MATCH GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1—THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Match Group, Inc., through its portfolio companies, is a leading provider of digital technologies designed to help people make meaningful connections. Our global portfolio of brands includes Tinder®, Hinge®, Match®, Meetic®, OkCupid®, Pairs™, Plenty Of Fish®, Azar®, BLK®, and more, each built to increase our users' likelihood of connecting with others. Through our trusted brands, we provide tailored services to meet the varying preferences of our users. Our services are available in over 40 languages to our users all over the world. Match Group has one operating segment, Connections, which is managed as a portfolio of brands.

As used herein, "Match Group," the "Company," "we," "our," "us," and similar terms refer to Match Group, Inc. and its subsidiaries, unless the context indicates otherwise.

Basis of Presentation and Consolidation

The Company prepares its consolidated financial statements in accordance with U.S. generally accepted accounting principles ("GAAP"). The consolidated financial statements include the accounts of the Company, all entities that are wholly-owned by the Company and all entities in which the Company has a controlling financial interest. Intercompany transactions and accounts have been eliminated.

In management's opinion, the unaudited interim consolidated financial statements have been prepared on the same basis as the annual consolidated financial statements and reflect, in management's opinion, all adjustments, consisting of normal and recurring adjustments, necessary for the fair presentation of our consolidated financial position, consolidated results of operations and consolidated cash flows for the periods presented. Interim results are not necessarily indicative of the results that may be expected for the full year. The accompanying unaudited consolidated financial statements should be read in conjunction with the consolidated statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

Accounting Estimates

Management of the Company is required to make certain estimates, judgments, and assumptions during the preparation of its consolidated financial statements in accordance with GAAP. These estimates, judgments, and assumptions impact the reported amounts of assets, liabilities, revenue, and expenses and the related disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

On an ongoing basis, the Company evaluates its estimates and judgments including those related to: the fair values of cash equivalents, the carrying value of accounts receivable, including the determination of the allowance for credit losses; the determination of revenue reserves; the carrying value of right-of-use assets; the useful lives and recoverability of definite-lived intangible assets and property and equipment; the recoverability of goodwill and indefinite-lived intangible assets; the fair value of equity

securities without readily determinable fair values; contingencies; unrecognized tax benefits; the valuation allowance for deferred income tax assets; and the fair value of and forfeiture rates for stock-based awards, among others. The Company bases its estimates and judgments on historical experience, its forecasts and budgets, and other factors that the Company considers relevant.

Accounting for Investments and Equity Securities

Investments in equity securities, other than those of our consolidated subsidiaries, are accounted for at fair value or under the measurement alternative of the Financial Accounting Standards Board's ("FASB") equity securities guidance, with any changes to fair value recognized within other income (expense), net each reporting period. Under the measurement alternative, equity investments without readily determinable fair values are carried at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for identical or a similar investment of the same issuer; value is generally determined based on a market approach as of the transaction date. A security will be considered identical or similar if it has identical or similar rights to the equity securities held by the Company. The Company reviews its equity securities

MATCH GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

without readily determinable fair values for impairment each reporting period when there are qualitative factors or events that indicate possible impairment. Factors we consider in making this determination include negative changes in industry and market conditions, financial performance, business prospects, and other relevant events and factors. When indicators of impairment exist, the Company prepares quantitative assessments of the fair value of our investments in equity securities, which require judgment and the use of estimates. When our assessment indicates that the fair value of the investment is below the carrying value, the Company writes down the security to its fair value and records the corresponding charge within other income (expense), net.

Revenue Recognition

Revenue is recognized when control of the promised services are transferred to our customers, and in the amount that reflects the consideration the Company expects to be entitled to in exchange for those services.

Deferred Revenue

Deferred revenue consists of advance payments that are received or are contractually due in advance of the Company's performance. The Company's deferred revenue is reported on a contract by contract basis at the end of each reporting period. The Company classifies deferred revenue as current when the term of the applicable subscription period or expected completion of our performance obligation is one year or less. The current deferred revenue balance as of December 31, 2023 was \$211.3 million. During the three months ended March 31, 2024, the Company recognized \$167.0 million of revenue that was included in the deferred revenue balance as of December 31, 2023. The current deferred revenue balance at March 31, 2024 is \$198.5 million. At March 31, 2024 and December 31, 2023, there was no non-current portion of deferred revenue.

Practical Expedients and Exemptions

As permitted under the practical expedient available under ASU No. 2014-09, Revenue from Contracts with Customers, the Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less, (ii) contracts with variable consideration that is allocated entirely to unsatisfied performance obligations or to a wholly unsatisfied promise accounted for under the series guidance, and (iii) contracts for which the Company recognizes revenue at the amount which we have the right to invoice for services performed.

Recent Accounting Pronouncements

Accounting pronouncements not yet adopted by the Company

In November 2023, the FASB issued Accounting Standard Update (“ASU”) No. 2023-07, which requires disclosure of significant segment expenses and other segment items on an annual and interim basis and provide in interim periods all disclosures about a reportable segment’s profit or loss and assets that are currently required annually. The additional disclosures required in ASU No. 2023-07 also apply to entities with only one segment. Additionally, ASU No. 2023-07 requires the disclosure of the title and position of the Chief Operating Decision Maker. ASU No. 2023-07 does not change how a public entity identifies its operating segments, aggregates them, or applies the quantitative thresholds to determine its

reportable segments. The new standard is effective on a retrospective basis for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. We expect ASU No. 2023-07 to only impact our disclosures with no impacts to our results of operations, cash flows, or financial condition.

In December 2023, the FASB issued ASU No. 2023-09, which focuses on the income tax rate reconciliation and income taxes paid. ASU No. 2023-09 requires a tabular rate reconciliation using both percentages and currency amounts, broken out into specified categories with certain reconciling items further broken out by nature and jurisdiction to the extent those items exceed a specified threshold on an annual basis. In addition, entities are required to disclose income taxes paid, net of refunds received, disaggregated by federal, state/local, and foreign, and by jurisdiction, if the amount is at least 5% of total income tax payments, net of refunds received. The new standard is effective for annual periods beginning after December 15, 2024, with early adoption permitted. An entity may apply the amendments in this ASU prospectively by providing the revised disclosures for the period ending December 31, 2025 and continuing to provide the pre-ASU No. 2023-09

MATCH GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

disclosures for the prior periods, or may apply the amendments retrospectively by providing the revised disclosures for all periods presented. We expect ASU No. 2023-09 to only impact our disclosures with no impacts to our results of operations, cash flows, or financial condition.

NOTE 2—INCOME TAXES

At the end of each interim period, the Company estimates the annual effective income tax rate and applies that rate to its ordinary year-to-date earnings or loss. The income tax provision or benefit related to significant, unusual, or extraordinary items, if applicable, that will be separately reported or reported net of their related tax effects, is individually computed and recognized in the interim period in which it occurs. In addition, the effect of changes in enacted tax laws or rates, tax status, judgment on the realizability of beginning-of-the-year deferred tax assets in future years or unrecognized tax benefits is recognized in the interim period in which the change occurs.

The computation of the estimated annual effective income tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected pre-tax income (or loss) for the year, projections of the proportion of income (and/or loss) earned and taxed in foreign jurisdictions, permanent and temporary differences, and the likelihood of the realization of deferred tax assets generated in the current year. The accounting estimates used to compute the provision or benefit for income taxes may change as new events occur, more experience is acquired, additional information is obtained or our tax environment changes. To the extent that the estimated annual effective income tax rate changes during a quarter, the effect of the change on prior quarters is included in the income tax provision in the quarter in which the change occurs.

