Dow Inc. and Subsidiaries
The Dow Chemical Company and Subsidiaries

This Quarterly Report on Form 10-Q is a combined report being filed by Dow Inc. and The Dow Chemical Company and its consolidated subsidiaries ("TDCC" and together with Dow Inc., "Dow" or the "Company") due to the parent/subsidiary relationship between Dow Inc. and TDCC. The information reflected in the report is equally applicable to both Dow Inc. and TDCC, except where otherwise noted. Each of Dow Inc. and TDCC is filing information in this report on its own behalf and neither company makes any representation to the information relating to the other company.

CAUTIONARY STATEMENT ABOUT FORWARD-LOOKING STATEMENTS

Certain statements in this report are "forward-looking statements" within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements often address expected future business and financial performance, financial condition, and other matters, and often contain words or phrases such as "anticipate," "believe," "estimate," "expect," "intend," "may," "opportunity," "outlook," "plan," "project," "seek," "should," "strategy," "target," "will," "will be," "will continue," "will likely result," "would" and similar expressions, and variations or negatives of these words or phrases.

Forward-looking statements are based on current assumptions and expectations of future events that are subject to risks, uncertainties and other factors that are beyond Dow's control, which may cause actual results to differ materially from those projected, anticipated or implied in the forward-looking statements and speak only as of the date the statements were made. These factors include, but are not limited to: sales of Dow's products; Dow's expenses, future revenues and profitability; any global and regional economic impacts of a pandemic or other public health-related risks and events on Dow's business; any sanctions, export restrictions, supply chain disruptions or increased economic uncertainty related to the ongoing conflicts between Russia and Ukraine and in the Middle East; capital requirements and need for and availability of financing; unexpected barriers in the development of technology, including with respect to Dow's contemplated capital and operating projects; Dow's ability to realize its commitment to carbon neutrality on the contemplated timeframe, including the completion and success of its integrated ethylene cracker and derivatives facility in Alberta, Canada; size of the markets for Dow's products and services and ability to compete in such markets; failure to develop and market new products and optimally manage product life cycles; the rate and degree of market acceptance of Dow's products; significant litigation and environmental matters and related contingencies and unexpected expenses; the success of competing technologies that are or may become available; the ability to protect Dow's intellectual property in the United States and abroad; developments related to contemplated restructuring activities and proposed divestitures or acquisitions such as workforce reduction, manufacturing facility and/or asset closure and related exit and disposal activities, and the benefits and costs associated with each of the foregoing; fluctuations in energy and raw material prices; management of process safety and product stewardship; changes in relationships with Dow's significant customers and suppliers; changes in public sentiment and political leadership; increased concerns about plastics in the environment and lack of a circular economy for plastics at scale; changes in consumer preferences and demand; changes in laws and regulations, political conditions or industry development; global economic and capital markets conditions, such as inflation, market uncertainty, interest and

currency exchange rates, and equity and commodity prices; business or supply disruptions; security threats, such as acts of sabotage, terrorism or war, including the ongoing conflicts between Russia and Ukraine and in the Middle East; weather events and natural disasters; disruptions in Dow's information technology networks and systems, including the impact of cyberattacks; and risks related to Dow's separation from DowDuPont Inc. such as Dow's obligation to indemnify DuPont de Nemours, Inc. and/or Corteva, Inc. for certain liabilities.

Where, in any forward-looking statement, an expectation or belief as to future results or events is expressed, such expectation or belief is based on the current plans and expectations of management and expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished. A detailed discussion of principal risks and uncertainties which may cause actual results and events to differ materially from such forward-looking statements is included in the section titled "Risk Factors" contained in Part II, Item 1A of this Quarterly Report on Form 10-Q and in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2023. These are not the only risks and uncertainties that Dow faces. There may be other risks and uncertainties that Dow is unable to identify at this time or that Dow does not currently expect to have a material impact on its business. If any of those risks or uncertainties develops into an actual event, it could have a material adverse effect on Dow's business. Dow Inc. and TDCC assume no obligation to update or revise publicly any forward-looking statements whether because of new information, future events, or otherwise, except as required by securities and other applicable laws.

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

Basis of Presentation

Dow Inc. is the direct parent company of The Dow Chemical Company and its consolidated subsidiaries ("TDCC" and together with Dow Inc., "Dow" or the "Company"). The unaudited interim consolidated financial statements of Dow Inc. and TDCC were prepared in accordance with accounting principles generally accepted in the United States of America and reflect all adjustments (including normal recurring accruals) which, in the opinion of management, are considered necessary for the fair presentation of the results for the periods presented. These statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the combined Dow Inc. and TDCC Annual Report on Form 10-K for the year ended December 31, 2023 ("2023 10-K").

As a result of the parent/subsidiary relationship between Dow Inc. and TDCC, and considering that the financial statements and disclosures of each company are substantially similar, the companies are filing a combined report for this Quarterly Report on Form 10-Q. The information reflected in the report is equally applicable to both Dow Inc. and TDCC, except where otherwise noted. Transactions between TDCC and Dow Inc. are treated as related party transactions for TDCC.

Except as otherwise indicated by the context, the term "Union Carbide" means Union Carbide Corporation and the term "Dow Silicones" means Dow Silicones Corporation, both wholly owned subsidiaries of the Company.

NOTE 2 - RECENT ACCOUNTING GUIDANCE

Recently Adopted Accounting Guidance

On January 1, 2024, the Company adopted the amendments in Accounting Standards Update ("ASU") 2023-02, "Investments — Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method" and elected to account for certain tax equity investments using the proportional amortization method, as provided by the ASU. Under the proportional amortization method, an entity amortizes the initial cost of tax equity investments in proportion to the income tax credits and other income tax benefits received and recognizes the net amortization and income tax credits and other income tax benefits in the income statement as a component of income tax expense (benefit). The adoption of the ASU did not have a material impact on the Company's consolidated financial statements.

Accounting Guidance Issued But Not Adopted at March 31, 2024

In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," which is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment's profit or loss to assess potential future cash flows for each reportable segment and the entity as a whole. The amendments expand a public entity's segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker ("CODM"), clarifying when an entity may report one or more additional measures to assess segment performance, requiring enhanced interim disclosures, providing new disclosure requirements for entities with a single reportable segment, and requiring other new disclosures. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and early adoption is permitted. The adoption of the ASU is not expected to have a material impact on the Company's consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which is intended to enhance the transparency, decision usefulness and effectiveness of income tax disclosures. The amendments in this ASU require a public entity to disclose a tabular tax rate reconciliation, using both percentages and currency, with specific categories. A public entity is also required to provide a qualitative description of the states and local jurisdictions that make up the majority of the effect of the state and local income tax category and the net amount of income taxes paid, disaggregated by federal, state and foreign taxes and also disaggregated by individual jurisdictions. The amendments also remove certain disclosures that are no longer considered cost beneficial. The amendments are effective prospectively for annual periods beginning after December 15, 2024, and early adoption and retrospective application are permitted. The adoption of the ASU is not expected to have a material impact on the Company's consolidated financial statements.

SEC Final Rules Not Adopted at March 31, 2024

In March 2024, the U.S. Securities and Exchange Commission ("SEC") adopted final rules under SEC Release Nos. 33-11275 and 34-99678, "The Enhancement and Standardization of Climate-Related Disclosures for Investors," which requires registrants to disclose certain

climate-related information in registration statements and annual reports. The final rules include requirements to disclose material climate-related risks; activities to mitigate or adapt to such risks; information about the board of directors' oversight of climate-related risks and management's role in managing material climate-related risks; and information on any climate-related targets or goals that are material to the registrant's business, results of operations, or financial condition. Registrants are also required to disclose the financial statement effects of severe weather events and other natural conditions in the notes to the financial statements. Certain large registrants are also required to disclose Scope 1 and Scope 2 greenhouse gas ("GHG") emissions, when material. The final rules include a phased-in compliance period for all registrants. As a large accelerated filer, most disclosure requirements are effective for the Company beginning with the year ending December 31, 2025. GHG emissions disclosures are required for the year ending December 31, 2026. The Company will also be required to obtain limited assurance on its Scope 1 and Scope 2 GHG emissions disclosures beginning with the year ending December 31, 2029, with reasonable assurance required beginning with the year ending December 31, 2033. In April 2024, the SEC informed the U.S. Court of Appeals for the Eighth Circuit ("Court") that it would voluntarily stay the final rules until various legal challenges are resolved by the Court. The Company is currently evaluating the impact of the final rules on its consolidated financial statements and annual disclosures.

