 employees from approximately 9,200 at March 31, 2023, primarily due to the acquisition of Putnam.

Sales, Distribution and Marketing

Sales, distribution and marketing expenses by cost driver are presented below.

(in millions)	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2024	2023		2024	2023	
Asset-based expenses	\$ 405.7	\$ 343.0	18 %	\$ 746.2	\$ 674.9	11 %
Sales-based expenses	63.7	51.0	25 %	110.6	95.3	16 %
Amortization of deferred sales commissions	14.9	12.6	18 %	28.3	25.0	13 %
Sales, Distribution and Marketing	\$ 484.3	\$ 406.6	19 %	\$ 885.1	\$ 795.2	11 %

Asset-based expenses increased \$62.7 million and \$71.3 million for the three and six months ended March 31, 2024 primarily due to expenses incurred by Putnam subsequent to the acquisition, increases of 3% and 2% in the related average AUM and higher marketing support fees. Distribution expenses are generally not directly correlated with distribution fee revenues due to certain fee structures that do not provide full recovery of distribution costs.

Sales-based expenses increased \$12.7 million and \$15.3 million for the three and six months ended March 31, 2024 primarily due to increases of 15% and 13% in commissionable sales and sales-based expenses incurred by Putnam subsequent to the acquisition.

Occupancy

Occupancy expenses increased \$16.5 million and \$28.7 million for the three and six months ended March 31, 2024, primarily due to new leased office space located at One Madison Avenue, associated with an initiative to consolidate our office space in New York City and expenses incurred by Putnam subsequent to the acquisition.

Information Systems and Technology

Information systems and technology expenses increased \$27.1 million and \$36.7 million for the three and six months ended March 31, 2024, primarily due to expenses incurred by Putnam subsequent to the acquisition, and higher outsourced data services and software costs.

Amortization of Intangible Assets

Amortization of intangible assets decreased \$1.4 million and increased \$1.2 million for the three and six months ended March 31, 2024, primarily due to the net effect of intangible assets which became fully amortized during the period, partially offset by the amortization of intangible assets recognized as part of the acquisition of Putnam and, for the six-month period, Alcentra.

General, Administrative and Other

General, administrative and other operating expenses increased \$50.6 million and \$36.4 million for the three and six months ended March 31, 2024, primarily due to the acquisition of Putnam, increases of \$15.8 million and \$16.5 million in professional fees, and increases of \$3.9 million and \$9.3 million in travel and entertainment expenses due to higher activity levels. These increases were partially offset by decreases of \$10.5 million and \$9.7 million in fund-related expenses.

OTHER INCOME (EXPENSES)

Other income (expenses) consisted of the following:

(in millions)	Three Months Ended March 31,		Percent Change	Six Months Ended March 31,		Percent Change
	2024	2023		2024	2023	
Investment and other income, net	\$ 52.5	\$ 60.6	(13 %)	\$ 225.7	\$ 150.5	50 %
Interest expense	(27.7)	(33.5)	(17 %)	(46.5)	(64.4)	(28 %)
Investment and other income of consolidated investment products, net	89.9	87.2	3 %	66.1	73.6	(10 %)
Expenses of consolidated investment products	(5.9)	(3.4)	74 %	(11.8)	(14.9)	(21 %)
Other Income, Net	\$ 108.8	\$ 110.9	(2 %)	\$ 233.5	\$ 144.8	61 %

Investment and other income, net decreased \$8.1 million for the three months ended March 31, 2024, primarily due to losses on investments, as compared to gains in the prior year quarter, partially offset by higher dividend and interest income, lower net foreign currency exchange losses, and higher net income from equity method investees. Investment and other income, net increased \$75.2 million for the six months ended March 31, 2024, primarily due to higher net income from equity method investees, lower net foreign currency exchange losses, and higher dividend and interest income.