For the three months ended March 31, 2024 and 2023, the Company recorded an income tax provision of \$30.6 million and \$41.6 million, respectively. The effective tax rate for the three-month period in 2024 of 20% was lower than the statutory rate primarily due to the lower tax rate on U.S. income derived from foreign sources and the benefit realized upon the conclusion of certain state income tax audits. These decreases were partially offset by state income taxes, nondeductible stock-based compensation, and unfavorable tax adjustments upon the vesting of certain stock-based awards due to a lower stock price on the date the awards vested compared to the grant date fair value of such awards. The effective tax rate for the three month-period in 2023 of 26% was higher than the U.S. statutory federal rate primarily due to unfavorable tax adjustments upon the vesting of certain stock-based awards due to a lower stock price on the date the awards vested compared to the grant date fair value of such awards. This was partially offset by a lower rate on U.S. income derived from foreign sources.

Match Group is routinely under audit by federal, state, local, and foreign authorities in the area of income tax. These audits include a review of the timing and amount of income and deductions, and the allocation of such income and deductions among various tax jurisdictions. The Company is open to U.S. federal audit for tax years after December 31, 2019, and returns filed in various other jurisdictions are open to examination for tax years beginning with 2014. Although we believe that we have adequately reserved for our uncertain tax positions, the final tax outcome of these matters may vary significantly from our estimates.

At March 31, 2024 and December 31, 2023, unrecognized tax benefits, including interest and penalties, were \$39.1 million and \$45.8 million, respectively. If unrecognized tax benefits at March 31, 2024 are subsequently recognized, income tax expense would be reduced by \$36.3 million, net of related deferred tax assets and interest. The comparable amount as of December 31, 2023 was \$41.0 million. The Company believes that it is reasonably possible that its unrecognized tax benefits could decrease by \$1.2 million by March 31, 2025 due to expirations of statutes of limitations, which would reduce the income tax provision.

The Company recognizes interest and, if applicable, penalties related to unrecognized tax benefits in the income tax provision. Accruals of interest and penalties for the three months ended March 31, 2024 and 2023 were not material. At March 31, 2024 and December 31, 2023, noncurrent income taxes payable includes accrued interest and penalties of \$0.6 million and \$0.9 million, respectively.

NOTE 3—FINANCIAL INSTRUMENTS

Equity securities without readily determinable fair values

At March 31, 2024 and December 31, 2023, the carrying value of the Company's investments in equity securities without readily determinable fair values totaled \$19.3 million and \$14.3 million, respectively, and is included in "Other non-current assets" in the accompanying consolidated balance sheet. The cumulative downward adjustments (including impairments) to the carrying value of equity securities without readily determinable fair values through March 31, 2024 were \$2.1 million. For both the three months ended March 31, 2024 and 2023, there were no adjustments to the carrying value of equity securities without readily determinable fair values.

For all equity securities without readily determinable fair values as of March 31, 2024 and December 31, 2023, the Company has elected the measurement alternative. For the three months ended March 31, 2024 and 2023, under the measurement alternative election, the Company did not identify any fair value adjustments using observable price changes in orderly transactions for an identical or similar investment of the same issuer.

Fair Value Measurements

The Company categorizes its financial instruments measured at fair value into a fair value hierarchy that prioritizes the inputs used in pricing the asset or liability. The three levels of the fair value hierarchy are:

- Level 1: Observable inputs obtained from independent sources, such as quoted market prices for identical assets and liabilities in active markets.
- Level 2: Other inputs, which are observable directly or indirectly, such as quoted market prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in markets that are not active, and inputs that are derived principally from or corroborated by observable market data. The fair values of the Company's Level 2 financial assets are primarily obtained from observable market prices for identical underlying securities that may not be actively traded. Certain of these securities may have different market prices from multiple market data sources, in which case an average market price is used.
- Level 3: Unobservable inputs for which there is little or no market data and require the Company to develop its own assumptions, based on the best information available in the circumstances, about the assumptions market participants would use in pricing the assets or liabilities.

The following tables present the Company's financial instruments that are measured at fair value on a recurring basis:

Assets measured at fair value on a nonrecurring basis

The Company's non-financial assets, such as goodwill, intangible assets, property and equipment, and right-of-use assets, are adjusted to fair value only when an impairment charge is recognized. The Company's financial assets, comprised of equity securities without readily determinable fair values, are adjusted to fair value when observable price changes are identified or an impairment charge is recognized. Such fair value measurements are based predominantly on Level 3 inputs.

Credit Facility and Term Loan

Our wholly-owned subsidiary, Match Group Holdings II, LLC (“MG Holdings II”), is the borrower under a credit agreement (as amended, the “Credit Agreement”) that provides for the Credit Facility and the Term Loan.

On March 20, 2024, we entered into an amendment to reduce the borrowing availability under the Credit Facility from \$750 million to \$500 million and extend the maturity date of the Credit Facility. The maturity date of the Credit Facility is the earlier of (x) March 20, 2029 and (y) the date that is 91 days prior to the maturity date of the Term Loan or the existing senior notes due 2027, 2028, or 2029, or any new indebtedness used to refinance the Term Loan or such senior notes that matures prior to the date that is 91 days after March 20, 2029, in each case if and only if at least \$250 million in aggregate principal amount of such debt is outstanding on such date.

At March 31, 2024 and December 31, 2023, the Credit Facility has a borrowing capacity of \$500 million and \$750 million, respectively. At both March 31, 2024 and December 31, 2023, there were no outstanding borrowings, and \$0.4 million in outstanding letters of credit. At March 31, 2024 and December 31, 2023, there is \$499.6 million and \$749.6 million, respectively, of availability under the Credit Facility. The annual commitment fee on undrawn funds, which is based on MG Holdings II’s consolidated net leverage ratio, was 25 basis points as of March 31, 2024. Borrowings under the Credit Facility bear interest, at MG Holdings II’s option, at a base rate or a term secured overnight financing rate plus an applicable adjustment (“Adjusted Term SOFR”), plus an applicable margin based on MG Holdings II’s consolidated net leverage ratio. If MG Holdings II borrows under the Credit Facility, it will be required to maintain a consolidated net leverage ratio of not more than 5.0 to 1.0.

MATCH GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

At both March 31, 2024 and December 31, 2023, the outstanding balance on the Term Loan was \$425 million. The Term Loan bears interest at Adjusted Term SOFR plus 1.75% and the applicable rate was 7.23% and 7.27% at March 31, 2024 and December 31, 2023, respectively. The Term Loan matures on February 13, 2027. Interest payments are due at least quarterly through the term of the loan. The Term Loan provides for annual principal payments as part of an excess cash flow sweep provision, the amount of which, if any, is governed by the secured net leverage ratio as set forth in the Credit Agreement.

The Credit Agreement includes covenants that would limit the ability of MG Holdings II to pay dividends, make distributions, or repurchase MG Holdings II's stock in the event MG Holdings II's consolidated net leverage ratio exceeds 4.25 to 1.0, or if an event of default has occurred. The Credit Agreement includes additional covenants that limit the ability of MG Holdings II and its subsidiaries to, among other things, incur indebtedness, pay dividends or make distributions. Obligations under the Credit Facility and Term Loan are unconditionally guaranteed by certain MG Holdings II wholly-owned domestic subsidiaries and are also secured by the stock of certain MG Holdings II domestic and foreign subsidiaries. The Term Loan and outstanding borrowings, if any, under the Credit Facility, rank equally with each other, and have priority over the Senior Notes to the extent of the value of the assets securing the borrowings under the Credit Agreement.