NOTE 3 - REVENUE

Revenue Recognition

The majority of the Company's revenue is derived from product sales. The Company's revenue related to product sales was 98 percent for the three months ended March 31, 2024 (99 percent for the three months ended March 31, 2023). The remaining sales were primarily related to the Company's insurance operations and licensing of patents and technologies. Product sales consist of sales of the Company's products to manufacturers and distributors. The Company considers order confirmations or purchase orders, which in some cases are governed by master supply agreements, to be contracts with a customer. The Company enters into licensing arrangements in which it licenses certain rights of its patents and technology to customers. Revenue from the Company's licenses for patents and technology is derived from sales-based royalties and licensing arrangements based on billing schedules established in each contract.

Remaining Performance Obligations

Remaining performance obligations represent the transaction price allocated to unsatisfied or partially unsatisfied performance obligations. At March 31, 2024, the Company had unfulfilled performance obligations of \$743 million (\$744 million at December 31, 2023) related to the licensing of technology. The Company expects revenue to be recognized for the remaining performance obligations over the next six years.

The Company has additional remaining performance obligations for product sales that have expected durations of one year or less, product sales of materials delivered through a pipeline for which the Company has elected the "right to invoice" practical expedient, and variable consideration attributable to royalties for licenses of patents and technology. The Company has received advance payments from customers related to long-term supply agreements that are deferred and recognized over the life of the contract, with remaining contract terms that range up to 20 years. The Company will have rights to future consideration for revenue recognized when product is delivered to the customer. These payments are included in "Accrued and other current liabilities" and "Other noncurrent obligations" in the consolidated balance sheets.

Disaggregation of Revenue

The Company disaggregates its revenue from contracts with customers by operating segment and business, as the Company believes it best depicts the nature, amount, timing and uncertainty of its revenue and cash flows. See details in the tables below:

Contract Assets and Liabilities

The Company receives payments from customers based upon contractual billing schedules. Accounts receivable are recorded when the right to consideration becomes unconditional. Contract assets include amounts related to the Company's contractual right to consideration for completed performance obligations not yet invoiced. Contract liabilities include payments received in advance of performance under the contract and are recognized in revenue when the performance obligations are met. "Contract liabilities - current" primarily reflects deferred revenue from prepayments from customers for product to be delivered in 12 months or less and royalty payments that are deferred and will be recognized in 12 months or less. "Contract liabilities - noncurrent" includes advance payments that the Company has received from customers related to long-term supply agreements and royalty payments that are deferred and recognized over the life of the contract.

Revenue recognized in the first three months of 2024 from amounts included in contract liabilities at the beginning of the period was approximately \$40 million (approximately \$40 million in the first three months of 2023). In the first three months of 2024, no contract assets were reclassified to receivables as a result of the right to the transaction consideration becoming unconditional (approximately \$30 million in the first three months of 2023).

The following table summarizes contract assets and liabilities at March 31, 2024 and December 31, 2023:

NOTE 4 - RESTRUCTURING AND ASSET RELATED CHARGES - NET

Charges for restructuring programs and other asset related charges, which includes asset impairments, are recorded in "Restructuring and asset related charges - net" in the consolidated statements of income. For additional information on the Company's restructuring programs, see Note 4 to the Consolidated Financial Statements included in the 2023 10-K.

2023 Restructuring Program

On January 25, 2023, the Dow Inc. Board of Directors ("Board") approved restructuring actions to achieve the Company's structural cost improvement initiatives in response to the continued economic impact from the global recessionary environment and to enhance its agility and long-term competitiveness across the economic cycle. These actions are expected to be substantially complete by the end of 2024. In the first quarter of 2024, the Company recorded additional pretax restructuring charges of \$8 million for asset write-downs and write-offs related to the shutdown of certain polyurethanes assets within the Industrial Intermediates & Infrastructure segment. The impacted facilities are expected to be shutdown by the end of 2025.

At March 31, 2024, \$70 million of the reserve balance was included in "Accrued and other current liabilities" (\$101 million at December 31, 2023) and \$4 million was included in "Other noncurrent obligations" (\$21 million at December 31, 2023) in the consolidated balance sheets.

The Company recorded pretax restructuring charges of \$543 million inception-to-date under the 2023 Restructuring Program, consisting of severance and related benefit costs of \$344 million and asset write-downs and write-offs of \$199 million.

Restructuring implementation costs, primarily decommissioning and demolition activities related to asset actions, and costs associated with the Company's productivity and efficiency actions, are expected to result in additional cash expenditures of approximately \$255 million, primarily through the end of 2024. Restructuring implementation and efficiency costs totaled \$46 million in the first quarter of 2024.

Asset Related Charges

In the first quarter of 2024, the Company recognized pretax impairment charges of \$37 million related primarily to write-downs of certain manufacturing assets in the U.S. & Canada and EMEAL. The impairment charges were included in "Restructuring and asset related charges - net" in the consolidated statements of income and related to Packaging & Specialty Plastics. See Note 18 for additional information.

1. See Note 15 for additional information.

2. Foreign exchange losses for the three months ended March 31, 2024 relate primarily to exposures in the Egyptian pound and Argentine peso. Foreign exchange losses for the three months ended March 31, 2023 relate primarily to exposures in the Argentine peso.

3. The three months ended March 31, 2023 includes gains associated with the sale of shares of a previously impaired equity method investment.

4. Certain obligations associated with a previously impaired equity method investment.

5. Primarily related to charges associated with agreements entered into with DuPont de Nemours, Inc. ("DuPont") and Corteva, Inc. ("Corteva") as part of the separation and distribution.

Sundry income (expense) - net for TDCC for the three months ended March 31, 2024 and 2023 is substantially the same as that of Dow Inc., with the primary difference related to indemnification and other transaction related costs recorded on Dow Inc. Therefore, TDCC sundry income (expense) - net is not disclosed separately.

Other Investments

The Company has investments in company-owned life insurance policies ("COLI"), which are recorded at their cash surrender value as of each balance sheet date, as provided below:

Investments in Company-Owned Life Insurance	Mar 31, 2024	Dec 31, 2023

2. Included in "Sundry income (expense) - net" in the consolidated statements of income.

3. Classified as "Other investments" in the consolidated balance sheets.

Supplier Finance Program

The Company facilitates a supply chain financing (“SCF”) program in the ordinary course of business in order to extend payment terms with vendors. Under the terms of this program, a vendor can voluntarily enter into an agreement with a participating financial intermediary to sell its receivables due from the Company. The vendor receives payment from the financial intermediary, and the Company pays the financial intermediary on the terms originally negotiated with the vendor, which generally range from 90 to 120 days. The vendor negotiates the terms of the agreements directly with the financial intermediary and the Company is not a party to that agreement. The financial intermediary may allow the participating vendor to utilize the Company’s creditworthiness in establishing credit spreads and associated costs, which may provide the vendor with more favorable terms than they would be able to secure on their own. The Company does not provide guarantees related to the SCF program. At March 31, 2024, outstanding obligations confirmed as valid under the SCF program were \$291 million (\$285 million at December 31, 2023), included in “Accounts payable – Trade” in the consolidated balance sheets.

NOTE 6 - INCOME TAXES

As the financial statements for Dow Inc. and TDCC are substantially similar, including the credit for income taxes, the following income tax discussion does not include reference to TDCC's credit for income taxes or its effective tax rate.

The Company's effective tax rate fluctuates based on, among other factors, where income is earned, the level of income relative to tax attributes and the level of equity earnings, since most earnings from the Company's equity method investments are taxed at the joint venture level. In the first quarter of 2024, the Company reported a credit for income taxes of \$89 million, resulting in an effective tax rate of negative 19.8 percent. In the first quarter of 2023, the Company reported a credit for income taxes of \$47 million, resulting in an effective tax rate of 39.2 percent. The credit for income taxes for the first quarter of 2024 was primarily due to a reassessment of interest and penalties related to a tax matter in a foreign jurisdiction, for which the Company recorded a tax credit of \$194 million. The credit for income taxes in 2023 was primarily due to a pretax loss in 2023 and benefits related to deferred tax assets in a foreign jurisdiction, partially offset by a remeasurement of uncertain tax positions.

NOTE 7 - EARNINGS PER SHARE CALCULATIONS

The following tables provide earnings per share calculations for Dow Inc. for the three months ended March 31, 2024 and 2023. Earnings per share of TDCC is not presented as this information is not required in financial statements of wholly owned subsidiaries.