Investments held by the Company generated net losses of \$18.5 million and net gains of \$41.6 million in the three and six months ended March 31, 2024, as compared to net gains of \$3.0 million and \$48.5 million for the three and six months ended March 31, 2023. The net losses for the three months ended March 31, 2024 were primarily from investments in nonconsolidated funds and separate accounts, partially offset by net gains on assets invested for deferred compensation plans. The net gains for the three months ended March 31, 2023 were primarily from assets invested for deferred compensation plans, partially offset by losses on investments in nonconsolidated funds and separate accounts. The net gains in both the current and prior year six-month periods were primarily from investments in nonconsolidated funds and separate accounts and assets invested for deferred compensation plans, partially offset by net losses from investments measured at cost adjusted for observable price changes.

Equity method investees generated income of \$24.4 million and \$81.3 million for the three and six months ended March 31, 2024, as compared to income of \$20.6 million and \$52.6 million in the prior year, primarily related to various alternative and global equity funds.

Net foreign currency exchange losses were \$1.3 million and \$8.7 million for the three and six months ended March 31, 2024, as compared to net losses of \$6.5 million and \$33.6 million for the three and six months ended March 31, 2023. The U.S. dollar strengthened in the three-month period and weakened less in the six-month period against the Euro and British Pound, which resulted in lower foreign exchange losses on cash and cash equivalents denominated in U.S. dollars held by our European subsidiaries.

Dividend and interest income increased \$5.7 million and \$24.0 million for the three and six months ended March 31, 2024, primarily due to higher yields.

Interest expense decreased \$5.8 million and \$17.9 million for the three and six months ended March 31, 2024 primarily due to interest expense recognized in the prior year periods on our term loan that was terminated on July 25, 2023 and a decrease in interest recognized on tax reserves.

Investments held by consolidated investment products ("CIPs") generated investment gains and other income of \$89.9 million and \$66.1 million in the three and six months ended March 31, 2024, and investment gains and other income of \$87.2 million and \$73.6 million during the three and six months ended March 31, 2023, largely related to gains on holdings of various equity and fixed income funds, and in the current year periods, gains on holdings of various alternative funds.

Expenses of CIPs increased \$2.5 million and decreased \$3.1 million for the three and six months ended March 31, 2024, due to activity of the funds.

¹ See Note 1 – Significant Accounting Policies in the notes to consolidated financial statements in Item 8 of Part II of our Annual Report on Form 10-K for fiscal year 2023 for information on investment accounting classifications.

² Total cash and cash equivalents and investments includes \$4,435.5 million used for operational activities, including investments in sponsored funds and other products, and \$324.5 million necessary to comply with regulatory requirements.

³ Total cash and cash equivalents and investments includes approximately \$350 million attributable to employee-owned and other third-party investments made through partnerships which are offset in nonredeemable noncontrolling interests, \$353.0 million of investments that are subject to long-term repurchase agreements and other net financing arrangements, and \$447.1 million of cash and investments related to deferred compensation plans.

TAXES ON INCOME

Our effective income tax rate was 26.4% and 24.2% for the three and six months ended March 31, 2024, as compared to 25.4% and 25.8% for the three and six months ended March 31, 2023. The rate increase for the three-month period was primarily due to tax audit settlements and state tax provision to return adjustments. The rate decrease for the six-month period was primarily due to tax benefits from stock-based compensation and the release of tax reserves due to statute of limitation expiration.

Our effective income tax rate reflects the relative contributions of earnings in the jurisdictions in which we operate, which have varying tax rates. Changes in our pre-tax

income mix, tax rates or tax legislation in such jurisdictions may affect our effective income tax rate and net income.

SUPPLEMENTAL NON-GAAP FINANCIAL MEASURES

As supplemental information, we are providing performance measures for “adjusted operating income,” “adjusted operating margin,” “adjusted net income” and “adjusted diluted earnings per share,” each of which is based on methodologies other than generally accepted accounting principles (“non-GAAP measures”). Management believes these non-GAAP measures are useful indicators of our financial performance and may be helpful to investors in evaluating our relative performance against industry peers.

[Table of Contents](#)

“Adjusted operating income,” “adjusted operating margin,” “adjusted net income” and “adjusted diluted earnings per share” are defined below, followed by reconciliations of operating income, operating margin, net income attributable to Franklin Resources, Inc. and diluted earnings per share on a U.S. GAAP basis to these non-GAAP measures. Non-GAAP measures should not be considered in isolation from, or as substitutes for, any financial information prepared in accordance with U.S. GAAP, and may not be comparable to other similarly titled measures of other companies. Additional reconciling items may be added in the future to these non-GAAP measures if deemed appropriate.