Senior Notes

The 5.00% Senior Notes were issued on December 4, 2017. These notes may be redeemed at redemption prices set forth in the indenture governing the notes, together with accrued and unpaid interest to the applicable redemption date.

The 4.625% Senior Notes were issued on May 19, 2020. These notes may be redeemed at redemption prices set forth in the indenture governing the notes, together with accrued and unpaid interest to the applicable redemption date.

The 5.625% Senior Notes were issued on February 15, 2019. These notes may be redeemed at redemption prices set forth in the indenture governing the notes, together with accrued and unpaid interest to the applicable redemption date.

The 4.125% Senior Notes were issued on February 11, 2020. At any time prior to May 1, 2025, these notes may be redeemed at a redemption price equal to the sum of the principal amount, plus accrued and unpaid interest and a make-whole premium set forth in the indenture governing the notes. Thereafter, these notes may be redeemed at redemption prices set forth in the indenture governing the notes, together with accrued and unpaid interest to the applicable redemption date.

The 3.625% Senior Notes were issued on October 4, 2021. At any time prior to October 1, 2026, these notes may be redeemed at a redemption price equal to the sum of the principal amount, plus accrued and unpaid interest and a make-whole premium set forth in the indenture governing the notes. Thereafter, these notes may be redeemed at redemption prices set forth in the indenture governing the notes, together with accrued and unpaid interest to the applicable redemption date.

The indenture governing the 5.00% Senior Notes contains covenants that would limit MG Holdings II's ability to pay dividends or to make distributions and repurchase or redeem MG Holdings II's stock in the event a default has occurred or MG Holdings II's consolidated leverage ratio (as defined in the indenture) exceeds 5.0 to 1.0. No such limitations were in effect at March 31, 2024. There are additional covenants in the 5.00% Senior Notes indenture that limit the ability of MG Holdings II and its subsidiaries to, among other things, (i) incur indebtedness, make investments, or sell assets in the event MG Holdings II is not in compliance with specified financial ratios, and (ii) incur liens, enter into agreements restricting their ability to pay dividends, enter into transactions with affiliates, or consolidate, merge or sell substantially all of their assets. The indentures governing the 3.625%, 4.125%, 4.625%, and 5.625% Senior Notes are less restrictive than the indenture governing the 5.00% Senior Notes and generally only limit MG Holdings II's and its subsidiaries' ability to, among other things, create liens on assets, or consolidate, merge, sell or otherwise dispose of all or substantially all of their assets.

The Senior Notes all rank equally in right of payment.

Exchangeable Notes

During 2019, Match Group FinanceCo 2, Inc. and Match Group FinanceCo 3, Inc., direct, wholly-owned subsidiaries of the Company, issued \$575.0 million aggregate principal amount of its 2026 Exchangeable Notes and \$575.0 million aggregate principal amount of its 2030 Exchangeable Notes, respectively.

The 2026 and 2030 Exchangeable Notes (collectively the “Exchangeable Notes”) are guaranteed by the Company but are not guaranteed by MG Holdings II or any of its subsidiaries.

The following table presents details of the exchangeable features:

	Number of shares of the Company's Common Stock into which each \$1,000 of Principal of the Exchangeable Notes is Exchangeable ^(a)	Approximate Equivalent Exchange Price per Share ^(a)	Exchangeable Date
2026 Exchangeable Notes	11.4259	\$ 87.52	March 15, 2026
2030 Exchangeable Notes	11.8739	\$ 84.22	October 15, 2029

^(a) Subject to adjustment upon the occurrence of specified events.

As more specifically set forth in the applicable indentures, the Exchangeable Notes are exchangeable under the following circumstances:

(1) during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the Company's common stock for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the exchange price on each applicable trading day;

(2) during the five-business day period after any five-consecutive trading day period (the “measurement period”) in which the trading price per \$1,000 principal amount of notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the Company's common stock and the exchange rate on each such trading day;

(3) if the issuer calls the notes for redemption, at any time prior to the close of business on the scheduled trading day immediately preceding the redemption date; or

(4) upon the occurrence of specified corporate events as further described in the indentures governing the respective Exchangeable Notes.

On or after the respective exchangeable dates noted in the table above, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may exchange all or any portion of their Exchangeable Notes regardless of the foregoing conditions. Upon exchange, the issuer, in its sole discretion, has the option to settle the Exchangeable Notes with cash, shares of the Company's common stock, or a combination of cash and shares of the Company's common stock. Any shares issued in further settlement of the notes would be offset by shares received upon exercise of the Exchangeable Note Hedges (described below).

No 2026 or 2030 Exchangeable Notes were presented for exchange during the three months ended March 31, 2024. Neither of the 2026 and 2030 Exchangeable Notes were exchangeable as of March 31, 2024.

At both March 31, 2024 and December 31, 2023, there was no value in excess of the principal of each of the 2026 and 2030 Exchangeable Notes outstanding on an if-converted basis using the Company's stock price on March 31, 2024 and December 31, 2023, respectively.

Additionally, all or any portion of the 2026 Exchangeable Notes may be redeemed for cash, at the issuer's option, at any time, and for the 2030 Exchangeable Notes on or after July 20, 2026, if the last reported sale price of the Company's common stock has been at least 130% of the exchange price then in effect for at least 20 trading days (whether or not consecutive), including at least one of the five trading days immediately preceding

the date on which the notice of redemption is provided, during any 30 consecutive trading day period ending on, and including, the trading day immediately preceding the date on which the applicable issuer provides notice of redemption, at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date.

The effective interest rates for the 2026 and 2030 Exchangeable Notes are 1.2% and 2.2%, respectively.

Exchangeable Notes Hedges and Warrants

In connection with the Exchangeable Notes offerings, the Company purchased call options allowing the Company to purchase initially (subject to adjustment upon the occurrence of specified events) the same number of shares that would be issuable upon the exchange of the applicable Exchangeable Notes at the prices per share set forth below (the "Exchangeable Notes Hedge"), and sold warrants allowing the counterparty to purchase

(subject to adjustment upon the occurrence of specified events) shares at the per share prices set forth below (the “Exchangeable Notes Warrants”).

The Exchangeable Notes Hedges are expected to reduce the potential dilutive effect on the Company’s common stock upon any exchange of Exchangeable Notes and/or offset any cash payment Match Group FinanceCo 2, Inc. or Match Group FinanceCo 3, Inc. is required to make in excess of the principal amount of the exchanged notes. The Exchangeable Notes Warrants have a dilutive effect on the Company’s common stock to the extent that the market price per share of the Company common stock exceeds their respective strike prices.

- (a) The Company uses the if-converted method for calculating the dilutive impact of the outstanding Exchangeable Notes. For both the three months ended March 31, 2024 and 2023, the Company adjusted net earnings attributable to Match Group, Inc. shareholders for the cash interest expense, net of income taxes, incurred on the 2026 and 2030 Exchangeable Notes. Dilutive shares were also included for the same series of Exchangeable Notes.

- (b) If the effect is dilutive, weighted average common shares outstanding include the incremental shares that would be issued upon the assumed exercise of stock options, warrants, and subsidiary denominated equity and vesting of restricted stock units. For the three months ended March 31, 2024 and 2023, 19.2 million and 17.3 million potentially dilutive securities, respectively, are excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.
- (c) Market-based awards and performance-based restricted stock units (“PSUs”) are considered contingently issuable shares. Shares issuable upon exercise or vesting of market-based awards and PSUs are included in the denominator for earnings per share if (i) the applicable market or performance condition(s) has been met and (ii) the inclusion of the market-based awards and PSUs is dilutive for the respective reporting periods. For the three months ended March 31, 2024 and 2023, 3.7 million and 2.6 million shares, respectively, underlying market-based awards and PSUs, were excluded from the calculation of diluted earnings per share because the market or performance conditions had not been met.