1. Restricted stock units are considered participating securities due to the Company's practice of paying dividend equivalents on unvested shares.
2. The three months ended March 31, 2023 reflect a net loss and, as such, the basic share count was used for purposes of calculating earnings per share on a diluted basis.
3. These outstanding stock units were excluded from the calculation of diluted earnings per share because the effect of including them would have been antidilutive.

NOTE 9 - TRANSFERS OF FINANCIAL ASSETS

Accounts Receivable Programs

The Company maintains accounts receivable facilities with various financial institutions, with committed and uncommitted facilities in the United States and a committed facility in Europe (collectively, "the Programs"), which are set to expire in November 2025. Under the terms of the Programs, the Company may sell certain eligible trade accounts receivable at any point in time, up to \$900 million for the U.S. committed facility and up to €500 million for the Europe committed facility. In the first quarter of 2024, the Company sold \$279 million of receivables under the Programs (no sales of receivables in the first three months of 2023). Under the terms of the Programs, the Company continues to service the receivables from the customer, but retains no interest in the receivables, and remits payment to the financial institutions. At March 31, 2024, the Company had \$273 million outstanding (\$79 million outstanding at December 31, 2023). Losses on transfers of receivables were insignificant in the first quarter of 2024. The Company also provides a guarantee to the financial institutions for the creditworthiness and collection of the receivables in satisfaction of the facility. See Note 11 for additional information related to guarantees.

Beginning in the fourth quarter of 2023, the Company has access to an accounts receivable discounting facility that covers receivables generated from sales in EMEA. Beginning in the first quarter of 2024, the Company has access to a similar accounts receivable discounting facility that covers receivables generated from sales in Asia Pacific. Under the terms of these discounting facilities, the Company retains no interest in the transferred receivables once sold and receivables are transferred with limited recourse. In the first quarter of 2024, the Company sold \$148 million of receivables under these facilities (no sales of receivables in the first three months of 2023). Under the terms of the discounting facilities, the Company continues to service the receivables from the customer and had \$148 million outstanding at March 31, 2024 (\$91 million outstanding at December 31, 2023). Losses on transfers of receivables were insignificant in the first quarter of 2024.

2024 Activity

In the first quarter of 2024, the Company issued \$1.25 billion of senior unsecured notes. The offering included \$600 million aggregate principal amount of 5.15 percent notes due 2034 and \$650 million aggregate principal amount of 5.60 percent notes due 2054. The issuance was completed under the Company's Green Finance Framework. The Company will distribute the proceeds toward projects that support the execution of its sustainability strategy and achieve its targets focused on climate protection and a circular economy, including applicable expenditures and investments related to the Company's Fort Saskatchewan Path2Zero project.

In the first quarter of 2024, the Company issued an aggregate principal amount of \$9 million of InterNotes[®]. The Company also issued \$122 million of foreign currency loans. Additionally, the Company repaid \$63 million of long-term debt.

Debt Covenants and Default Provisions

There were no material changes to the debt covenants and default provisions related to the Company's outstanding long-term debt and primary, private credit agreements in the first three months of 2024. For additional information on the Company's debt covenants and

default provisions, see Note 13 to the Consolidated Financial Statements included in the 2023 10-K.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

A summary of the Company's commitments and contingencies can be found in Note 14 to the Consolidated Financial Statements included in the 2023 10-K, which is incorporated by reference herein.

Environmental Matters

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law and existing technologies. At March 31, 2024, the Company had accrued obligations of \$1,170 million for probable environmental remediation and restoration costs (\$1,180 million at December 31, 2023), including \$243 million for the remediation of Superfund sites (\$241 million at December 31, 2023). This is management's best estimate of the costs for remediation and restoration with respect to environmental matters for which the Company has accrued liabilities, although it is reasonably possible that the ultimate cost with respect to these particular matters could range up to approximately two times that amount. Consequently, it is reasonably possible that environmental remediation and restoration costs in excess of amounts accrued could have a material impact on the Company's results of operations, financial condition and cash flows. It is the opinion of the Company's management, however, that the possibility is remote that costs in excess of the range disclosed will have a material impact on the Company's results of operations, financial condition and cash flows. Inherent uncertainties exist in these estimates primarily due to unknown conditions, changing governmental regulations and legal standards regarding liability, and emerging remediation technologies for handling site remediation and restoration. As new or additional information becomes available and/or certain spending trends become known, management will evaluate such information in determination of the current estimate of environmental liability.

Litigation

Asbestos-Related Matters of Union Carbide Corporation

Each quarter, Union Carbide reviews asbestos-related claims filed, settled and dismissed, as well as average settlement and resolution costs by disease category. Union Carbide also considers additional quantitative and qualitative factors such as the nature of pending claims, trial experience of Union Carbide and other asbestos defendants, current spending for defense and processing costs, significant appellate rulings and legislative developments, trends in the tort system, and their respective effects on expected future resolution costs. Union Carbide's management considers these factors in conjunction with the most recent actuarial study and determines whether a change in the estimate is warranted. Based on Union Carbide's review of 2024 activity, it was determined that no adjustment to the accrual was required at March 31, 2024.

Union Carbide's total asbestos-related liability for pending and future claims and defense and processing costs was \$844 million at March 31, 2024 (\$867 million at December 31, 2023). At March 31, 2024, approximately 25 percent of the recorded claim liability related to pending claims and approximately 75 percent related to future claims.

Groundwater Contamination

The Company is the subject of various complaints related to alleged groundwater contamination based on decades-old sales and applications of certain agricultural chemical

products ("Legacy Liabilities"). The costs associated with these Legacy Liabilities were previously covered by insurance policies that have since been depleted. In the first quarter of 2023, the Company completed a study of the Legacy Liabilities now deemed to be probable and estimable based on the public reporting of sampling data and historical information to develop a reasonable estimate of the cost of pending and future claims. As a result, the Company recorded a pretax charge of \$177 million, included in "Cost of sales" in the consolidated statements of income and related to Industrial Intermediates & Infrastructure. At March 31, 2024, the total liability related to such alleged Legacy Liabilities settlements was \$162 million (\$232 million at December 31, 2023), which was included in "Accrued and other current liabilities" and "Other noncurrent obligations" in the consolidated balance sheets.

The Company is also the subject of other groundwater contamination complaints, including claims related to 1,4-dioxane. The Company continues to defend itself in this litigation and it has determined that the Company's exposure to liability, if any, is not probable or estimable at March 31, 2024.

Indemnifications with Corning Incorporated

The Company had indemnification assets with Corning Incorporated of \$41 million at March 31, 2024 (\$100 million at December 31, 2023) related to the 2016 ownership restructure of Dow Silicones, which were included in "Other current assets" and "Noncurrent receivables" in the consolidated balance sheets.

Gain Contingency - Dow v. Nova Chemicals Corporation Ethylene Asset Matter

As a result of a 2019 damages judgment related to the ethylene asset matter, Nova was ordered to pay the Company \$1.43 billion Canadian dollars (equivalent to approximately \$1.08 billion U.S. dollars), for which the Company received payment in October 2019 and March 2020. At March 31, 2024, \$201 million (\$201 million at December 31, 2023) was included in "Other noncurrent obligations" in the Company's consolidated balance sheets related to the disputed portion of the damages judgment.

Guarantees

The following table provides a summary of the final expiration, maximum future payments and recorded liability included in the consolidated balance sheets for guarantees:

Guarantees	Mar 31, 2024			Dec 31, 2023		
	Final Expiration	Maximum Future Payments ¹	Recorded Liability	Final Expiration	Maximum Future Payments ¹	Recorded Liability
In millions						
Guarantees	2038	\$ 1,643	\$ 191	2038	\$ 1,385	\$ 196

1. In addition, TDCC has provided guarantees, in proportion to the Company's 35 percent ownership interest, of all future interest payments that will become due on Sadara's project financing debt during the grace period, which Dow's share is estimated to be \$334 million at March 31, 2024 (\$298 million at December 31, 2023). The Company does not expect to be required to perform under the guarantees.

Guarantees arise during the ordinary course of business from relationships with customers, accounts receivable facilities and nonconsolidated affiliates when the Company undertakes an obligation to guarantee the performance of others (via delivery of cash or other assets) if specified triggering events occur. With guarantees, such as commercial or financial contracts, non-performance by the guaranteed party triggers the obligation of the Company to make payments to the beneficiary of the guarantee. The majority of the Company's guarantees relate to debt of nonconsolidated affiliates, which have expiration dates ranging from less than 1 year to 14 years. The Company's current expectation is that future payment or performance related to the non-performance of others is considered remote.