Adjusted Operating Income

We define adjusted operating income as operating income adjusted to exclude the following:

- Elimination of operating revenues upon consolidation of investment products.
- Acquisition-related items:
 - Acquisition-related retention compensation.
 - Other acquisition-related expenses including professional fees, technology costs and fair value adjustments related to contingent consideration assets and liabilities.
 - Amortization of intangible assets.
 - Impairment of intangible assets and goodwill, if any.
- Special termination benefits related to workforce optimization initiatives related to past acquisitions and certain initiatives undertaken by the Company.
- Impact on compensation and benefits expense from gains and losses on investments related to deferred compensation plans, which is offset in investment and other income (losses), net.
- Impact on compensation and benefits expense related to minority interests in certain subsidiaries, which is offset in net income (loss) attributable to redeemable noncontrolling interests.

Adjusted Operating Margin

We calculate adjusted operating margin as adjusted operating income divided by adjusted operating revenues. We define adjusted operating revenues as operating revenues adjusted to exclude the following:

- Elimination of operating revenues upon consolidation of investment products.
- Acquisition-related performance-based investment management fees which are passed through as compensation and benefits expense.
- Sales and distribution fees and a portion of investment management fees allocated to cover sales, distribution and marketing expenses paid to the financial advisers and other intermediaries who sell our funds on our behalf.

Adjusted Net Income and Adjusted Diluted Earnings Per Share

We define adjusted net income as net income attributable to Franklin Resources, Inc. adjusted to exclude the following:

- Activities of CIPs.

[Table of Contents](#)

- Acquisition-related items:
 - Acquisition-related retention compensation.
 - Other acquisition-related expenses including professional fees, technology costs and fair value adjustments related to contingent consideration assets and liabilities.
 - Amortization of intangible assets.
 - Impairment of intangible assets and goodwill, if any.
 - Write off of noncontrolling interests related to the wind down of an acquired business.
 - Interest expense for amortization of Legg Mason debt premium from acquisition-date fair value adjustment.
- Special termination benefits related to workforce optimization initiatives related to past acquisitions and certain initiatives undertaken by the Company.
- Net gains or losses on investments related to deferred compensation plans which are not offset by compensation and benefits expense.
- Net compensation and benefits expense related to minority interests in certain subsidiaries not offset by net income (loss) attributable to redeemable noncontrolling interests.
- Unrealized investment gains and losses.
- Net income tax expense of the above adjustments based on the respective blended rates applicable to the adjustments.

We define adjusted diluted earnings per share as diluted earnings per share adjusted to exclude the per share impacts of the adjustments applied to net income in calculating adjusted net income.

In calculating our non-GAAP measures, we adjust for the impact of CIPs because it is not considered reflective of our underlying results of operations. Acquisition-related items and special termination benefits are excluded to facilitate comparability to other asset management firms. We adjust for compensation and benefits expense related to funded deferred compensation plans because it is partially offset in other income (expense), net. We adjust for compensation and benefits expense and net income (loss) attributable to redeemable noncontrolling interests to reflect the economics of certain profits interest arrangements. Sales and distribution fees and a portion of investment management fees generally cover sales, distribution and marketing expenses and, therefore, are excluded from adjusted operating revenues. In addition, when calculating adjusted net income and adjusted diluted earnings per share we exclude unrealized investment gains and losses included in investment and other income (losses) because the related investments are generally expected to be held long term.

LIQUIDITY AND CAPITAL RESOURCES

Cash flows were as follows:

(in millions)	Six Months Ended March 31,	
	2024	2023
Operating cash flows	\$ (115.3)	\$ (329.6)
Investing cash flows	(410.8)	(2,221.3)
Financing cash flows	232.1	1,986.8

Net cash used in operating activities decreased during the six months ended March 31, 2024 primarily due to lower net purchases of investments by CIPs and decreases in receivables, partially offset by lower income taxes payable, decreases in accounts payable and accrued expenses as compared to increases in the prior year, and lower net income adjusted for non-cash items. Net cash used in investing activities decreased primarily due to lower net purchases of investments by collateralized loan obligations (“CLOs”), lower cash paid for acquisitions in the current year as compared to the prior year, net consolidations of CIPs as compared to net deconsolidations of CIPs in the prior year period and net liquidations of investments as compared to purchases in the prior year. Net cash provided by financing activities decreased primarily due to lower net proceeds on debt of CIPs, lower net subscriptions in CIPs by noncontrolling interests, and proceeds from repurchase agreements in the prior year.