NOTE 8—CONTINGENCIES

In the ordinary course of business, the Company is a party to various lawsuits. The Company establishes reserves for specific legal matters when it determines that the likelihood of an unfavorable outcome is probable and the loss is reasonably estimable. Management has also identified certain other legal matters where we believe an unfavorable outcome is not probable and, therefore, no reserve is established. Although management currently believes that resolving claims against us, including claims where an unfavorable outcome is reasonably possible, will not have a material impact on the liquidity, results of operations, or financial condition of the Company, these matters are subject to inherent uncertainties and management's view of these matters may change in the future. The Company also evaluates other contingent matters, including income and non-income tax contingencies, to assess the likelihood of an unfavorable outcome and estimated extent of potential loss. It is possible that an unfavorable outcome of one or more of these lawsuits or other contingencies could have a material impact on the liquidity, results of operations, or financial condition of the Company. See "Note 2—Income Taxes" for additional information related to income tax contingencies.

FTC Lawsuit Against Match Group

On September 25, 2019, the United States Federal Trade Commission (the "FTC") filed a lawsuit in federal district court in Texas against the company formerly known as Match Group, Inc. See FTC v. Match Group, Inc., No. 3:19-cv-02281-K (Northern District of Texas). The complaint alleges that, prior to mid-2018, for marketing purposes Match.com notified non-paying users that other users were attempting to communicate with them, even though Match.com had identified those subscriber accounts as potentially fraudulent, thereby inducing non-paying users to subscribe and exposing them to the risk of fraud should they

subscribe. The complaint also challenges the adequacy of Match.com's disclosure of the terms of its six-month guarantee, the efficacy of its cancellation process, and its handling of chargeback disputes. The complaint seeks among other things permanent injunctive relief, civil penalties, restitution, disgorgement, and costs of suit. On March 24, 2022, the court granted our motion to dismiss with prejudice on Claims I and II of the complaint relating to communication notifications and granted our motion to dismiss with respect to all requests for monetary damages on Claims III and IV relating to the guarantee offer and chargeback policy. On July 19, 2022, the FTC filed an amended complaint adding Match Group, LLC as a defendant. On September 11, 2023, both parties filed motions for summary judgment. Our consolidated financial statements do not reflect any provision for a loss with respect to this matter, as we do not believe there is a probable likelihood of an unfavorable outcome. Further, we do not believe that there is a reasonable possibility of an exposure to loss that would be material to our business. We believe we have strong defenses to the FTC's claims regarding Match.com's practices, policies, and procedures and will continue to defend vigorously against them.

Irish Data Protection Commission Inquiry Regarding Tinder's Practices

On February 3, 2020, we received a letter from the Irish Data Protection Commission (the "DPC") notifying us that the DPC had commenced an inquiry examining Tinder's compliance with the EU's General Data

MATCH GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

Protection Regulation (“GDPR”), focusing on Tinder’s processes for handling access and deletion requests and Tinder’s user data retention policies. On January 8, 2024, the DPC provided us with a preliminary draft decision alleging that certain of Tinder’s access and retention policies, largely relating to protecting the safety and privacy of Tinder’s users, violate GDPR requirements. We filed our response to the preliminary draft decision on March 15, 2024. Our consolidated financial statements do not reflect any provision for a loss with respect to this matter, as we do not believe there is a probable likelihood of an unfavorable outcome. However, based on the preliminary draft decision and giving due consideration to the uncertainties inherent in this process, there is at least a reasonable possibility of an exposure to loss, which could be anywhere between a nominal amount and \$60 million, which we do not believe would be material to our business. We believe we have strong defenses to these claims and will defend vigorously against them.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Key Terms:

Operating and financial metrics:

- **Americas** includes North America, Central America, South America, and the Caribbean islands.
- **Europe** includes continental Europe, the British Isles, Iceland, Greenland, and Russia (ceased operations in June 2023), but excludes Turkey (which is included in APAC and Other).
- **APAC and Other** includes Asia, Australia, the Pacific islands, the Middle East, and Africa.
- **Match Group Asia ("MG Asia")** consists of the brands primarily focused on Asia and the Middle East, including Pairs™ and Azar®.
- **Evergreen & Emerging ("E&E")** consists primarily of the brands Match®, Meetic®, OkCupid®, Plenty Of Fish®, and a number of demographically focused brands.
- **Direct Revenue** is revenue that is received directly from end users of our services and includes both subscription and à la carte revenue.
- **Indirect Revenue** is revenue that is not received directly from an end user of our services, substantially all of which is advertising revenue.
- **Payers** are unique users at a brand level in a given month from whom we earned Direct Revenue. When presented as a quarter-to-date or year-to-date value, Payers represents the average of the monthly values for the respective period presented. At a consolidated level, duplicate Payers may exist when we earn revenue from the same individual at multiple brands in a given month, as we are unable to identify unique individuals across brands in the Match Group portfolio.
- **Revenue Per Payer ("RPP")** is the average monthly revenue earned from a Payer and is Direct Revenue for a period divided by the Payers in the period, further divided by the number of months in the period.

Operating costs and expenses:

- **Cost of revenue** - consists primarily of the amortization of in-app purchase fees, hosting fees, compensation expense (including stock-based compensation expense) and other employee-related costs for personnel engaged in data center and customer care functions, live video costs, credit card processing fees, and data center rent, energy, and bandwidth costs. In-app purchase fees are monies paid to Apple and Google in connection with the processing of in-app purchases of subscriptions and service features through the in-app payment systems provided by Apple and Google.
- **Selling and marketing expense** - consists primarily of advertising expenditures and compensation expense (including stock-based compensation expense) and other employee-related costs for personnel engaged in selling and marketing, and sales

support functions. Advertising expenditures include online marketing, including fees paid to search engines and social media sites, offline marketing, and production of advertising content.

- **General and administrative expense** - consists primarily of compensation expense (including stock-based compensation expense) and other employee-related costs for personnel engaged in executive management, finance, legal, tax, and human resources, fees for professional services (including transaction-related costs for acquisitions), and facilities costs.
- **Product development expense** - consists primarily of compensation expense (including stock-based compensation expense) and other employee-related costs that are not capitalized for personnel engaged in the design, development, testing, and enhancement of product offerings and related technology.

Long-term debt:

- **Credit Facility** - The revolving credit facility under the credit agreement of MG Holdings II. On March 20, 2024, we entered into an amendment to reduce the borrowing availability under the Credit Facility

[Table of Contents](#)

from \$750 million to \$500 million and extend the maturity date of the Credit Facility. As of March 31, 2024, there was \$0.4 million outstanding in letters of credit and \$499.6 million of availability under the Credit Facility. As of December 31, 2023, there was \$0.4 million outstanding in letters of credit and \$749.6 million of availability under the Credit Facility.