The Company maintains accounts receivable facilities with various financial institutions, with committed and uncommitted facilities in the United States and a committed facility in Europe. Under the terms of the Programs, the Company continues to service the receivables from the customer, but retains no interest in the receivables, and remits payment to the financial institutions. The Company also has access to accounts receivable discounting facilities, under which receivables are transferred with limited recourse. The Company's maximum guaranteed liability for the accounts receivable facilities is \$405 million at March 31, 2024 (\$150 million at December 31, 2023). The Company expects receivable collections and remittances to occur within the next six months.

TDCC has entered into guarantee agreements related to Sadara, a nonconsolidated affiliate. Sadara reached an agreement with its lenders to re-profile its outstanding project financing debt in the first quarter of 2021. In conjunction with the debt re-profiling, TDCC entered into a guarantee of up to approximately \$1.3 billion of Sadara's debt, proportionate to the

Company's 35 percent ownership interest. The debt re-profiling also includes a grace period until June 2026, during which Sadara is obligated to make interest-only payments which are guaranteed by TDCC in proportion to the Company's 35 percent ownership interest. As part of the debt re-profiling, Sadara established a \$500 million revolving credit facility guaranteed by Dow, which would be used to fund Dow's pro-rata share of any potential shortfall during the grace period.

NOTE 12 - LEASES

For additional information on the Company's leases, see Note 15 to the Consolidated Financial Statements included in the 2023 10-K.

3. Reclassified to "Sundry income (expense) - net."
4. These AOCL components are included in the computation of net periodic benefit cost (credit) of the Company's defined benefit pension and other postretirement benefit plans. See Note 15 for additional information.
5. Reclassified to "Cost of sales," "Sundry income (expense) - net" and "Interest expense and amortization of debt discount."

NOTE 14 - NONCONTROLLING INTERESTS

Ownership interests in the Company's subsidiaries held by parties other than the Company are presented separately from the Company's equity in the consolidated balance sheets as "Noncontrolling interests." The amount of consolidated net income attributable to the Company and the noncontrolling interests are both presented on the face of the consolidated statements of income.

The following table summarizes the activity for equity attributable to noncontrolling interests for the three months ended March 31, 2024 and 2023:

Noncontrolling Interests	Three Months Ended

Net periodic benefit cost (credit), other than the service cost component, is included in "Sundry income (expense) - net" in the consolidated statements of income.

NOTE 16 - STOCK-BASED COMPENSATION

A summary of the Company's stock-based compensation plans can be found in Note 19 to the Consolidated Financial Statements included in the 2023 10-K.

Stock Incentive Plan

The Company grants stock-based compensation to employees and non-employee directors under the 2019 Stock Incentive Plan, as amended. Most of the Company's stock-based compensation awards are granted in the first quarter of each year.

In the first quarter of 2024, Dow Inc. granted the following stock-based compensation awards to employees:

- 1.3 million stock options with a weighted-average exercise price of \$55.17 per share and a weighted-average fair value of \$10.94 per share;
- 2.0 million restricted stock units with a weighted-average fair value of \$55.18 per share; and
- 1.4 million performance stock units with a weighted-average fair value of \$58.42 per share.

Employee Stock Purchase Plan

The Dow Inc. 2021 Employee Stock Purchase Plan (the "2021 ESPP") was adopted by the Dow Inc. Board on February 11, 2021, and approved by stockholders at the Company's annual meeting on April 15, 2021. Under the 2024 annual offering of the 2021 ESPP, most employees will be eligible to purchase shares of common stock of Dow Inc. valued at up to 10 percent of their annual total base salary or wages. The number of shares purchased is determined using the amount contributed by the employee divided by the plan price. The plan price of the stock is equal to 85 percent of the fair market value (closing price) of the common stock at April 1, 2024 (beginning) or October 4, 2024 (ending) of the offering period, whichever is lower.

In the first quarter of 2024, employees subscribed to the right to purchase approximately 2.5 million shares under the 2021 ESPP. The plan price is fixed upon the close of the offering period and will be determined in the fourth quarter of 2024. The shares will be delivered to employees in the fourth quarter of 2024.

NOTE 17 - FINANCIAL INSTRUMENTS

A summary of the Company's financial instruments, risk management policies, derivative instruments and hedging activities can be found in Note 20 to the Consolidated Financial Statements included in the 2023 10-K.

Refer to Note 18 for a summary of the fair value of financial instruments at March 31, 2024 and December 31, 2023.

Debt Securities

The Company's investments in debt securities are primarily classified as available-for-sale. The following table provides investing results from available-for-sale securities for the three months ended March 31, 2024 and 2023:

1. The Company's held-to-maturity securities primarily included treasury bills and time deposits.
2. The Company's investments in marketable securities are included in "Other current assets" in the consolidated balance sheets.
3. Estimated asset for an investment in a limited liability company included in "Investment in nonconsolidated affiliates" in the consolidated balance sheets.
4. The Company's investments in debt securities, which are primarily available-for-sale, and equity securities are included in "Other investments" in the consolidated balance sheets.
5. U.S. Treasury obligations, U.S. agency obligations, U.S. agency mortgage-backed securities and other municipalities' obligations.
6. Equity securities with a readily determinable fair value.
7. See Note 17 for classification of derivatives in the consolidated balance sheets.
8. Cost includes fair value hedge adjustment gains of \$42 million at March 31, 2024 and \$49 million at December 31, 2023 on \$4,479 million of debt at March 31, 2024 and December 31, 2023.
9. Estimated liability for TDCC's guarantee of Sadara's debt which is included in "Other noncurrent obligations" in the consolidated balance sheets.

[Table of Contents](#)

Cost approximates fair value for all other financial instruments.

For equity securities calculated at net asset value per share (or its equivalent), the Company had \$85 million in private market securities and \$17 million in real estate at March 31, 2024 (\$86 million in private market securities and \$18 million in real estate at December 31, 2023). There are no redemption restrictions and the unfunded commitments on these investments were \$75 million at March 31, 2024 and December 31, 2023.

For assets classified as Level 3 measurements, fair value is based on significant unobservable inputs including assumptions where there is little, if any, market activity. The level 3 asset values represent the fair value of an investment in a corporate bond, accounted for as a debt security. At December 31, 2023, the level 3 asset values also included an investment in a limited liability company, accounted for as an investment in nonconsolidated affiliates, and with no unfunded commitment.

For liabilities classified as Level 3 measurements, fair value is based on significant unobservable inputs including assumptions where there is little, if any, market activity. The fair value of the Company's accrued liability related to the guarantee of Sadara's debt is in proportion to the Company's 35 percent ownership interest in Sadara. The estimated fair value of the guarantee was calculated using a "with" and "without" method. The fair value of the debt was calculated "with" the guarantee less the fair value of the debt "without" the guarantee. The "with" and "without" values were calculated using a discounted cash flow method based on contractual cash flows as well as projected prepayments made on the debt by Sadara.

Fair Value Measurements on a Nonrecurring Basis

In the first quarter of 2024, the Company recognized impairment charges of \$37 million related primarily to write-downs of certain manufacturing assets in the U.S. & Canada and EMEAI. The assets, classified as Level 3 measurements, were valued at \$60 million using unobservable inputs. The impairment charges were included in "Restructuring and asset related charges - net" in the consolidated statements of income and related to Packaging & Specialty Plastics.

In the first quarter of 2024, as part of the 2023 Restructuring Program, the Company recorded impairment charges of \$8 million for asset write-downs and write-offs related to the shutdown of certain polyurethanes assets, included in "Restructuring and asset related charges - net" in the consolidated statements of income and related to Industrial Intermediates & Infrastructure.

NOTE 19 - SEGMENTS AND GEOGRAPHIC REGIONS

Dow's measure of profit/loss for segment reporting purposes is Operating EBIT as this is the manner in which the Company's chief operating decision maker assesses performance and allocates resources. The Company defines Operating EBIT as earnings (i.e., "Income (loss) before income taxes") before interest, excluding the impact of significant items. Operating EBIT by segment includes all operating items relating to the businesses; items that principally apply to Dow as a whole are assigned to Corporate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Quarterly Report on Form 10-Q is a combined report being filed by Dow Inc. and The Dow Chemical Company and its consolidated subsidiaries ("TDCC" and together with Dow Inc., "Dow" or the "Company") due to the parent/subsidiary relationship between Dow Inc. and TDCC. The information reflected in the report is equally applicable to both Dow Inc. and TDCC, except where otherwise noted. Each of Dow Inc. and TDCC is filing information in this report on its own behalf and neither company makes any representation to the information relating to the other company.