[Table of Contents](#)

The assets and liabilities of CIPs attributable to third-party investors do not impact our liquidity and capital resources. We have no right to the CIPs' assets, other than our direct equity investment in them and investment management and other fees earned from them. The debt holders of the CIPs have no recourse to our assets beyond the level of our direct investment, therefore we bear no other risks associated with the CIPs' liabilities. Accordingly, the assets and liabilities of CIPs, other than our direct investments in them, are excluded from the amounts and discussion below.

Our liquid assets and debt consisted of the following:

(in millions)	March 31, 2024	September 30, 2023
Assets		
Cash and cash equivalents	\$ 3,255.9	\$ 3,592.8
Receivables	1,264.0	1,181.7
Investments	1,244.0	1,098.8
Total Liquid Assets	\$ 5,763.9	\$ 5,873.3
Liability		
Debt	\$ 3,041.0	\$ 3,052.8

Liquidity

Liquid assets consist of cash and cash equivalents, receivables and certain investments. Cash and cash equivalents at March 31, 2024 primarily consist of money market funds and deposits with financial institutions. Liquid investments consist of investments in sponsored and other funds, direct investments in redeemable CIPs, other equity and debt securities, and time deposits with maturities greater than three months.

We utilize a significant portion of our liquid assets to satisfy operational and regulatory requirements and fund capital contributions to sponsored and other products. Certain of our subsidiaries are required by our internal policy or regulation to maintain minimum levels of cash and/or capital, and may be restricted in their ability to transfer cash to their parent companies. Should we require more capital than is available for use, we could elect to reduce the level of discretionary activities, such as share repurchases or investments in sponsored and other products, we could raise capital through debt or equity issuances, or utilize existing or new credit facilities. These alternatives could result in increased interest expense, decreased dividend or interest income, or other dilution to our earnings.

Capital Resources

We believe that we can meet our present and reasonably foreseeable operating cash needs and future commitments through existing liquid assets, continuing cash flows from operations, amounts available under the credit facility discussed below, the ability to issue debt or equity securities and borrowing capacity under our uncommitted commercial paper private placement program.

In prior fiscal years, we issued senior unsecured unsubordinated notes for general corporate purposes and to redeem outstanding notes. At March 31, 2024, Franklin's outstanding senior notes had an aggregate principal amount due of \$1,600.0 million. The notes have fixed interest rates from 1.600% to 2.950% with interest paid semi-annually and have an aggregate carrying value, inclusive of unamortized discounts and debt issuance costs, of \$1,586.0 million. At March 31, 2024, Legg Mason's outstanding senior notes had an aggregate principal amount due of \$1,250.0 million. The notes have fixed interest rates from 3.950% to 5.625% with interest paid semi-annually and have an aggregate carrying value, inclusive of unamortized premium, of \$1,455.0 million at March 31, 2024. Franklin unconditionally and irrevocably guarantees all of the outstanding notes issued by Legg Mason. We intend to repay the \$250 million 3.950% senior notes due July 2024 from existing cash or other sources of liquidity.

The senior notes contain an optional redemption feature that allows us to redeem each series of notes prior to maturity in whole or in part at any time, at a make-whole redemption price. The indentures governing the senior notes contain limitations on our ability and the ability of our subsidiaries to pledge voting stock or profit participating equity interests in our subsidiaries to secure other debt without similarly securing the notes equally and ratably. In addition, the indentures include requirements that must be met if we consolidate or merge with, or sell all of our assets to, another entity.

We maintain an \$800.0 million 5-year revolving credit facility that contains a financial performance covenant requiring that the Company maintain a consolidated net leverage ratio, measured as of the last day of each fiscal quarter, of no greater than 3.25 to 1.00. This facility remains undrawn as of the time of this filing. We were in compliance with all debt covenants at March 31, 2024.

At March 31, 2024, we had \$500.0 million of short-term commercial paper available for issuance under an uncommitted private placement program which has been inactive since 2012 and is unrated.

Our ability to access the capital markets in a timely manner depends on a number of factors, including our credit rating, the condition of the global economy, investors' willingness to purchase our securities, interest rates, credit spreads and the valuation levels of equity markets. If we are unable to access capital markets in a timely manner, our business could be adversely impacted.

Uses of Capital

We expect that our main uses of cash will be to invest in and grow our business including through acquisitions, pay stockholder dividends, invest in our products, pay income taxes and operating expenses of the business, enhance technology infrastructure and business processes, repurchase shares of our common stock, and repay and service debt. While we expect to continue to repurchase shares to offset dilution from stock-based compensation, and expect to continue to repurchase shares opportunistically from time to time, we will likely spend more of our post-dividend free cash flow investing in our business, including seed capital and acquiring resources to help grow our investment teams and operations.

We typically declare cash dividends on a quarterly basis, subject to approval by our Board of Directors. We declared regular dividends of \$0.62 per share during the six months ended March 31, 2024 and \$0.60 per share during the six months ended March 31, 2023. We currently expect to continue paying comparable regular dividends on a quarterly basis to holders of our common stock depending upon earnings and other relevant factors.

We maintain a stock repurchase program to manage our equity capital with the objective of maximizing shareholder value. Our stock repurchase program is effected through open-market purchases and private transactions in accordance with applicable laws and regulations, and is not subject to an expiration date. The size and timing of these purchases will depend on business conditions, price, market and other factors, including the terms of any 10b5-1 stock purchase plan that may be in effect at any given time. During the three and six months ended March 31, 2024, we repurchased 0.4 million and 2.8 million shares of our common stock at a cost of \$11.7 million and \$70.5 million. In December 2023, our Board of Directors authorized the repurchase of up to an additional 27.2 million shares of our common stock in either open market or private transactions, for a total of up to 40.0 million shares available for repurchase under the stock repurchase program. At March 31, 2024, 39.1 million shares remained available for repurchase under the authorization approved by our Board of Directors.

On January 1, 2024, we acquired Putnam from Great-West for 31.6 million shares of our common stock, cash consideration paid at close of \$221.7 million for investments and other

purchase-related amounts, and deferred cash consideration of \$100.0 million to be paid during the third quarter of fiscal year 2024. The cash consideration paid at close was funded from existing cash and we expect to fund the deferred consideration from existing cash and sources of liquidity. In addition, the Company will pay up to \$375.0 million between the third and seventh anniversaries of the closing date related to revenue growth targets from the strategic partnership with Great-West and its affiliates which will be recognized in operating income.

On November 1, 2023, we paid \$60.8 million in deferred cash consideration related to our acquisition of Alcentra from existing cash. On April 1, 2024, we paid \$400.0 million in deferred cash consideration related to our acquisition of Lexington from existing cash. We expect to make an additional deferred cash payment related to our acquisition of Lexington of \$100 million during the third quarter of fiscal year 2025 from existing cash and sources of liquidity.

The funds that we manage have their own resources available for purposes of providing liquidity to meet shareholder redemptions, including securities that can be sold or provided to investors as in-kind redemptions, and lines of credit. Increased liquidity risks and redemptions have required, and may continue to require, increased cash in the form of loans or other lines of credit to help settle redemptions and for other related purposes. While we have no legal or contractual obligation to do so, we have in certain instances voluntarily elected to provide the funds with direct or indirect financial support based on our business objectives. We did not provide financial or other support to our sponsored funds during the six months ended March 31, 2024.

CRITICAL ACCOUNTING POLICIES

Our consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. These estimates, judgments and assumptions are affected by our application of accounting policies. Further, concerns about the global economic outlook have adversely affected, and may continue to adversely affect, our business, financial condition and results of operations including the estimates and assumptions made by management. Actual results could differ from the estimates. Described below are the updates to our critical accounting policies disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for fiscal year 2023.

Consolidation

We consolidate our subsidiaries and investment products in which we have a controlling financial interest. We have a controlling financial interest when we own a majority of the voting interest in a voting interest entity or are the primary beneficiary of a variable interest entity ("VIE"). Our VIEs are primarily investment products and our variable interests consist of our equity ownership interests in and investment management fees earned from these products. As of March 31, 2024, we were the primary beneficiary of 69 investment product VIEs.

Business Combinations

Business combinations are accounted for by recognizing the acquired assets, including separately identifiable intangible assets, and assumed liabilities at their acquisition-date estimated fair values. Any excess of the purchase consideration over the acquisition-date fair values of these identifiable assets and liabilities is recognized as goodwill. Goodwill and indefinite-lived intangible assets are tested for impairment annually and when an event occurs or circumstances change that more likely than not reduce the fair value of the related reporting unit or indefinite-lived intangible asset below its carrying value. Definite-lived intangible assets are tested for impairment quarterly.

Subsequent to the annual impairment tests performed as of August 1, 2023, we monitored both macroeconomic and entity-specific factors, including changes in our AUM to determine whether circumstances have changed that would more likely than not reduce the fair value of the reporting unit below its carrying value or indicate that the other indefinite-lived intangible assets might be impaired. We also monitored fluctuations of our common stock per share price to evaluate our market capitalization relative to the reporting unit as a whole. During the six months ended March 31, 2024, there were no events or circumstances which would indicate that goodwill, indefinite-lived intangible assets or definite-lived intangible assets might be impaired.

While we believe that the assumptions used to estimate fair value in our impairment tests are reasonable and appropriate, future changes in the assumptions could result in recognition of impairment.

Fair Value Measurements

Our investments are primarily recorded at fair value or amounts that approximate fair value on a recurring basis. We use a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based on whether the inputs to those valuation techniques are observable or unobservable.

As of March 31, 2024, Level 3 assets represented 5% of total assets measured at fair value, which primarily related to CIPs' investments in equity and debt securities. There were insignificant transfers into and out of Level 3 during the six months ended March 31, 2024.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

During the six months ended March 31, 2024, there were no material changes from the market risk disclosures in our Form 10-K for the fiscal year ended September 30, 2023.

Item 4. Controls and Procedures.

The Company's management evaluated, with the participation of the Company's principal executive and principal financial officers, the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of March 31, 2024. Based on their evaluation, the Company's principal executive and principal financial officers concluded that the Company's disclosure controls and procedures as of March 31, 2024 were designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to management, including the principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the Company's fiscal quarter ended March 31, 2024, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

For a description of our legal proceedings, please see the description set forth in the “Legal Proceedings” section in Note 11 – Commitments and Contingencies in the notes to consolidated financial statements in Item 1 of Part I of this Form 10-Q, which is incorporated herein by reference.

Item 1A. Risk Factors.

There were no material changes from the Risk Factors previously disclosed in our last Annual Report on Form 10-K for fiscal year 2023. These Risk Factors could materially and adversely affect our business, financial condition and results of operations, and our business also could be impacted by other risk factors that are not presently known to us or that we currently consider to be immaterial. Further, our disclosure of a risk should not be interpreted to imply that the risk has not already developed or materialized.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table provides information with respect to the shares of our common stock that we repurchased during the three months ended March 31, 2024.

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of	Maximum Number of Shares that May Yet Be
			Publicly Announced Plans or Programs	Purchased Under the Plans or Programs
January 2024	75,524	\$ 27.72	75,524	39,460,440
February 2024	239,116	26.82	239,116	39,221,324
March 2024	114,166	27.12	114,166	39,107,158
Total	428,806		428,806	

Under our stock repurchase program, which is not subject to an expiration date, we can repurchase shares of our common stock from time to time in the open market and in private transactions in accordance with applicable laws and regulations, including without limitation applicable federal securities laws. In order to pay taxes due in connection with the vesting of employee and executive officer stock and stock unit awards, we may repurchase shares under our program using a net stock issuance method. In December 2023, our Board of Directors authorized the repurchase of up to an additional 27.2 million shares of our common stock in either open market or private transactions, for a total of up to 40.0 million shares available for repurchase under the stock repurchase program.