- **Term Loan** - The term loan facility under the credit agreement of MG Holdings II. At December 31, 2023, the Term Loan bore interest at a term secured overnight financing rate plus an applicable adjustment ("Adjusted Term SOFR") plus 1.75% and the then applicable rate was 7.27%. As of March 31, 2024, the applicable rate was 7.23% and \$425 million was outstanding.
- **5.00% Senior Notes** - MG Holdings II's 5.00% Senior Notes due December 15, 2027, with interest payable each June 15 and December 15, which were issued on December 4, 2017. As of March 31, 2024, \$450 million aggregate principal amount was outstanding.
- **4.625% Senior Notes** - MG Holdings II's 4.625% Senior Notes due June 1, 2028, with interest payable each June 1 and December 1, which were issued on May 19, 2020. As of March 31, 2024, \$500 million aggregate principal amount was outstanding.
- **5.625% Senior Notes** - MG Holdings II's 5.625% Senior Notes due February 15, 2029, with interest payable each February 15 and August 15, which were issued on February 15, 2019. As of March 31, 2024, \$350 million aggregate principal amount was outstanding.
- **4.125% Senior Notes** - MG Holdings II's 4.125% Senior Notes due August 1, 2030, with interest payable each February 1 and August 1, which were issued on February 11, 2020. As of March 31, 2024, \$500 million aggregate principal amount was outstanding.
- **3.625% Senior Notes** - MG Holdings II's 3.625% Senior Notes due October 1, 2031, with interest payable each April 1 and October 1, which were issued on October 4, 2021. As of March 31, 2024, \$500 million aggregate principal amount was outstanding.
- **2026 Exchangeable Notes** - The 0.875% Exchangeable Senior Notes due June 15, 2026 issued by Match Group FinanceCo 2, Inc., a subsidiary of the Company, which are exchangeable into shares of the Company's common stock. Interest is payable each June 15 and December 15. As of March 31, 2024, \$575 million aggregate principal amount was outstanding.
- **2030 Exchangeable Notes** - The 2.00% Exchangeable Senior Notes due January 15, 2030 issued by Match Group FinanceCo 3, Inc., a subsidiary of the Company, which are exchangeable into shares of the Company's common stock. Interest is payable each January 15 and July 15. As of March 31, 2024, \$575 million aggregate principal amount was outstanding.

Non-GAAP financial measure:

- **Adjusted Operating Income** - is a Non-GAAP financial measure. See “Non-GAAP Financial Measures” below for the definition of Adjusted Operating Income and a reconciliation of net earnings attributable to Match Group, Inc. shareholders to operating income and Adjusted Operating Income.

[Table of Contents](#)

Americas Direct Revenue grew \$44.3 million, or 11%, in 2024 versus 2023, driven by 29% growth in RPP, partially offset by a 14% decrease in Payers. RPP growth was driven by higher average prices paid for subscriptions per Payer at Tinder and Hinge due to pricing optimizations and weekly subscription offerings, both of which we implemented beginning in the first half of 2023. The decrease in Payers was primarily driven by decreases at Tinder due to pricing optimizations and a decrease in users, as well as decreases in Payers at certain E&E brands, partially offset by increases at Hinge.

Europe Direct Revenue increased \$26.8 million, or 13%, in 2024 versus 2023, driven by 10% growth in RPP and a 2% increase in Payers. RPP growth was driven by higher average prices paid for subscriptions at Tinder.

APAC and Other Direct Revenue decreased \$0.3 million in 2024 versus 2023, driven by decreases at MG Asia primarily due to the strength of the U.S. dollar compared to the Turkish Lira and Japanese Yen, partially offset by increases in Payers at Hinge and Tinder.

Tinder Direct Revenue grew 9% in 2024 versus 2023, driven by growth in RPP due to pricing optimizations in the U.S. market and weekly subscription offerings that were initially introduced late in the first quarter of 2023, partially offset by a decrease in Payers attributed to the pricing optimizations and a decrease in users.

Hinge Direct Revenue grew 50% in 2024 versus 2023, driven by 31% growth in Payers and 14% growth in RPP due to pricing optimizations and weekly subscription offerings at Hinge that started in the second quarter of 2023.

MG Asia Direct Revenue declined 6% in 2024 versus 2023, primarily driven by the strengthening of the U.S. dollar compared to the Turkish Lira and Japanese Yen, partially offset by a 3% increase in Payers, primarily from Azar's expansion into Europe.

E&E Direct Revenue declined 4% in 2024 versus 2023, driven by declines in our Evergreen brands of 9% partially offset by growth at our Emerging brands of 23%.

Indirect Revenue increased due to a higher price per impression received and higher ad impressions.

Cost of revenue (exclusive of depreciation)

	Three Months Ended March 31,			2023
	2024	\$ Change	% Change	
	(Dollars in thousands)			
Cost of revenue	\$ 256,742	\$ 16,732	7%	\$ 240,010
Percentage of revenue	30%			30%

Cost of revenue increased 7% primarily due to an increase in in-app purchase fees of \$19.8 million, partially offset by net decreases in other expenses of \$3.0 million.

Selling and marketing expense

For the three months ended March 31, 2024 compared to the three months ended March 31, 2023

	Three Months Ended March 31,

	(Dollars in thousands)			
Selling and marketing expense	\$ 165,301	\$ 27,942	20%	\$ 137,359
Percentage of revenue	19%			17%

Selling and marketing expense increased primarily due to higher marketing spend at Tinder, Hinge, and certain Emerging brands; partially offset by lower marketing spend elsewhere in the portfolio.

General and administrative expense

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
General and administrative expense	\$ 106,241	\$ 15,630	17%	\$ 90,611
Percentage of revenue	12%			12%

General and administrative expense increased primarily due to an increase in employee compensation of \$15.7 million, including stock-based compensation increases of \$11.1 million as a result of lower forfeitures of equity-based awards in 2024 as compared to 2023.

Product development expense

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Product development expense	\$ 115,737	\$ 17,551	18%	\$ 98,186
Percentage of revenue	13%			12%

Product development expense increased primarily due to an increase in compensation expense of \$15.7 million related to higher headcount at Hinge and Tinder and an increase in stock-based compensation expense associated with new equity-based awards granted in the current year.

Depreciation

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Depreciation	\$ 20,521	\$ 9,969	94%	\$ 10,552
Percentage of revenue	2%			1%

Depreciation was higher in 2024 compared to 2023 primarily due to an increase in internally developed software placed in service.

Amortization of intangibles

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Amortization of intangibles	\$ 10,367	\$ (1,750)	(14)%	\$ 12,117
Percentage of revenue	1%			2%

Amortization of intangibles decreased primarily due to certain definite-lived intangible assets having been fully amortized in the prior year.

Operating income and Adjusted Operating Income

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Operating income	\$184,738	\$ (13,551)	(7)%	\$198,289
Percentage of revenue	21%			25%
Adjusted Operating Income	\$279,446	\$ 16,925	6%	\$262,521
Percentage of revenue	33%			33%

For a reconciliation of net earnings attributable to Match Group, Inc. shareholders to Adjusted Operating Income, see “Non-GAAP Financial Measures.”

Operating income decreased 7% and Adjusted Operating Income increased 6%. Operating income and Adjusted Operating Income each benefited from the increase in revenue of \$72.5 million which was driven by growth at Tinder and Hinge. The benefit was partially offset by an increase in selling and marketing expense and increases in cost of revenue due to higher in-app fees. Operating income was further impacted by increases in stock-based compensation expense, primarily due to an increase in headcount and because forfeitures of equity-based awards were lower in 2024 than in 2023, and increases in depreciation expense due to increases in internally developed software placed in service.

At March 31, 2024, there was \$524.4 million of unrecognized compensation cost, net of estimated forfeitures, related to equity-based awards, which is expected to be recognized over a weighted average period of approximately 2.3 years.

Interest expense

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Interest expense	\$ 40,353	\$ 1,002	3%	\$ 39,351

Interest expense increased primarily due to a higher interest rate on the Term Loan in the current period.