Pursuant to General Instruction H(1)(a) and (b) for Form 10-Q "Omission of Information by Certain Wholly-Owned Subsidiaries," TDCC is filing this Form 10-Q with a reduced disclosure format.

Except as otherwise indicated by the context, the term "Union Carbide" means Union Carbide Corporation and the term "Dow Silicones" means Dow Silicones Corporation, both wholly owned subsidiaries of the Company.

OUTLOOK

In the near-term, demand in key end-markets from packaging and mobility to energy applications, is trending sequentially higher and in-line with the Company's expectations at the start of the year. In addition, the Company's high-value organic growth investments and advantaged portfolio position it well to deliver earnings growth and enhanced shareholder value as the economic recovery gathers strength. This allows the Company the financial flexibility to advance its long-term Decarbonize & Growth and Transform the Waste strategies and capture underlying earnings improvement.

OVERVIEW

The following is a summary of the results for the three months ended March 31, 2024:

- The Company reported net sales in the first quarter of 2024 of \$10.8 billion, down 9 percent from \$11.9 billion in the first quarter of 2023, with decreases across all operating segments and geographic regions; Packaging & Specialty Plastics and Industrial Intermediates & Infrastructure (both down 11 percent) and Performance Materials & Coatings (down 5 percent).
- Local price decreased 10 percent compared with the first quarter of 2023, with decreases across all operating segments and geographic regions; Packaging & Specialty Plastics (down 8 percent), Industrial Intermediates & Infrastructure (down 14 percent) and Performance Materials & Coatings (down 9 percent).
- Volume increased 1 percent compared with the first quarter of 2023. Volume was mixed by operating segment; Packaging & Specialty Plastics (down 3 percent), Industrial Intermediates & Infrastructure and Performance Materials & Coatings (both up 4 percent). Volume increased in all geographic regions, except EMEA (down 2 percent).
- Currency impact on net sales was flat compared with the first quarter of 2023.

- Equity in earnings of nonconsolidated affiliates was \$17 million in the first quarter of 2024, compared with equity in losses of nonconsolidated affiliates of \$48 million in the first quarter of 2023, primarily due to improved results at the Company's Kuwait and Sadara joint ventures.
- Net income (loss) available for Dow Inc. and TDCC common stockholder(s) was income of \$516 million and \$521 million, respectively, in the first quarter of 2024, compared with losses of \$93 million and \$100 million, respectively, in the first quarter of 2023. Earnings (loss) per share for Dow Inc. was earnings per share of \$0.73 in the first quarter of 2024, compared with a loss per share of \$0.13 in the first quarter of 2023.
- Cash provided by operating activities - continuing operations was \$460 million in the first quarter of 2024, down \$71 million compared with the first quarter of 2023.
- Dow Inc. repurchased \$200 million of the Company's common stock in the first quarter of 2024.
- On January 19, 2024, Moody's Ratings affirmed TDCC's Baa1 and P-2 rating, and affirmed its outlook of stable.
- On January 25, 2024, the Company published its Green Finance Framework and related Second Party Opinion on its website, to support the execution of its sustainability strategy.

[Table of Contents](#)

- On February 7, 2024, TDCC issued \$1.25 billion of senior unsecured notes under its Green Finance Framework.
- On February 15, 2024, Dow Inc. announced that its Board of Directors ("Board") declared a dividend of \$0.70 per share, which was paid on March 8, 2024, to shareholders of record as of February 29, 2024.

In addition, the following events occurred subsequent to the first quarter of 2024:

- On April 2, 2024, the Company announced that Mauro Gregorio, President of Performance Materials & Coatings, has elected to retire in the third quarter of 2024 after 40 years of service.
- On April 2, 2024, the Company announced that Brendy Lange, business vice president of Dow Industrial Solutions, was named President of Performance Materials & Coatings.
- On April 11, 2024, Dow Inc. announced that its Board declared a dividend of \$0.70 per share, payable on June 14, 2024, to shareholders of record as of May 31, 2024.

RESULTS OF OPERATIONS

Net Sales

The following tables summarize net sales and sales variances by operating segment and geographic region from the prior year:

Summary of Sales Results	Three Months Ended

Asia Pacific	(11)	(2)	7	(6)
Latin America	(7)	—	2	(5)
Total	(10)%	— %	1 %	(9)%

Net sales in the first quarter of 2024 were \$10.8 billion, down 9 percent from \$11.9 billion in the first quarter of 2023, with local price down 10 percent, volume up 1 percent and currency flat. Net sales decreased in all operating segments and geographic regions. Local price decreased in Packaging & Specialty Plastics (down 8 percent), Industrial Intermediates & Infrastructure (down 14 percent), and Performance Materials & Coatings (down 9 percent), driven by lower global feedstock and energy costs. Volume increased in all geographic regions except EMEA (down 2 percent). Volume decreased in Packaging & Specialty Plastics (down 3 percent), driven by Hydrocarbons and Energy primarily due to higher downstream derivative polymer demand, as well as lighter feedstock cracking in EMEA, and increased in Industrial Intermediates & Infrastructure and Performance Materials & Coatings (both up 4 percent). Excluding the Hydrocarbons & Energy business, net sales decreased 7 percent.

Cost of Sales

Cost of sales ("COS") was \$9.5 billion in the first quarter of 2024, compared with \$10.6 billion in the first quarter of 2023. COS in the first quarter of 2024 decreased primarily due to lower raw material costs, lower global energy and feedstock costs and the impact of structural cost improvements. COS as a percentage of net sales was 88.1 percent in the first quarter of 2024 (89.7 percent in the first quarter of 2023).

Research and Development Expenses

Research and development ("R&D") expenses totaled \$204 million in the first quarter of 2024, compared with \$214 million in the first quarter of 2023. R&D expenses in the first quarter of 2024 decreased primarily due to the impact of structural cost improvements and lower fringe benefit expenses, which were partially offset by higher performance based compensation costs.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses totaled \$442 million in the first quarter of 2024, compared with \$428 million in the first quarter of 2023. SG&A expenses increased in the first quarter of 2024, primarily due to higher bad debt expense as the result of the resolution of a dispute with a customer and performance based compensation costs, which were partially offset by the impact of structural cost improvements.

Amortization of Intangibles

Amortization of intangibles was \$81 million in the first quarter of 2024 and 2023.

Equity in Earnings (Losses) of Nonconsolidated Affiliates

The Company's share of equity in earnings of nonconsolidated affiliates was \$17 million in the first quarter of 2024, compared with equity in losses of nonconsolidated affiliates of \$48 million in the first quarter of 2023, an increase of \$65 million primarily due to improved performance at the Kuwait and Sadara joint ventures, partially offset by losses at the Company's non-principal joint ventures. Cash dividends from nonconsolidated affiliates were \$92 million in the first three months of 2024, compared with \$53 million in the first three months of 2023.

Sundry Income (Expense) - Net

For the three months ended March 31, 2024, Sundry income (expense) - net was income of \$61 million for Dow Inc. and TDCC compared with income of \$79 million and \$69 million, respectively, for the three months ended March 31, 2023. The first quarter of 2024 and 2023 included non-operating pension and postretirement benefit plan credits and gains on the sales of assets and investments, which were partially offset by foreign currency exchange losses.

Interest Expense and Amortization of Debt Discount

Interest expense and amortization of debt discount was \$199 million in the first quarter of 2024, compared with \$185 million in the first quarter of 2023. The increase in interest expense is primarily due to borrowings outside of the United States and \$1.25 billion of senior unsecured notes issued in the first quarter of 2024.

Credit for Income Taxes

The Company's effective tax rate fluctuates based on, among other factors, where income is earned, the level of income relative to tax attributes and the level of equity earnings, since most earnings from the Company's equity method investments are taxed at the joint venture level. In the first quarter of 2024, Dow Inc. and TDCC reported a credit for income taxes of \$89 million, resulting in a negative effective tax rate of 19.8 percent and 19.6 percent, respectively. In the first quarter of 2023, the Company reported a credit for income taxes of \$47 million, resulting in an effective tax rate of 39.2 percent and 37.0 percent for Dow Inc. and TDCC, respectively. See Note 6 to the Consolidated Financial Statements for additional information about the Company's income taxes and effective tax rates.

The Company continues to monitor and evaluate legislative developments related to the Global Anti-Base Erosion Proposal Regime ("GloBE") established by the Organization of Economic Cooperation and Development's ("OECD") Pillar Two framework. Several countries in which the Company operates have adopted GloBE into their legislation and several others are expected to enact these rules in the future. To date, such legislation has not materially impacted the Company's effective tax rate.

Net Income (Loss) Available for Common Stockholder(s)

Dow Inc.

Net income (loss) available for Dow Inc. common stockholders was income of \$516 million, or \$0.73 per share, in the first quarter of 2024, compared with a loss of \$93 million, or \$0.13 per share, in the first quarter of 2023. See Note 7 to the Consolidated Financial Statements for details on Dow Inc.'s earnings (loss) per share calculations.

TDCC

Net income (loss) available for the TDCC common stockholder was income of \$521 million in the first quarter of 2024, compared with a loss of \$100 million in the first quarter of 2023. TDCC's common shares are owned solely by Dow Inc.

SEGMENT RESULTS

For further discussion of the Company's segments, see Part I, Item 1. Business of the combined Dow Inc. and TDCC Annual Report on Form 10-K for the fiscal year ended December 31, 2023 ("2023 10-K"), filed with the SEC on January 31, 2024.

Dow's measure of profit/loss for segment reporting purposes is Operating EBIT as this is the manner in which the Company's chief operating decision maker assesses performance and allocates resources. The Company defines Operating EBIT as earnings (i.e., "Income (loss) before income taxes") before interest, excluding the impact of significant items. Operating EBIT by segment includes all operating items relating to the businesses; items that principally apply to Dow as a whole are assigned to Corporate.

Packaging & Specialty Plastics net sales were \$5,430 million in the first quarter of 2024, down 11 percent from net sales of \$6,114 million in the first quarter of 2023, with local price down 8 percent, volume down 3 percent and currency flat. Local price decreased in Packaging and Specialty Plastics in all geographic regions, driven by lower raw material and energy prices and unfavorable supply and demand dynamics. Local price decreased in Hydrocarbons & Energy, primarily in the U.S. & Canada, due to lower energy and feedstock costs. Volume increased in Packaging and Specialty Plastics, primarily in Asia Pacific, due to higher functional polymers and polyethylene demand, which more than offset decreases for non-recurring licensing sales in EMEAI. Volume decreased in Hydrocarbons & Energy, primarily due to higher internal derivative demand and lighter feedslate cracking which resulted in lower third-party hydrocarbon sales in EMEAI and the U.S. & Canada.

Operating EBIT was \$605 million in the first quarter of 2024, down \$37 million from Operating EBIT of \$642 million in the first quarter of 2023. Operating EBIT decreased primarily due to lower selling prices, which were partially offset by lower raw material, energy and feedstock costs.

Industrial Intermediates & Infrastructure net sales were \$3,008 million in the first quarter of 2024, down 11 percent from \$3,378 million in the first quarter of 2023, with local price down 14 percent, volume up 4 percent and an unfavorable currency impact of 1 percent. Local price decreased in both businesses and across all geographic regions, driven by unfavorable supply and demand dynamics in Polyurethanes & Construction Chemicals and lower energy and raw material costs in Industrial Solutions. Volume increased in Polyurethanes & Construction Chemicals across all geographic regions, led by EMEAI, primarily in building and construction and industrial applications. Volume decreased in Industrial Solutions, with a decline in the U.S. & Canada due to an ongoing outage from 2023 related to a significant unplanned event at the Louisiana Operations Glycol-2 unit in Plaquemine, Louisiana, which was partially offset by increases in Asia Pacific and Latin America. Currency had an unfavorable impact on sales in both businesses, driven by Asia Pacific and EMEAI.

Operating EBIT was \$87 million in the first quarter of 2024, down \$36 million from Operating EBIT of \$123 million in the first quarter of 2023. Operating EBIT decreased primarily due to lower selling prices in both businesses, which was partially offset by lower raw material, energy and feedstock costs, improved results at the EQUATE and Sadara joint ventures and volume gains in Polyurethanes & Construction Chemicals.

Performance Materials & Coatings net sales were \$2,152 million in the first quarter of 2024, down 5 percent from net sales of \$2,276 million in the first quarter of 2023, with local price down 9 percent, volume up 4 percent and currency flat. Local price decreased in both businesses and across all geographic regions, primarily driven by unfavorable supply and demand dynamics. Volume increased in Coatings & Performance Monomers across all geographic regions, primarily driven by increased demand for acrylic monomers. Volume was flat in Consumer Solutions, with increases in the U.S. & Canada and Latin America offset by decreases in EMEA and Asia Pacific.

Operating EBIT was \$41 million in the first quarter of 2024, up \$6 million from Operating EBIT of \$35 million in the first quarter of 2023. Operating EBIT increased primarily due to improved demand and higher operating rates, which were partially offset by margin compression.

Net sales for Corporate, which primarily relate to the Company's insurance operations, were \$175 million in the first quarter of 2024, an increase from net sales of \$83 million in the first quarter of 2023.

Operating EBIT was a loss of \$59 million in the first quarter of 2024, compared with a loss of \$92 million in the first quarter of 2023. Operating EBIT increased primarily due to lower environmental costs.

CHANGES IN FINANCIAL CONDITION

The Company had cash and cash equivalents of \$3,723 million at March 31, 2024 and \$2,987 million at December 31, 2023, of which \$1,618 million at March 31, 2024 and \$1,984 million at December 31, 2023 was held by subsidiaries in foreign countries, including U.S. territories. For each of its foreign subsidiaries, Dow makes an assertion regarding the amount of earnings intended for permanent reinvestment, with the balance available to be repatriated to the United States.

Cash held by foreign subsidiaries for permanent reinvestment is generally used to finance the subsidiaries' operational activities and future foreign investments. Dow has the ability to repatriate additional funds to the United States, which could result in an adjustment to the tax liability for foreign withholding taxes, foreign and/or U.S. state income taxes and the impact of foreign currency movements. At March 31, 2024, management believed that sufficient liquidity was available in the United States. The Company has and expects to

continue repatriating certain funds from its non-U.S. subsidiaries that are not needed to finance local operations; however, these particular repatriation activities have not and are not expected to result in a significant incremental tax liability to the Company.

The Company's cash flows from operating, investing and financing activities, as reflected in the consolidated statements of cash flows, are summarized in the following table:

Cash Flows from Operating Activities

Cash provided by operating activities from continuing operations in the first three months of 2024 was primarily driven by the Company's cash earnings and dividends from equity method investments, which were partially offset by cash used for working capital and performance-based compensation payments. Cash provided by operating activities from continuing operations in the first three months of 2023 was primarily driven by the Company's cash earnings, which were partially offset by cash used for working capital requirements and performance-based compensation payments.

Cash provided by operating activities from discontinued operations in the first three months of 2024 and 2023 reflected cash payments and receipts for certain agreements and matters related to the separation from DowDuPont Inc. ("DowDuPont").

Cash Flows from Investing Activities

Cash used for investing activities in the first three months of 2024 and 2023 were primarily for capital expenditures and purchases of investments, which were partially offset by proceeds from sales and maturities of investments.

The Company's capital expenditures were \$714 million in the first three months of 2024, compared with \$440 million in the first three months of 2023. The Company expects full year capital spending in 2024 to be approximately \$3 billion, which includes the ramp up of the construction of the Company's Fort Saskatchewan Path2Zero project. The Company expects capital spending to average approximately \$1 billion annually through 2029 for this key growth project. Enterprise-wide capital spending is expected to exceed depreciation and amortization through 2027, during the first phase of the project. The Company will adjust its spending as economic conditions evolve.

Cash Flows from Financing Activities

Cash provided by financing activities in the first three months of 2024 was primarily due to proceeds from issuance of long-term debt. In addition, Dow Inc. included cash outflows for dividends paid to stockholders and purchases of treasury stock. TDCC included cash outflows for dividends paid to Dow Inc. Cash used for financing activities in the first three months of 2023 was primarily for debt related activities, partially offset by proceeds from issuance of common stock. In addition, Dow Inc. included cash outflows for dividends paid to stockholders and purchases of treasury stock. TDCC included cash outflows for dividends paid to Dow Inc.

Dow Inc. Non-GAAP Cash Flow Measures

Free Cash Flow

Dow defines Free Cash Flow as "Cash provided by operating activities - continuing operations," less capital expenditures. Under this definition, Free Cash Flow represents the cash generated by Dow from operations after investing in its asset base. Free Cash Flow, combined with cash balances and other sources of liquidity, represents the cash available to fund obligations and provide returns to shareholders. Free Cash Flow is an integral financial measure used in the Company's financial planning process.