Other income, net

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Other income, net	\$ 9,474	\$ 6,082	179%	\$ 3,392

Other income, net in 2024 includes interest income of \$10.0 million, partially offset by \$0.5 million in net foreign currency losses.

Other income, net in 2023 includes interest income of \$4.5 million, partially offset by \$1.1 million in net foreign currency losses.

Income tax provision

	Three Months Ended March 31,			
	2024	\$ Change	% Change	2023
	(Dollars in thousands)			
Income tax provision	\$ 30,625	\$ (11,014)	(26)%	\$ 41,639
Effective income tax rate	20%			26%

In 2024, the income tax provision of \$30.6 million represents an effective tax rate of 20%. The effective tax rate is lower than the statutory rate primarily due to the lower tax rate on U.S. income derived from foreign sources and a benefit realized upon the conclusion of certain state income tax audits. These decreases were partially offset by state income taxes, nondeductible stock compensation and unfavorable tax adjustments due upon the vesting of certain stock-based awards due to a lower stock price on the date the awards vested compared to the grant date fair value of such awards.

In 2023, the effective tax rate was higher than the U.S. federal statutory rate primarily due to unfavorable tax adjustments upon the vesting of certain stock-based awards due to a lower stock price on the date the awards vested compared to the grant date fair value of such awards. This was partially offset by a lower tax rate on U.S. income derived from foreign sources.

A number of countries have enacted or are actively drafting legislation to implement the Organization for Economic Cooperation and Development's ("OECD") international tax framework, including the Pillar II minimum tax regime. The Company analyzed the impact of enacted legislation and is continuing to monitor future developments. The enacted legislation does not have a material impact to the income tax provision.

For further details of income tax matters see "Note 2—Income Taxes" to the consolidated financial statements included in "Item 1—Consolidated Financial Statements."

NON-GAAP FINANCIAL MEASURES

Match Group reports Adjusted Operating Income and Revenue excluding foreign exchange effects, both of which are supplemental measures to U.S. generally accepted accounting principles ("GAAP"). Adjusted Operating Income is among the primary metrics by which we evaluate the performance of our business, on which our internal budget is based, and by which management is compensated. Revenue excluding foreign exchange effects provides a comparable framework for assessing how our business performed without the effect of exchange rate differences when compared to prior periods. We believe that investors should have access to the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. Match Group endeavors to compensate for the limitations of the non-GAAP measures presented by providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. We encourage investors to examine the reconciling adjustments between the GAAP and non-GAAP measures, which we discuss below.

Adjusted Operating Income

Adjusted Operating Income is defined as operating income excluding: (1) stock-based compensation expense; (2) depreciation; and (3) acquisition-related items consisting of (i) amortization of intangible assets and impairments of goodwill and intangible assets, if applicable, and (ii) gains and losses recognized on changes in the fair value of contingent consideration arrangements, as applicable. We believe this measure is useful to analysts and investors as this measure allows a more meaningful comparison between our performance and that of our competitors. The above items are excluded from our Adjusted Operating Income measure because they are non-cash in nature. Adjusted Operating Income has certain limitations because it excludes the impact of certain expenses.

Non-Cash Expenses That Are Excluded From Adjusted Operating Income

Stock-based compensation expense consists principally of expense associated with the grants of stock options, restricted stock units ("RSUs"), performance-based RSUs and market-based awards. These expenses are not paid in cash, and we include the related shares in our fully diluted shares outstanding using the treasury stock method; however, performance-based RSUs and market-based awards are included only to the extent the applicable performance or market condition(s) have been met (assuming the end of the reporting period is the end of the contingency period). To the extent stock-based awards are settled on a net basis, we remit the required tax-withholding amounts from current funds.

Depreciation is a non-cash expense relating to our property and equipment and is computed using the straight-line method to allocate the cost of depreciable assets to operations over their estimated useful lives, or, in the case of leasehold improvements, the lease term, if shorter.

Amortization of intangible assets and impairments of goodwill and intangible assets are non-cash expenses related primarily to acquisitions. At the time of an acquisition, the identifiable definite-lived intangible assets of the acquired company, such as customer lists, trade names, and technology, are valued and amortized over their estimated lives. Value is

also assigned to (i) acquired indefinite-lived intangible assets, which consist of trade names and trademarks, and (ii) goodwill, which are not subject to amortization. An impairment is recorded when the carrying value of an intangible asset or goodwill exceeds its fair value. We believe that intangible assets represent costs incurred by the acquired company to build value prior to acquisition and the related amortization and impairment charges of intangible assets or goodwill, if applicable, are not ongoing costs of doing business.

Effects of Changes in Foreign Exchange Rates on Revenue

The impact of foreign exchange rates on the Company, due to its global reach, may be an important factor in understanding period over period comparisons if movement in exchange rates is significant. Since our results are reported in U.S. dollars, international revenue is favorably impacted as the U.S. dollar weakens relative to other currencies, and unfavorably impacted as the U.S. dollar strengthens relative to other currencies. We believe the presentation of revenue excluding the effects from foreign exchange, in addition to reported revenue, helps improve investors' ability to understand the Company's performance because it excludes the impact of foreign currency volatility that is not indicative of Match Group's core operating results.

Revenue excluding foreign exchange effects compares results between periods as if exchange rates had remained constant period over period. Revenue excluding foreign exchange effects is calculated by translating current period revenue using prior period exchange rates. The percentage change in revenue excluding foreign exchange effects is calculated by determining the change in current period revenue over prior period revenue where current period revenue is translated using prior period exchange rates.

Cash Flow Information

In summary, the Company's cash flows are as follows:

	Three Months Ended March 31,	
	2024	2023
	(In thousands)	
Net cash provided by operating activities	\$ 284,103	\$ 120,387
Net cash used in investing activities	(26,048)	(19,790)
Net cash used in financing activities	(199,619)	(104,932)

2024

Net cash provided by operating activities in 2024 includes adjustments to earnings of \$63.8 million of stock-based compensation expense, \$20.5 million of depreciation, and \$10.4 million of amortization of intangibles. The increase in cash from changes in working capital primarily consists of an decrease in accounts receivable of \$71.7 million primarily related to the timing of cash receipts and an increase in taxes payable and receivable of \$11.1 million due to the timing of tax payments. These changes were partially offset by a decrease in accounts payable and other liabilities of \$22.5 million due to the timing of payments and a decrease in deferred revenue of \$11.5 million.

Net cash used in investing activities in 2024 consists primarily of capital expenditures of \$17.2 million primarily related to internal development of software and purchases of computer hardware.

Net cash used in financing activities in 2024 is primarily due to purchases of treasury stock of \$188.6 million and payments of \$9.6 million of withholding taxes paid on behalf of employees for net-settled equity awards.

2023

Net cash provided by operating activities in 2023 includes adjustments to earnings of \$41.6 million of stock-based compensation expense, \$12.1 million of amortization of intangibles, and \$10.6 million of depreciation. The decrease in cash from changes in working capital primarily consists of an increase in accounts receivable of \$65.7 million primarily related to the timing of cash receipts and a decrease in accounts payable and other liabilities of \$34.4 million due to the timing of payments. These changes were partially offset by an increase in income taxes payable of \$19.8 million primarily related to the timing of tax payments.

Net cash used in investing activities in 2023 consists primarily of capital expenditures of \$19.8 million primarily related to internal development of software and purchases of computer hardware.

Net cash used in financing activities in 2023 is primarily due to purchases of treasury stock of \$112.5 million, payments of \$2.1 million of withholding taxes paid on behalf of employees for net-settled equity awards, and purchases of non-controlling interests for \$1.6 million. These uses of cash were partially offset by \$11.2 million of proceeds from the issuance of common stock pursuant to stock-based awards.

Liquidity and Capital Resources

The Company's principal sources of liquidity are its cash and cash equivalents as well as cash flows generated from operations. As of March 31, 2024, \$499.6 million was available under the Credit Facility.

The Company has various obligations related to long-term debt instruments and operating leases. For additional information on long-term debt, including maturity dates and interest rates, see "Note 4—Long-term Debt, net" to the consolidated financial statements included in "Item 1—Consolidated Financial Statements." For additional information on operating lease payments, including a schedule of obligations by year, see "Note 13—Leases" to the consolidated financial statements included in "Item 8—Consolidated Financial Statements and Supplementary Data" of the Company's Annual Report on Form 10-K for the year ended December 31, 2023. The Company believes it has sufficient cash flows from operations to satisfy these future obligations.

The Company anticipates that it will need to make capital and other expenditures in connection with the development and expansion of its operations. The Company expects that 2024 cash capital expenditures will be between \$55 million and \$65 million, relatively flat to 2023 cash capital expenditures.

[Table of Contents](#)

We have entered into various purchase commitments, primarily consisting of web hosting services. Our obligations under these various purchase commitments are \$73.1 million for the remainder of 2024, \$85.0 million for 2025, and \$14.2 million for 2026.

At March 31, 2024, we do not have any off-balance sheet arrangements, other than as described above.

On January 30, 2024, the Board of Directors of the Company approved a share repurchase program for the repurchase of up to \$1.0 billion in aggregate value of shares of Match Group stock. Under the share repurchase program, shares of our common stock may be purchased on a discretionary basis from time to time, subject to general business and market conditions and other investment opportunities, through open market purchases, privately negotiated transactions or other means, including through Rule 10b5-1 trading plans. The share repurchase program may be commenced, suspended or discontinued at any time. During the three months ended March 31, 2024, we repurchased 5.6 million shares for \$197.6 million on a trade date basis under the share repurchase program. As of May 3, 2024, \$800.0 million in aggregate value of shares of Match Group stock remains available under the share repurchase program.

As of March 31, 2024, all of the Company's international cash can be repatriated without significant tax consequences.

Our indebtedness could limit our ability to: (i) obtain additional financing to fund working capital needs, acquisitions, capital expenditures, debt service, or other requirements; and (ii) use operating cash flow to pursue acquisitions or invest in other areas, such as developing properties and exploiting business opportunities. The Company may need to raise additional capital through future debt or equity financing to make additional acquisitions and investments or to provide for greater financial flexibility. Additional financing may not be available on terms favorable to the Company or at all.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management of the Company is required to make certain estimates, judgments and assumptions during the preparation of its consolidated financial statements in accordance with U.S. GAAP. These estimates, judgments and assumptions impact the reported amount of assets, liabilities, revenue and expenses and the related disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

During the three months ended March 31, 2024, there were no material changes to the Company's critical accounting policies and estimates since the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2023.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

During the three months ended March 31, 2024, there were no material changes to the Company's instruments or positions that are sensitive to market risk since the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2023.

Item 4. Controls and Procedures

The Company monitors and evaluates on an ongoing basis its disclosure controls and procedures and internal control over financial reporting in order to improve their overall effectiveness. In the course of these evaluations, the Company modifies and refines its internal processes as conditions warrant.

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), Match Group management, including our principal executive and principal financial officers, evaluated the effectiveness of the Company's disclosure controls and procedures, as defined by Rule 13a-15(e) under the Exchange Act. Based on this evaluation, management has concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report in providing reasonable assurance that information we are required to disclose in our filings with the Securities and Exchange Commission under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and includes controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There were no changes to the Company's internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Overview

We are, and from time to time may become, involved in various legal proceedings arising in the normal course of our business activities, such as trademark and patent infringement claims, trademark oppositions, and consumer or advertising complaints, as well as stockholder derivative actions, class action lawsuits, mass arbitrations, and other matters. The amounts that may be recovered in such matters may be subject to insurance coverage. The litigation matters described below involve issues or claims that may be of particular interest to our stockholders, regardless of whether any of these matters may be material to our financial position or operations based upon the standard set forth in the SEC's rules.

Pursuant to the Transaction Agreement, entered into in connection with our separation from IAC/InterActiveCorp, now known as IAC Inc. ("IAC"), we have agreed to indemnify IAC for matters relating to any business of Former Match Group, including indemnifying IAC for costs related to the matters described below other than the matter described under the heading "Newman Derivative and Stockholder Class Action Regarding Separation Transaction".

The official names of legal proceedings in the descriptions below (shown in italics) reflect the original names of the parties when the proceedings were filed as opposed to the current names of the parties following the separation of Match Group and IAC.

Consumer Class Action Litigation Challenging Tinder's Age-Tiered Pricing

On May 28, 2015, a putative state-wide class action was filed against Tinder in state court in California. See *Allan Candelore v. Tinder, Inc.*, No. BC583162 (Superior Court of California, County of Los Angeles). The complaint principally alleges that Tinder violated California's Unruh Civil Rights Act by offering and charging users over a certain age a higher price than younger users for subscriptions to its premium Tinder Plus service. Plaintiff has moved to certify a class based upon California Tinder Plus and Tinder Gold subscribers age 29 and over, and we have opposed. We believe that we have strong defenses to the allegations in the Candelore lawsuit and will continue to defend vigorously against it.

FTC Lawsuit Against Former Match Group

On September 25, 2019, the United States Federal Trade Commission (the "FTC") filed a lawsuit in federal district court in Texas against the company formerly known as Match Group ("Former Match Group"). See *FTC v. Match Group, Inc.*, No. 3:19-cv-02281-K (Northern District of Texas). The complaint alleges that, prior to mid-2018, for marketing purposes Match.com notified non-paying users that other users were attempting to communicate with them, even though Match.com had identified those subscriber accounts as potentially fraudulent, thereby inducing non-paying users to subscribe and exposing them to the risk of fraud should they subscribe. The complaint also challenges the adequacy of Match.com's disclosure of the terms of its six-month guarantee, the efficacy of its cancellation process, and its handling of chargeback disputes. The complaint seeks among other things permanent injunctive relief, civil penalties, restitution, disgorgement, and costs of suit. On March 24, 2022, the court granted our motion to dismiss with prejudice on Claims I and II of the

complaint relating to communication notifications and granted our motion to dismiss with respect to all requests for monetary damages on Claims III and IV relating to the guarantee offer and chargeback policy. On July 19, 2022, the FTC filed an amended complaint adding Match Group, LLC as a defendant. On September 11, 2023, both parties filed motions for summary judgment. We believe we have strong defenses to the FTC's claims regarding Match.com's practices, policies, and procedures and will continue to defend vigorously against them.

Irish Data Protection Commission Inquiry Regarding Tinder's Practices

On February 3, 2020, we received a letter from the Irish Data Protection Commission (the "DPC") notifying us that the DPC had commenced an inquiry examining Tinder's compliance with the EU's General Data Protection Regulation ("GDPR"), focusing on Tinder's processes for handling access and deletion requests and Tinder's user data retention policies. On January 8, 2024, the DPC provided us with a preliminary draft decision alleging that certain of Tinder's access and retention policies, largely relating to protecting the safety and privacy

[Table of Contents](#)

of Tinder's users, violate GDPR requirements. We filed our response to the preliminary draft decision on March 15, 2024. We believe we have strong defenses to these claims and will defend vigorously against them.

Newman Derivative and Stockholder Class Action Regarding Separation Transaction

On June 24, 2020, a Former Match Group shareholder filed a complaint in the Delaware Court of Chancery against Former Match Group and its board of directors, as well as Match Group, IAC Holdings, Inc., and Barry Diller seeking to recover unspecified monetary damages on behalf of the Company and directly as a result of his ownership of Former Match Group stock in relation to the separation of Former Match Group from its former majority shareholder, Match Group. See *David Newman et al. v. IAC/Interactive Corp. et al.*, C.A. No. 2020-0505-MTZ (Delaware Court of Chancery). The complaint alleges that the special committee established by Former Match Group's board of directors to negotiate with Match Group regarding the separation transaction was not sufficiently independent of control from Match Group and Mr. Diller and that Former Match Group board members failed to adequately protect Former Match Group's interest in negotiating the separation transaction, which resulted in a transaction that was unfair to Former Match Group and its shareholders. On January 21, 2021, the case was consolidated with other shareholder actions, and an amended complaint was filed on April 14, 2021. See *In Re Match Group, Inc. Derivative Litigation*, Consolidated C.A. No. 2020-0505-MTZ (Delaware Court of Chancery). On September 1, 2022, the court granted defendants' motion to dismiss with prejudice. On October 3, 2022, plaintiffs filed an amended notice of appeal with the Delaware Supreme Court, and on April 4, 2024, the Delaware Supreme Court reversed and remanded the Chancery Court's dismissal, except for the Chancery Court's dismissal of derivative claims, which the Supreme Court affirmed. We believe we have strong defenses to the allegations in this lawsuit and the appeal and will defend vigorously against them.

FTC Investigation of Certain Subsidiary Data Privacy Representations

On March 19, 2020, the FTC issued an initial Civil Investigative Demand ("CID") to the Company requiring us to produce certain documents and information regarding the allegedly wrongful conduct of OkCupid in 2014 and our public statements in 2019 regarding such conduct and whether such conduct and statements were unfair or deceptive under the FTC Act. On May 26, 2022, the FTC filed a Petition to Enforce Match Civil Investigative Demand. See *FTC v. Match Group, Inc.*, No. 1:22-mc-00054 (District of Columbia). We believe we have strong defenses to the FTC's investigation and petition to enforce and will defend vigorously against them.

Bardaji Securities Class Action

On March 6, 2023, a Match Group shareholder filed a complaint in federal district court in Delaware against Match Group, Inc., its Chief Executive Officer, its former Chief Executive Officer, and its President and Chief Financial Officer seeking to recover unspecified monetary damages on behalf of a class of acquirers of Match Group securities between November 3, 2021 and January 31, 2023. See *Leopold Riola Bardaji v. Match Group, Inc. et al*, No. 1:23-cv-00245-UNA (District of Delaware). The complaint alleges that Match Group, Inc. misrepresented and/or failed to disclose that its Tinder business was not effectively executing on its new product initiatives; as a result, Tinder was not on track to deliver its

planned product initiatives in 2022; and therefore, Match Group, Inc.'s statements about its Tinder's business, product initiatives, operations, and prospects lacked a reasonable basis. On July 24, 2023, lead plaintiff Northern California Pipe Trades Trust Funds filed an amended complaint. The amended complaint added allegations regarding misrepresentations relating to Match Group's acquisition of Hyperconnect and the business' subsequent integration and performance. On September 20, 2023, defendants filed a motion to dismiss. We believe that we have strong defenses to the allegations in this lawsuit and will defend vigorously against them.

Oksayan Class Action

On February 14, 2024, a putative class action lawsuit was filed against Match Group, Inc. in the Northern District of California by six plaintiffs from California, New York, Georgia, and Florida. Among other things, Plaintiffs allege that the Tinder, Hinge, and The League apps are designed to be "addictive" in violation of various consumer protection, product liability, negligence, and other laws. Plaintiffs claim that these services' business models and features addict unsuspecting users, leading to increased depression, loneliness, among other things. Plaintiffs further allege that Tinder, Hinge, and The League failed to warn them of the risks of addiction and that the apps are engaging in fraudulent business practices by marketing their apps in a misleading way. Plaintiffs seek monetary damages, as well as injunctive relief (implementing warnings, discontinuing certain marketing campaigns, providing resources). On March 15, 2024, we filed a motion to compel plaintiffs' claims to

[Table of Contents](#)

arbitration. We believe that we have strong defenses to the allegations in this lawsuit and will defend vigorously against them.

Item 1A. Risk Factors

This quarterly report on Form 10-Q contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements that are not historical facts are “forward-looking statements.” The use of words such as “anticipates,” “estimates,” “expects,” “plans,” and “believes,” among others, generally identify forward-looking statements. These forward-looking statements include, among others, statements relating to: Match Group’s future financial performance, Match Group’s business prospects and strategy, anticipated trends and prospects in the industries in which Match Group’s businesses operate, and other similar matters. These forward-looking statements are based on Match Group management’s current expectations and assumptions about future events as of the date of this quarterly report, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict.

Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, among others: our ability to maintain or grow the size of our user base, competition, the limited operating history of some of our brands, our ability to attract users to our services through cost-effective marketing and related efforts, our ability to distribute our services through third parties and offset related fees, risks related to our use of artificial intelligence, foreign currency exchange rate fluctuations, the integrity and scalability of our systems and infrastructure (and those of third parties) and our ability to adapt ours to changes in a timely and cost-effective manner, our ability to protect our systems from cyberattacks and to protect personal and confidential user information, risks relating to certain of our international operations and acquisitions, damage to our brands’ reputations as a result of inappropriate actions by users of our services, uncertainties related to the tax treatment of our separation from IAC, uncertainties related to the acquisition of Hyperconnect, including, among other things, the expected benefits of the transaction and the impact of the transaction on the businesses of Match Group, and macroeconomic conditions.

Certain of these and other risks and uncertainties are discussed in Match Group’s filings with the Securities and Exchange Commission, including in Part I “Item 1A. Risk Factors” of our annual report on Form 10-K for the fiscal year ended December 31, 2023. Other unknown or unpredictable factors that could also adversely affect Match Group’s business, financial condition, and results of operations may arise from time to time. In light of these risks and uncertainties, these forward-looking statements discussed in this quarterly report may not prove to be accurate. Accordingly, you should not place undue reliance on these forward-looking statements, which only reflect the views of Match Group management as of the date of this quarterly report. Match Group does not undertake to update these forward-looking statements.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

The Company did not issue or sell any shares of its common stock or any other equity securities pursuant to unregistered transactions during the quarter ended March 31, 2024.

Issuer Purchases of Equity Securities

The following table sets forth purchases by the Company of its common stock during the quarter ended March 31, 2024:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	(d) Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs ⁽²⁾

Total	<u>5,617,019</u>	<u>\$ 35.18</u>	<u>5,617,019</u>	<u>\$ 802,373,913</u>

⁽¹⁾ Reflects repurchases made pursuant to the \$1.0 billion share repurchase program authorized in January 2024.

⁽²⁾ Represents the aggregate value of shares of common stock that remained available for repurchase pursuant to the Company's repurchase program. The timing and actual number of any shares repurchased will depend on a variety of factors, including price, general business and market conditions, and alternative investment opportunities. The Company is not obligated to purchase any shares under the repurchase program, and repurchases may be commenced, suspended or discontinued from time to time without prior notice.

Item 5. Other Information

Insider Trading Arrangements

During the three months ended March 31, 2024, no director or officer (as defined in Rule 16a-1(f) under the Securities Exchange Act of 1934, as amended) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.