Operating EBITDA

Dow defines Operating EBITDA as earnings (i.e., "Income (loss) before income taxes") before interest, depreciation and amortization, excluding the impact of significant items.

Cash Flow Conversion (Cash Flow from Operations to Operating EBITDA)

Dow defines Cash Flow Conversion (Cash Flow from Operations to Operating EBITDA) as "Cash provided by operating activities - continuing operations," divided by Operating EBITDA. Management believes Cash Flow Conversion is an important financial metric as it helps the Company determine how efficiently it is converting its earnings into cash flow.

These financial measures are not recognized in accordance with accounting principles generally accepted in the United States of America ("GAAP") and should not be viewed as alternatives to GAAP financial measures of performance. All companies do not calculate non-GAAP financial measures in the same manner and, accordingly, Dow's definitions may not be consistent with the methodologies used by other companies.

1. The three months ended March 31, 2024 includes restructuring charges and implementation and efficiency costs associated with the Company's 2023 Restructuring Program and impairment charges related to write-downs of certain manufacturing assets. The three months ended March 31, 2023 includes restructuring charges and implementation and efficiency costs associated with the Company's 2023 Restructuring Program, certain gains and losses associated with previously impaired equity investments, a loss associated with legacy agricultural products groundwater contamination matters and activity related to the separation from DowDuPont. See Note 19 to the Consolidated Financial Statements for additional information.

2. Cash flow from operations to net income is not applicable for the three months ended March 31, 2023 due to a net loss for the period.

Liquidity & Financial Flexibility

The Company's primary source of incremental liquidity is cash flows from operating activities. The generation of cash from operations and the Company's ability to access capital markets is expected to meet the Company's cash requirements for working capital, capital expenditures, debt maturities, contributions to pension plans, dividend distributions to stockholders, share repurchases and other needs. In addition to cash from operating activities, the Company's current liquidity sources also include TDCC's U.S. and Euromarket commercial paper programs, committed and uncommitted credit facilities, committed accounts receivable facilities, a medium-term notes program, a U.S. retail note program ("InterNotes®") and other debt markets.

The Company continues to maintain a strong financial position with all of its committed credit facilities undrawn and fully available at March 31, 2024. Cash and committed and available forms of liquidity were \$13.5 billion at March 31, 2024. The Company also has no substantive long-term debt maturities due until 2027. As a well-known seasoned issuer the Company may issue debt at any time as an additional source of liquidity. Additional details on sources of liquidity are as follows:

Commercial Paper

TDCC issues promissory notes under its U.S. and Euromarket commercial paper programs. TDCC had no commercial paper outstanding at March 31, 2024. TDCC maintains access to the commercial paper market at competitive rates. Amounts outstanding under TDCC's commercial paper programs during the period may be greater or less than the amount reported at the end of the period. TDCC did not issue commercial paper subsequent to March 31, 2024.

Committed Credit Facilities

The Company also has the ability to access liquidity through TDCC's committed and available credit facilities. At March 31, 2024, TDCC had total committed and available credit facilities of \$8.4 billion.

Uncommitted Credit Facilities

The Company has entered into various uncommitted bilateral credit arrangements as a potential source of excess liquidity. These lines can be used to support short-term liquidity needs and for general purposes. The Company had no drawdowns outstanding at March 31, 2024.

Accounts Receivable Securitization Facilities

In addition to the above credit facilities, the Company maintains a committed accounts receivable facility in the U.S. where eligible trade accounts receivable, up to \$900 million, may be sold at any point in time. The Company also maintains a committed accounts receivable facility in Europe where eligible trade accounts receivable, up to €500 million, may be sold at any point in time. In the first quarter of 2024, there were \$112 million in sales of receivables under the U.S. and Europe committed accounts receivable facilities (no sales of receivables in the first three months of 2023). At March 31, 2024, approximately \$105 million of sold receivables were outstanding.

In addition, the Company has an uncommitted accounts receivable facility in the United States providing additional liquidity. Sales of receivables under this facility were \$167 million

in the first three months of 2024 (no sales of receivables in the first three months of 2023). See Note 9 to the Consolidated Financial Statements for additional information.

Early Settlement of Letters of Credit

The Company utilizes, from time-to-time, letters of credit discounting programs to manage and expedite the settlement of letters of credit in certain regions. These letters of credit are associated with accounts receivable and the Company retains no interest in the transferred letters of credit or receivables once sold.

Accounts Receivable Discounting Facilities

The Company has access to accounts receivable discounting facilities, under which receivables are transferred with limited recourse. The Company retains no interest in the transferred receivables once sold. See Note 9 to the Consolidated Financial Statements for additional information.

The Company maintains these facilities and also participates in certain customers' supply chain financing and other early pay programs as a routine source of working capital.

[Table of Contents](#)

Company-Owned Life Insurance

The Company has investments in company-owned life insurance ("COLI") policies, which are recorded at their cash surrender value as of each balance sheet date. The Company has the ability to monetize its investment in its COLI policies as an additional source of liquidity. At March 31, 2024, the Company had monetized \$198 million of its existing COLI policies' surrender value (\$97 million at December 31, 2023). See Note 5 to the Consolidated Financial Statements for additional information.

Debt

As the Company continues to maintain its strong balance sheet and financial flexibility, management is focused on net debt (a non-GAAP financial measure), as the Company believes this is the best representation of its financial leverage at this point in time. As shown in the following table, net debt is equal to total gross debt minus "Cash and cash equivalents" and "Marketable securities."

1. Included in "Other current assets" in the consolidated balance sheets.

The Company may at any time repurchase certain debt securities in the open market or in privately negotiated transactions subject to: the applicable terms under which any such debt securities were issued, certain internal approvals of the Company, and applicable laws and regulations of the relevant jurisdiction in which any such potential transactions might take place. This in no way obligates the Company to make any such repurchases nor should it be considered an offer to do so.

TDCC's public debt instruments and primary, private credit agreements contain, among other provisions, certain customary restrictive covenant and default provisions. TDCC's most significant debt covenant with regard to its financial position is the obligation to maintain the ratio of its consolidated indebtedness to consolidated capitalization at no greater than 0.70 to 1.00 at any time the aggregate outstanding amount of loans under the Five Year Competitive Advance and Revolving Credit Facility Agreement ("Revolving Credit

Agreement") equals or exceeds \$500 million. The ratio of TDCC's consolidated indebtedness to consolidated capitalization as defined in the Revolving Credit Agreement was 0.44 to 1.00 at March 31, 2024. Management believes TDCC was in compliance with all of its covenants and default provisions at March 31, 2024. For information on TDCC's debt covenants and default provisions, see Note 13 to the Consolidated Financial Statements included in the 2023 10-K. There were no material changes to the debt covenants and default provisions related to TDCC's outstanding long-term debt and primary, private credit agreements in the first three months of 2024.

In the first quarter of 2024, the Company issued \$1.25 billion of senior unsecured notes. The offering included \$600 million aggregate principal amount of 5.15 percent notes due 2034 and \$650 million aggregate principal amount of 5.60 percent notes due 2054. The issuance was completed under the Company's Green Finance Framework. The Company will distribute the proceeds toward projects that support the execution of its sustainability strategy and achieve its targets focused on climate protection and a circular economy, including applicable expenditures and investments related to the Company's Fort Saskatchewan Path2Zero project, which is expected to deliver organic growth while decarbonizing 20 percent of the Company's global ethylene capacity.

[Table of Contents](#)

In the first quarter of 2024, the Company issued an aggregate principal amount of \$9 million of InterNotes[®]. The Company also issued \$122 million of foreign currency loans. Additionally, the Company repaid \$63 million of long-term debt.

While taking into consideration the current economic environment, management expects that the Company will continue to have sufficient liquidity and financial flexibility to meet all of its business obligations.

Credit Ratings

At March 31, 2024, TDCC's credit ratings were as follows:

Credit Ratings	Long-Term Rating	Short-Term Rating	Outlook
Fitch Ratings	BBB+	F1	Stable
Moody's Ratings	Baa1	P-2	Stable
Standard & Poor's	BBB	A-2	Stable

On January 19, 2024, Moody's Ratings affirmed TDCC's Baa1 and P-2 rating, and affirmed its outlook of stable. The credit agency's decision was made as part of its annual review process and reflect the Company's supportive financial policies and strong operating performance.

Dividends

Dow Inc.

Dow Inc. has paid dividends on a quarterly basis since the separation from DowDuPont and expects to continue to do so, subject to approval by the Dow Inc. Board. Dividends declared by the Board align to the Company's strategy announced in 2018 of returning approximately 45 percent of Operating Net Income to shareholders through dividends and total shareholder remuneration of approximately 65 percent, when including share repurchases, over the economic cycle. The Company defines Operating Net Income, a non-GAAP measure, as "Net income available for Dow Inc. common stockholders," excluding the impact of significant items. The following table summarizes dividends declared and paid to common stockholders of record in 2024:

Dow Inc. Dividends Declared and Paid			
Declaration Date	Record Date	Payment Date	Amount (per share)
February 15, 2024	February 29, 2024	March 8, 2024	\$ 0.70
April 11, 2024	May 31, 2024	June 14, 2024	\$ 0.70

TDCC

TDCC has committed to fund Dow Inc.'s dividends paid to common stockholders and share repurchases, as approved by the Dow Inc. Board, as well as certain governance expenses. Funding is accomplished through intercompany loans. TDCC's Board reviews and determines a dividend distribution to Dow Inc. to settle the intercompany loans. For the three months ended March 31, 2024, TDCC declared a dividend of \$791 million and paid a dividend of \$698 million to Dow Inc. (\$620 million dividend declared and paid to Dow Inc. for the three

months ended March 31, 2023). At March 31, 2024, TDCC's intercompany loan balance with Dow Inc. was insignificant.

Share Repurchase Program

On April 13, 2022, the Dow Inc. Board approved a share repurchase program authorizing up to \$3 billion for the repurchase of the Company's common stock, with no expiration date. The Company repurchased \$200 million of its common stock in the first quarter of 2024. At March 31, 2024, approximately \$1,225 million of the share repurchase program authorization remained available for repurchases. As previously announced, the Company intends to repurchase shares to cover dilution over the cycle. The Company may from time to time expand its share repurchases beyond dilution, based on a number of factors including macroeconomic conditions, free cash flow generation, and the Dow share price. Any share repurchases, when coupled with the Company's dividends, are intended to implement the long-term strategy of targeting shareholder remuneration of approximately 65 percent over the economic cycle.

Pension Plans

The Company has both funded and unfunded defined benefit pension plans that cover employees in the United States and a number of other countries. The Company's funding policy is to contribute to funded plans when pension laws and/or economics either require or encourage funding. See Note 15 to the Consolidated Financial Statements, and Note 18 to the Consolidated Financial Statements included in the 2023 10-K for additional information related to the Company's pension plans.

Restructuring

The actions related to the 2023 Restructuring Program are expected to result in additional cash expenditures of \$74 million, primarily through 2024, and consist of severance and related benefit costs. Restructuring implementation costs, primarily decommissioning and demolition activities related to asset actions, and costs associated with the Company's productivity and efficiency actions, are expected to result in additional cash expenditures of approximately \$255 million, primarily through 2024. Restructuring implementation and efficiency costs totaled \$46 million in the first quarter of 2024.

The Company expects to incur additional costs in the future related to its restructuring activities, which will be recognized as incurred. The Company also expects to incur additional employee-related costs, including involuntary termination benefits related to its other optimization activities. These costs cannot be reasonably estimated at this time. See Note 4 to the Consolidated Financial Statements for additional information on the Company's restructuring activities.

Contractual Obligations

Information related to the Company's contractual obligations, commercial commitments and expected cash requirements for interest can be found in Notes 13, 14, 15 and 18 to the Consolidated Financial Statements included in the 2023 10-K. With the exception of the items noted below, there have been no material changes in the Company's contractual obligations since December 31, 2023.

Contractual Obligations at Mar 31, 2024	Payments Due In				Total

1. Excludes unamortized debt discount and issuance costs of \$263 million. Includes finance lease obligations of \$908 million.

2. Cash requirements for interest on long-term debt was calculated using current interest rates at March 31, 2024, and includes \$84 million of various floating rate notes.

3. Includes outstanding purchase orders and other commitments greater than \$1 million obtained through a survey conducted within the Company.

Fair Value Measurements

See Note 18 to the Consolidated Financial Statements for information concerning fair value measurements.

OTHER MATTERS

Critical Accounting Estimates

The preparation of financial statements and related disclosures in accordance with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. Note 1 to the Consolidated Financial Statements included in the 2023 10-K describes the significant accounting policies and methods used in the preparation of the consolidated financial statements. The Company's critical accounting policies that are impacted by judgments, assumptions and estimates are described in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2023 10-K. Since December 31, 2023, there have been no material changes in the Company's accounting policies that are impacted by judgments, assumptions and estimates.

Asbestos-Related Matters of Union Carbide Corporation

Union Carbide is and has been involved in a large number of asbestos-related suits filed primarily in state courts during the past four decades. These suits principally allege personal injury resulting from exposure to asbestos-containing products and frequently seek both actual and punitive damages. The alleged claims primarily relate to products that Union Carbide sold in the past, alleged exposure to asbestos-containing products located on Union Carbide's premises, and Union Carbide's responsibility for asbestos suits filed against a former Union Carbide subsidiary, Amchem Products, Inc. ("Amchem"). In many cases, plaintiffs are unable to demonstrate that they have suffered any compensable loss as a result of such exposure, or that injuries incurred in fact resulted from exposure to Union Carbide's products.

The table below provides information regarding asbestos-related claims pending against Union Carbide and Amchem based on criteria developed by Union Carbide and its external consultants:

Asbestos-Related Claim Activity	2024	2023
Claims unresolved at Jan 1	6,367	6,873
Claims filed	1,109	940
Claims settled, dismissed or otherwise resolved	(1,198)	(765)
Claims unresolved at Mar 31	6,278	7,048
Claimants with claims against both Union Carbide and Amchem	(1,013)	(1,479)
Individual claimants at Mar 31	5,265	5,569

Plaintiffs' lawyers often sue numerous defendants in individual lawsuits or on behalf of numerous claimants. As a result, the damages alleged are not expressly identified as to Union Carbide, Amchem or any other particular defendant, even when specific damages are alleged with respect to a specific disease or injury. For these reasons and based upon Union Carbide's litigation and settlement experience, Union Carbide does not consider the damages alleged against Union Carbide and Amchem to be a meaningful factor in its determination of any potential asbestos-related liability.

For additional information, see Asbestos-Related Matters of Union Carbide Corporation in Note 11 to the Consolidated Financial Statements; Part II, Item 1. Legal Proceedings; and Note 14 to the Consolidated Financial Statements included in the 2023 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Note 17 to the Consolidated Financial Statements and Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk in the combined Dow Inc. and TDCC Annual Report on Form 10-K for the year ended December 31, 2023, for information on the Company's utilization of financial instruments and an analysis of the sensitivity of these instruments.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, Dow Inc. and The Dow Chemical Company (the "Companies") carried out an evaluation, under the supervision and with the participation of the Companies' Disclosure Committee and the Companies' management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Companies' disclosure controls and procedures pursuant to paragraph (b) of Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Companies' disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Companies' internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 and 15d-15 that was conducted during the quarter ended March 31, 2024, that have materially affected, or are reasonably likely to materially affect, the Companies' internal control over financial reporting.

ITEM 1. LEGAL PROCEEDINGS

Asbestos-Related Matters of Union Carbide Corporation

No material developments regarding this matter occurred in the first three months of 2024. For a current status of this matter, see Note 11 to the Consolidated Financial Statements.

Environmental Proceedings

On December 16, 2022, the U.S. Department of Justice filed a complaint and proposed consent decree on behalf of the U.S. Environmental Protection Agency ("EPA") relating to environmental contamination at the Lower Passaic River Study Area Superfund Site in New Jersey. The EPA filed an amended complaint and proposed consent decree on January 17, 2024. The proposed consent decree includes a requirement that 85 settling defendants, including the Company's Essex Chemical Corporation subsidiary ("Essex"), make a collective payment of \$150 million for the EPA's past and anticipated future response costs, with Essex's share of the group settlement costs being \$1.15 million. On January 31, 2024, the EPA filed a motion for approval and entry of the consent decree.

On February 29, 2024, Dow Brasil Indústria e Comércio de Produtos Químicos Ltda entered into a formal settlement agreement with INEMA, the Bahia, Brazil, state environmental agency, resolving the agency's penalties relating to Dow's historic brine mining operations on Matarandiba Island, which INEMA alleged have contributed to environmental issues at the location. Pursuant to the agreement, Dow paid a fine equivalent to approximately \$1.46 million to the agency in March 2024.

ITEM 1A. RISK FACTORS

Since December 31, 2023, there have been no material changes to the Company's Risk Factors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities
