## FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements. These forward-looking statements might be identified by words, and variations of words, such as “will,” “expect,” “may,” “would,” “could,” “plan,” “believe,” “anticipate,” “intend,” “estimate,” “potential,” “position,” “forecast,” “target,” “guidance,” “outlook,” and similar expressions. These forward-looking statements may include, but are not limited to, statements about our business; financial performance, financial condition, and results of operations, including revenue, revenue growth, profit, taxes, earnings per share, and cash flows; the impacts of macroeconomic and market conditions and volatility on our business operations, financial results, and financial position and on supply chains and the world economy; our cost structure; our funding and liquidity; the impacts on our business of manufacturing, sourcing, and supply chain management; the Russia and Ukraine conflict; our operations as a stand-alone company; and risks related to foreign currency exchange, interest rates, and commodity price volatility. These forward-looking statements involve risks and uncertainties, many of which are beyond our control. Factors that could cause our actual results to differ materially from those described in our forward-looking statements include, but are not limited to, operating in highly competitive markets; our ability to successfully complete strategic transactions; the actions or inactions of third parties with whom we partner and the various collaboration, licensing, and other partnerships and alliances we have with third parties; demand for our products, services, or solutions and factors that affect that demand; management of our supply chain and our ability to cost-effectively secure the materials we need to operate our business; disruptions in our operations; changes in third-party and government reimbursement processes, rates, contractual relationships, and mix of public and private payers, including related to government shutdowns; our ability to attract and/or retain key personnel and qualified employees; global geopolitical and economic instability, including as a result of the conflict between Ukraine and Russia, the conflict in Israel and surrounding areas, and the actions in the Red Sea region; public health crises, epidemics, and pandemics, and their effects on our business; maintenance and protection of our intellectual property rights, as well as maintenance of successful research and development efforts with respect to commercially successful products and technologies; the impact of potential information technology, cybersecurity, or data security breaches; compliance with the various legal, regulatory, tax, privacy, and other laws to which we are subject, such as the Foreign Corrupt Practices Act and similar anti-corruption and anti-bribery laws globally, and related changes, claims, inquiries, investigations, or actions; our ability to control increases in healthcare costs and any subsequent effect on demand for our products, services, or solutions; the impacts related to our increasing focus on and investment in cloud, edge, artificial intelligence, and software offerings; the impact of potential product liability claims; environmental, social, and governance matters; our ability to operate effectively as an independent, publicly traded company; and our level of indebtedness, as well as our general ability to comply with covenants under our debt instruments, and any related effect on our business. Please also see the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 filed with the United States Securities and Exchange Commission (“SEC”) and any updates or amendments we make in future filings. There may be other factors not presently known to us or which we currently consider to be immaterial that could cause our actual results to differ materially from those projected in any forward-looking statements we make. We do not undertake any obligation to update or revise our forward-looking statements except as required by applicable law or regulation.

## **NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION**

GE HealthCare Technologies Inc. and its subsidiaries (“GE HealthCare,” the “Company,” “our,” “us,” or “we”) is a leading global medical technology, pharmaceutical diagnostics, and digital solutions innovator. We operate at the center of the healthcare ecosystem, helping enable precision care by increasing health system capacity, enhancing productivity, digitizing healthcare delivery, and improving clinical outcomes while serving patients’ demand for greater efficiency, access, and personalized medicine. Our products, services, and solutions are designed to enable clinicians to make more informed decisions quickly and efficiently, improving patient care from diagnosis to therapy to monitoring.

On January 3, 2023 (the “Distribution Date”), the General Electric Company (“GE”) completed the spin-off of GE HealthCare Technologies Inc. (the “Spin-Off”). The Spin-Off was completed through a distribution of approximately 80.1% of the Company’s outstanding common stock to holders of record of GE’s common stock as of the close of business on December 16, 2022 (the “Distribution”), which resulted in the issuance of approximately 454 million shares of common stock. Prior to the Distribution, the Company issued 100 shares of common stock in exchange for \$1.00, all of which were held by GE as of December 31, 2022. As a result of the Distribution, the Company became an independent public company. As of March 31, 2024, GE’s beneficial ownership was approximately 6.7% of the Company’s outstanding common stock.

In connection with the Spin-Off, certain adjustments were recorded to reflect transfers from GE, the draw-down of the Term Loan Facility and settlement of Spin-Off transactions with GE, which resulted in the net reduction in Total equity of \$2,834 million. These items substantially consisted of the transfer of: (1) certain pension plan liabilities and assets, (2) certain deferred income taxes, (3) deferred compensation liabilities, and (4) employee termination obligations.

In connection with the Spin-Off, the Company entered into or adopted several agreements that provide a framework for the relationship between the Company and GE. See Note 17, “Related Parties” for more information on these agreements and related transactions.

The condensed consolidated financial statements have been prepared in accordance with United States (“U.S.”) generally accepted accounting principles (“U.S. GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring adjustments, considered necessary for a fair presentation of the Company’s financial position and operating results have been included. All intercompany balances and transactions within the Company have been eliminated in the condensed consolidated financial statements. Operating results for the three months ended March 31, 2024 and 2023 are not necessarily indicative of the results that may be expected for the fiscal year as a whole. The December 31, 2023 consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. The following tables are presented in millions of U.S. dollars unless otherwise stated. Certain columns and rows throughout this document may not sum due to the use of rounded numbers. Percentages presented are calculated from the underlying whole-dollar amounts.

The condensed consolidated financial statements and notes should be read in conjunction with the Company’s audited consolidated and combined financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

## **ESTIMATES AND ASSUMPTIONS.**

The preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates based on assumptions about current, and for some estimates, future, economic and market conditions, which affect the reported amounts and related disclosures in the condensed consolidated financial statements. We base our estimates and judgments on historical experience and on various other assumptions and information that we believe to be reasonable under the circumstances. Although our estimates contemplate current and expected future conditions, as applicable, it is reasonably possible that actual conditions could differ from our expectations, which could materially affect our results of operations, financial position, and cash flows.

## **RECENT ACCOUNTING PRONOUNCEMENTS.**

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07 ("ASU 2023-07"), Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. ASU 2023-07 requires annual and interim disclosures that are expected to improve reportable segment disclosures, primarily through enhanced disclosures about significant segment expenses. The provisions of ASU 2023-07 are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. We are currently evaluating the impact of adopting ASU 2023-07.

In December 2023, the FASB issued ASU No. 2023-09 ("ASU 2023-09"), Income Taxes (Topic 740): Improvements to Income Tax Disclosures. ASU 2023-09 addresses investor requests for more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information. This update also includes certain other amendments to improve the effectiveness of income tax disclosures. The provisions of ASU 2023-09 are effective for annual periods beginning after December 15, 2024, with early adoption permitted. We are currently evaluating the impact of adopting ASU 2023-09.

## NOTE 2. REVENUE RECOGNITION

Our revenues primarily consist of sales of products and services to customers. Products include equipment, imaging agents, software-related offerings, and upgrades. Services include contractual and stand-by preventative maintenance and corrective services, as well as on-demand service parts and maintenance services, extended warranties, training, and other service-type offerings. The Company recognizes revenue from contracts with customers when the customer obtains control of the underlying products or services.

### CONTRACT ASSETS.

Contract assets reflect revenue recognized on contracts with customers in excess of billings based on contractual terms. Contract assets are classified as current or non-current based on the amount of time expected to lapse until the Company's right to consideration becomes unconditional. Other deferred assets consist of costs to obtain contracts, primarily commissions, other cost deferrals for shipped products, and deferred service, labor, and direct overhead costs.

#### Contract and Other Deferred Assets

	As of	
	March 31, 2024	December 31, 2023
Contract assets	\$ 577	\$ 600
Other deferred assets	384	400
<b>Contract and other deferred assets</b>	<b>961</b>	<b>1,000</b>
Non-current contract assets <sup>(1)</sup>	78	72
Non-current other deferred assets <sup>(1)</sup>	97	96
<b>Total contract and other deferred assets</b>	<b>\$ 1,136</b>	<b>\$ 1,168</b>

(1) Non-current contract and other deferred assets are recognized within All other non-current assets in the Condensed Consolidated Statements of Financial Position.

### CONTRACT LIABILITIES.

Contract liabilities include customer advances and deposits received when orders are placed and billed in advance of completion of performance obligations. Contract liabilities are classified as current or non-current based on the periods over which remaining performance obligations ("RPO") are expected to be satisfied with our customers.

As of March 31, 2024 and December 31, 2023, contract liabilities were approximately \$2,566 million and \$2,623 million, respectively, of which the non-current portion of \$687 million and \$705 million, respectively, was recognized in All other non-current liabilities in the Condensed Consolidated Statements of Financial Position. Contract liabilities decreased \$56 million in 2024 primarily due to a decrease in customer advances. Revenue recognized related to the contract liabilities balance at the beginning of the year was approximately \$741 million and \$759 million for the three months ended March 31, 2024 and 2023, respectively.

## **REMAINING PERFORMANCE OBLIGATIONS.**

RPO represents the estimated revenue expected from customer contracts that are partially or fully unperformed inclusive of amounts deferred in contract liabilities, excluding contracts, or portions thereof, that provide the customer with the ability to cancel or terminate without incurring a substantive penalty. As of March 31, 2024, the aggregate amount of the contracted revenues allocated to our unsatisfied performance obligations was \$14,313 million. We expect to recognize revenue as we satisfy our RPO as follows: a) product-related RPO of \$4,742 million of which 98% is expected to be recognized within two years, and the remaining thereafter; and b) services-related RPO of \$9,570 million of which 65% and 94% are expected to be recognized within two years and five years, respectively, and the remaining thereafter.

## **NOTE 3. SEGMENT INFORMATION**

GE HealthCare's operations are organized and managed through four reportable segments: Imaging, Ultrasound, Patient Care Solutions ("PCS"), and Pharmaceutical Diagnostics ("PDx"). These segments have been identified based on the nature of the products sold and how the Company manages its operations. We have not aggregated any of our operating segments to form reportable segments. A description of our reportable segments has been provided in the "Business" section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

The performance of these segments is principally measured based on Total revenues and an earnings metric defined as “Segment EBIT.” Segment EBIT is calculated as Income before income taxes in our Condensed Consolidated Statements of Income excluding the impact of the following: Interest and other financial charges – net, Non-operating benefit (income) costs, restructuring costs, acquisition and disposition-related benefits (charges), gain (loss) on business and asset dispositions, Spin-Off and separation costs, amortization of acquisition-related intangible assets, and investment revaluation gain (loss).

(1) Current financing receivables and non-current financing receivables are recognized within All other current assets and All other non-current assets, respectively, in the Condensed Consolidated Statements of Financial Position.

As of March 31, 2024, 6%, 5%, and 7% of financing receivables were over 30 days past due, over 90 days past due, and on nonaccrual, respectively, with the majority of nonaccrual financing receivables secured by collateral. As of December 31, 2023, 5%, 5%, and 6% of financing receivables were over 30 days past due, over 90 days past due, and on nonaccrual, respectively, with the majority of nonaccrual financing receivables secured by collateral.

## NOTE 6. LEASES

Operating lease liabilities recognized within All other current liabilities and All other non-current liabilities in the Condensed Consolidated Statements of Financial Position were \$376 million and \$383 million as of March 31, 2024 and December 31, 2023, respectively. The total lease expense related to our operating lease portfolio was \$60 million and \$56 million for the three months ended March 31, 2024 and 2023, respectively.

## NOTE 7. ACQUISITIONS, GOODWILL, AND OTHER INTANGIBLE ASSETS

### ACQUISITIONS.

On February 17, 2023, the Company acquired 100% of the stock of Caption Health, Inc. (“Caption Health”) for \$127 million of upfront payment, \$10 million of future holdback payment, and potential earn-out payments valued at \$13 million based primarily on various milestones and sales targets. This transaction was accounted for as a business combination. The preliminary purchase price allocation resulted in goodwill of \$94 million, intangible assets of \$60 million, and deferred tax liabilities of \$3 million. The purchase price allocation for Caption Health was finalized in the first quarter of 2024 without material adjustments. The goodwill associated with the acquired business is non-deductible for tax purposes and is reported in the Ultrasound segment. Caption Health is an artificial intelligence (“AI”) company whose technology expands access to AI-guided ultrasound screening for novice users.

### GOODWILL.

	Balance as of December 31, 2023	Acquisitions	Foreign exchange and other	Balance as of March 31, 2024
Imaging	\$ 4,431	\$ —	\$ (4)	\$ 4,427

PDx	2,534	—	—	2,534
<b>Total Goodwill</b>	<b>\$ 12,936</b>	<b>\$ —</b>	<b>\$ (10)</b>	<b>\$ 12,927</b>

We assess the possibility that a reporting unit’s fair value has been reduced below its carrying amount due to the occurrence of events or circumstances between annual impairment testing dates. We did not identify any reporting units that required an interim impairment test since the last annual impairment testing date.

### OTHER INTANGIBLE ASSETS.

Intangible assets decreased during the three months ended March 31, 2024, primarily as a result of amortization. Substantially all of our intangible assets are subject to amortization. Amortization expense was \$80 million and \$96 million for the three months ended March 31, 2024 and 2023, respectively.

## NOTE 8. BORROWINGS

The Company’s borrowings include the following senior unsecured notes and credit agreements:

#### Senior Unsecured Notes

The Company’s borrowings include \$8,250 million aggregate principal amount of senior unsecured notes in six series with maturity dates ranging from 2024 through 2052 (collectively, the “Notes”). Refer to the table below for further information about the Notes.

## Credit Facilities

The Company has credit agreements providing for:

- a five-year senior unsecured revolving credit facility in an aggregate committed amount of \$2,500 million;
- a 364-day senior unsecured revolving credit facility in an aggregate committed amount of \$1,000 million; and
- a three-year senior unsecured term loan credit facility in an aggregate principal amount of \$2,000 million (the “Term Loan Facility” and, together with the five-year revolving credit facility and the 364-day revolving credit facility, the “Credit Facilities”).

There were no outstanding amounts under the five-year revolving credit facility and 364-day revolving credit facility as of March 31, 2024 or December 31, 2023.

In the first quarter of 2024, we repaid \$150 million of the outstanding Term Loan Facility. As of March 31, 2024, we have repaid a total of \$1,000 million of this facility. We had no principal debt repayments on the Notes for the three months ended March 31, 2024.

## Borrowings Composition

(1) Short-term borrowings as of March 31, 2024 and December 31, 2023 includes \$1,003 million and \$1,002 million, respectively, related to the current portion of our long-term borrowings, net of unamortized debt issuance costs and discounts.

See Note 12, “Financial Instruments and Fair Value Measurements” for further information about borrowings and associated derivatives contracts.

## LETTERS OF CREDIT, GUARANTEES, AND OTHER COMMITMENTS.

As of March 31, 2024 and December 31, 2023, the Company had bank guarantees and surety bonds of approximately \$717 million and \$751 million, respectively, related to certain commercial contracts. Additionally, we have approximately \$33 million and \$39 million of guarantees as of March 31, 2024 and December 31, 2023, respectively, primarily related to residual and credit guarantees on equipment sold to third-party finance companies. Our Condensed Consolidated Statements of Financial Position reflect a liability of \$4 million as of March 31, 2024 and December 31, 2023 related to these guarantees. For credit-related guarantees, we estimate our expected credit losses related to off-balance sheet credit exposure consistent with the method used to estimate the allowance for credit losses on financial assets held at amortized cost. See Note 13, “Commitments, Guarantees, Product Warranties, and Other Loss Contingencies” for further information on guarantee arrangements with GE.

## NOTE 9. POSTRETIREMENT BENEFIT PLANS

We sponsor a number of pension and retiree health and life insurance benefit plans that we present in three categories, Principal Pension Plans, Other Pension Plans, and Other Postretirement Plans (“OPEB

Plans”). Please refer to Note 10, “Postretirement Benefit Plans” to the consolidated and combined financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 for further information. On January 1, 2024, we transitioned from legacy GE multiple-employer OPEB plans to GE HealthCare sponsored single-employer OPEB plans. This change did not have an impact on our results of operations or financial position. Pension plans with pension assets or obligations less than \$50 million are not included in the results below.

### Components of Expense (Income)

<b>Net periodic expense (income)</b>	<b>\$ (66)</b>	<b>\$ (76)</b>	<b>\$ (2)</b>	<b>\$ (4)</b>	<b>\$ (22)</b>	<b>\$ (21)</b>

In the three months ended March 31, 2024, the Company made cash benefit payments totaling \$27 million to its Principal Pension Plans, \$21 million to its Other Pension Plans, and \$39 million to its OPEB Plans. In 2024, the Company expects to make total cash contributions of approximately \$336 million to these plans. The Company does not have a required minimum funding contribution for its U.S.-based GE HealthCare Pension Plan in 2024. Future contributions will depend on market conditions, interest rates, and other factors.

#### Defined Contribution Plan

GE HealthCare sponsors a defined contribution plan for its eligible U.S. employees. Expenses associated with our employees' participation in GE HealthCare's defined contribution plan were \$32 million and \$33 million for the three months ended March 31, 2024 and 2023, respectively.

### **NOTE 10. INCOME TAXES**

Our effective income tax rate was 24.2% and 29.9% for the three months ended March 31, 2024 and 2023, respectively. The tax rate for the three months ended March 31, 2024 and 2023 is higher than the U.S. statutory rate primarily due to the cost of global activities, including the U.S. taxation on international operations, withholding taxes, and state taxes.

Post Spin-Off, the Company's previously undistributed earnings of our foreign subsidiaries are no longer indefinitely reinvested in non-U.S. businesses due to current U.S. funding needs. Therefore, in the first quarter of 2023, an incremental deferred tax liability of \$30 million was recorded for withholding and other foreign taxes due upon future distribution of earnings. In addition, the Company is providing for withholding and other foreign taxes due upon future distribution of current period earnings.

The Company is currently being audited in a number of jurisdictions for tax years 2004-2022, including China, Germany, Norway, the United Kingdom, and the United States.

### **NOTE 11. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS) - NET**

Changes in Accumulated other comprehensive income (loss) ("AOCI") by component, net of income taxes, were as follows.

<b>March 31, 2023</b>	<b>\$ (1,760)</b>	<b>\$ 1,865</b>	<b>\$ (30)</b>	<b>\$ 75</b>

(1) The amount of Currency translation adjustments recognized in Other comprehensive income (loss) (“OCI”) during the three months ended March 31, 2024 and 2023 included net gains (losses) relating to net investment hedges, as further discussed in Note 12, “Financial Instruments and Fair Value Measurements.”

(2) Reclassifications from AOCI into earnings for Pension and Other Postretirement Plans are recognized within Non-operating benefit (income) costs, while Cash flow hedges are recognized within Cost of products and Cost of services in our Condensed Consolidated Statements of Income.

## NOTE 12. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

### DERIVATIVES AND HEDGING.

Our primary objective in executing and holding derivative contracts is to reduce the volatility of earnings and cash flows associated with risks related to foreign currency exchange rates, interest rates, equity prices, and commodity prices. These derivative contracts reduce, but do not entirely eliminate, the aforementioned risks. Our policy is to use derivative contracts solely for managing risks and not for speculative purposes.

#### Cash Flow Hedges

For derivative instruments designated as cash flow hedges, changes in the fair value of designated hedging instruments are initially recorded as a component of AOCI and subsequently reclassified to earnings in the period in which the hedged transaction affects earnings and to the same financial statement line item impacted by the hedged transaction. As of March 31, 2024, we expect to reclassify \$3 million of pre-tax net deferred losses associated with designated cash flow hedges to earnings in the next 12 months, contemporaneously with the impact on earnings of the related hedged transactions.

#### Net Investment Hedges

We use cross-currency interest rate swaps and foreign currency forward contracts in combination with foreign currency option contracts to hedge the foreign currency risk associated with our net investment in foreign operations. As of March 31, 2024, these contracts were designated as hedges of our net investment in foreign operations with Euro, Japanese Yen, and Chinese Renminbi functional currencies.

#### Fair Value Hedges

We use interest rate swaps to hedge the interest rate risk on our fixed rate borrowings. These derivatives are designated as fair value hedges. In the first quarter of 2024, we executed interest rate swap contracts to hedge the benchmark interest rate risk of specific designated cash flows of our senior unsecured notes.

We record the changes in fair value on the swap contracts in Interest and other financial charges – net in our Condensed Consolidated Statements of Income, the same line item where the offsetting change in the fair value of the designated cash flows of the senior unsecured note is recorded as a basis adjustment.

#### Derivatives Not Designated as Hedging Instruments

We also execute derivative instruments, such as foreign currency forward contracts, equity-linked total return swaps, and commodity forward contracts that are not designated as qualifying hedges. These derivatives serve as economic hedges of the foreign currency rate risk, equity price risk and commodity price risk. We identify foreign currency-related features in our purchase or sales contracts where the currency is not the local or functional currency of a substantive party to the contract and record them as embedded derivatives.

The changes in fair value of derivatives not designated in qualifying hedge transactions are recorded in Cost of products, Cost of services, Selling, general, and administrative ("SG&A"), and Other (income) expense – net in the Condensed Consolidated Statements of Income based on the nature of the underlying hedged transaction. Changes in fair value of embedded derivatives are recognized in Other (income) expense – net in the Condensed Consolidated Statements of Income.

The following table presents the gross fair values of our outstanding derivative instruments.

Under the master arrangements with the respective counterparties to our derivative contracts, in certain circumstances and subject to applicable requirements, we are allowed to net settle transactions with a single net amount payable by one party to the other. However, we have elected to present the derivative assets and derivative liabilities on a gross basis on our Condensed Consolidated Statements of Financial Position and in the table above.

As of March 31, 2024, the potential effect of rights of offset associated with the derivative contracts would be an offset to both assets and liabilities by \$40 million.

The table below presents the pre-tax gains (losses) recognized in OCI associated with the Company's cash flow and net investment hedges.

#### Deferred compensation

The deferred compensation liabilities as of March 31, 2024 and December 31, 2023 are comprised of market-based obligations indexed to the S&P 500 index fund and GE HealthCare stock in Level 1, and mutual funds in Level 2.

#### Contingent Consideration

The contingent consideration liabilities as of March 31, 2024 and December 31, 2023 were recorded in connection with business acquisitions.

#### Non-recurring Fair Value Measurements

Changes in fair value measurements of assets and liabilities measured at fair value on a non-recurring basis, such as equity method investments, equity investments without readily determinable fair value, financing receivables, and long-lived assets, were not material for the three months ended March 31, 2024 and 2023.

#### Fair Value of Other Financial Instruments

The estimated fair value of borrowings as of March 31, 2024 and December 31, 2023 was \$9,807 million and \$9,959 million, respectively, compared to a carrying value (which includes a reduction for unamortized debt issuance costs and discounts and cumulative basis adjustment) of \$9,255 million and \$9,442 million, respectively. The fair value of our borrowings includes accrued interest and is determined based on observable and quoted prices and spreads of comparable debt and benchmark securities and is considered Level 2 in the fair value hierarchy. See Note 8, "Borrowings" for further information.

### **NOTE 13. COMMITMENTS, GUARANTEES, PRODUCT WARRANTIES, AND OTHER LOSS CONTINGENCIES**

#### **GUARANTEES.**

The Company has off-balance sheet credit exposure through standby letters of credit, bank guarantees, bid bonds, and surety bonds. See Note 8, "Borrowings" for further information.

Following the Spin-Off, which was completed pursuant to a Separation and Distribution Agreement (the "Separation and Distribution Agreement"), the Company has remaining performance guarantees on behalf of GE. Under the Separation and Distribution Agreement, GE is obligated to use reasonable best efforts to replace the Company as the guarantor or terminate all such performance guarantees. Until such termination or replacement, in the event of non-fulfillment of contractual obligations by the relevant obligors, the Company could be obligated to make payments under the applicable instruments for which GE is obligated to reimburse and indemnify the Company. As of March 31, 2024 the Company's maximum aggregate exposure, subject to GE reimbursement, is approximately \$114 million.

#### **PRODUCT WARRANTIES.**

We provide warranty coverage to our customers as part of customary practices in the market to provide assurance that the products we sell comply with agreed-upon specifications. We provide estimated product warranty expenses when we sell the related products. Warranty accruals are estimates that are based on the best available information, mostly historical claims experience, therefore claims costs may differ from amounts provided. An analysis of changes in the liability for product warranties follows.

	For the three months ended March 31

Product warranties are recognized within All other current liabilities in the Condensed Consolidated Statements of Financial Position.

#### **LEGAL MATTERS.**

In the normal course of our business, we are involved from time to time in various arbitrations; class actions; commercial, intellectual property, and product liability litigation; government investigations; investigations by competition/antitrust authorities; and other legal, regulatory, or governmental actions, including the significant matters described below that could have a material impact on our results of operations and cash flows. In many proceedings, including the specific matters described below, it is inherently difficult to determine whether any loss is probable or even reasonably possible or to estimate the size or range of the possible loss, and accruals for legal matters are not recorded until a loss for a particular matter is considered probable and reasonably estimable. Given the nature of legal matters and the complexities involved, it is often difficult to predict and determine a meaningful estimate of loss or range of loss until we know, among other factors, the particular claims involved, the likelihood of success of our defenses to those claims, the damages or other relief sought, how discovery or other procedural considerations will affect the outcome, the settlement posture of other parties, and other factors that may have a material effect on the outcome. For such matters, unless otherwise specified, we do not believe it is possible to provide a meaningful estimate of loss at this time. Moreover, it is not uncommon for legal matters to be resolved over many years, during which time relevant developments and new information must be continuously evaluated.

#### Contracts with Iraqi Ministry of Health

In 2017, a number of U.S. Service members, civilians, and their families brought a complaint in the U.S. District Court for the District of Columbia (the “District Court”) against a number of pharmaceutical and medical device companies, including GE HealthCare and certain affiliates, alleging that the defendants violated the U.S. Anti-Terrorism Act. The complaint seeks monetary relief and alleges that the defendants provided funding for an Iraqi terrorist organization through their sales practices pursuant to pharmaceutical and medical device contracts with the Iraqi Ministry of Health. In July 2020, the District Court granted defendants’ motions to dismiss and dismissed all of the plaintiffs’ claims. In January 2022, a panel of the U.S. Court of Appeals for the District of Columbia Circuit reversed the District Court’s decision. In February 2022, the defendants requested review of the decision by all of the judges on the U.S. Court of Appeals for the District of Columbia Circuit (the “D.C. Circuit”). In February 2023, the D.C. Circuit denied this request. In June 2023, defendants petitioned the Supreme Court to review the D.C. Circuit’s decision. On October 2, 2023, the Supreme Court invited the Solicitor General to file a brief in this case expressing the views of the United States. The proceedings in the District Court are currently inactive.

#### Government Disclosures

From time to time, we make self-disclosures regarding our compliance with the Foreign Corrupt Practices Act (“FCPA”) and similar laws to relevant authorities who may pursue or decline to pursue enforcement proceedings against us. We, with the assistance of outside counsel, made voluntary self-disclosures to the U.S. Securities and Exchange Commission (“SEC”) and the U.S. Department of Justice (“DOJ”) beginning in 2018 regarding tender irregularities and other potential violations of the FCPA relating to our activities in certain provinces in China. We have been engaged in ongoing discussions with each of the SEC and the DOJ regarding these matters. We are fully cooperating with the reviews by these agencies and have implemented, and continue to implement, enhancements to our compliance policies and practices. At this time, we are unable to predict the duration, scope, result, or related costs associated with these disclosures to the SEC and the DOJ. We also are unable to predict what, if any, action may be taken by the SEC or the DOJ or what penalties or remedial actions they may seek. Any determination that our operations or activities are not in compliance with existing laws or regulations, including applicable foreign laws, could result in the imposition of fines, penalties, disgorgement, equitable relief, or other losses.

### **NOTE 14. RESTRUCTURING AND OTHER ACTIVITIES - NET**

Restructuring activities are essential to optimize the business operating model for GE HealthCare and mostly involve workforce reductions, organizational realignments, and revisions to our real estate footprint. Specifically, restructuring and other charges (gains) primarily include facility exit costs, employee-related termination benefits associated with workforce reductions, asset write-downs, and cease-use costs. For segment reporting, restructuring and other activities are not allocated.

For restructuring initiatives committed to by management through March 31, 2024, including additional initiatives committed to in the three months ended March 31, 2024, we recorded net expenses of \$40 million and \$12 million for the three months ended March 31, 2024 and 2023, respectively. These restructuring initiatives are expected to result in additional expenses of approximately \$25 million, to be incurred primarily over the next 12 months, substantially related to employee-related termination benefits and asset write-downs. Restructuring expenses (gains) are recognized within Cost of products, Cost of services, or SG&A, as appropriate, in the Condensed Consolidated Statements of Income.

Liabilities related to restructuring are recognized within All other current liabilities, All other non-current liabilities, and Compensation and benefits in the Condensed Consolidated Statements of Financial Position and totaled \$76 million and \$68 million as of March 31, 2024 and December 31, 2023, respectively.

## NOTE 15. EARNINGS PER SHARE

The numerator for both basic and diluted earnings per share ("EPS") is net income attributable to GE HealthCare common stockholders. The denominator of basic EPS is the weighted-average number of shares outstanding during the period. The dilutive effect of outstanding stock options, restricted stock units, and performance share units is reflected in the denominator for diluted EPS using the treasury stock method.

## SUPPLY CHAIN FINANCE PROGRAMS.

The Company participates in voluntary supply chain finance programs which provide participating suppliers the opportunity to sell their GE HealthCare receivables to third parties at the sole discretion of both the suppliers and the third parties. We evaluate supply chain finance programs to ensure the use of a third-party intermediary to settle our trade payables does not change the nature, existence, amount, or timing of our trade payables and does not provide the Company with any direct economic benefit. If any characteristics of the trade payables change or we receive a direct economic benefit, we reclassify the trade payables as borrowings. In connection with the supply chain finance programs, payment terms normally range from 30 to 150 days, not exceeding 180 days, depending on the underlying supplier agreements.

Included within Accounts payable in the Condensed Consolidated Statements of Financial Position as of March 31, 2024 and December 31, 2023 were \$384 million and \$365 million, respectively, of confirmed supplier invoices that are outstanding and subject to third-party programs.

## REDEEMABLE NONCONTROLLING INTERESTS.

The Company has noncontrolling interests with redemption features. These redemption features, such as put options, could require the Company to purchase the noncontrolling interests upon the occurrence of certain events. All noncontrolling interests with redemption features that are not solely within our control are recognized within the Condensed Consolidated Statements of Financial Position between liabilities and equity. Redeemable noncontrolling interests are initially recorded at the issuance date fair value. Those that are currently redeemable, or probable of becoming redeemable, are subsequently adjusted to the greater of current redemption value or initial carrying value.

The activity attributable to redeemable noncontrolling interests for the three months ended March 31, 2024 and 2023 is presented below.

### Redeemable Noncontrolling Interests

	For the three months ended March 31	
	2024	2023
<b>Balance at beginning of period</b>	<b>\$ 165</b>	<b>\$ 230</b>
Net income attributable to redeemable noncontrolling interests	11	10
Redemption value adjustments <sup>(1)</sup>	—	183
Distributions to and exercise of redeemable noncontrolling interests and other <sup>(2)</sup>	—	(222)
<b>Balance at end of period</b>	<b>\$ 177</b>	<b>\$ 201</b>

(1) As of January 3, 2023, certain redeemable noncontrolling interests were probable of becoming redeemable due to the change of control that occurred upon consummation of the Spin-Off. As a result, these redeemable noncontrolling interests were remeasured to their current redemption value. The remeasurement was accounted for as a deemed preferred stock dividend of redeemable noncontrolling interest and recorded as an adjustment to retained earnings.

(2) In the first quarter of 2023, the redeemable noncontrolling interest holder exercised its option redemption provision. The expected redemption payment of \$211 million was recognized within All other current liabilities as of March 31, 2023 and was subsequently paid out in the second quarter of 2023.

**Other Income (Expense) - Net**

	<b>For the three months ended March 31</b>	
	<b>2024</b>	<b>2023</b>
Net financing income and investment income (loss)	\$ (16)	\$ 13
Equity method income (loss)	1	4
Change in fair value of assumed obligations	(8)	(13)
Other items, net <sup>(1)</sup>	14	4
<b>Total other income (expense) - net</b>	<b>\$ (8)</b>	<b>\$ 8</b>

(1) Other items, net primarily consists of change in tax indemnities with GE, lease income, gains and losses related to derivatives, and licensing and royalty income for the three months ended March 31, 2024, and lease income, gains and losses related to derivatives, and licensing and royalty income for the three months ended March 31, 2023.

## **NOTE 17. RELATED PARTIES**

In connection with the Spin-Off, the Company entered into or adopted several agreements that provide a framework for the relationship between the Company and GE, including the Transition Services Agreement (“TSA”). For the three months ended March 31, 2024 and 2023, we incurred \$53 million, net, and \$108 million, net, respectively, under the TSA which represents fees charged from GE to the Company primarily for information technology, human resources, and research and development and is net of fees charged from the Company to GE for facilities and other shared services.

Current amounts due from and to GE under the various agreements are recognized within Due from related parties or Due to related parties, as applicable, in the Condensed Consolidated Statements of Financial Position. Non-current amounts due from GE were \$80 million and \$81 million, and due to GE were \$33 million and \$33 million, as of March 31, 2024 and December 31, 2023, respectively. These amounts were recognized within All other non-current assets and All other non-current liabilities, respectively, in the Condensed Consolidated Statements of Financial Position and primarily relate to tax and other indemnities. For more information on these arrangements, see Note 19, “Related Parties” to the consolidated and combined financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

## **NOTE 18. SUBSEQUENT EVENTS**

On April 1, 2024, the Company acquired 100% of the stock of MIM Software Inc. (“MIM Software”) for approximately \$258 million, net of cash acquired, and up to \$35 million in cash upon the completion of certain milestones and service requirements. The acquisition was funded with cash on hand. The Company is in the process of measuring the acquired assets and assumed liabilities as of the acquisition date. MIM Software is a global provider of medical imaging analysis and AI solutions for the practice of radiation oncology, molecular radiotherapy, diagnostic imaging, and urology at imaging centers, hospitals, specialty clinics, and research organizations worldwide. The addition of MIM Software to GE HealthCare’s portfolio is expected to strengthen the Company’s response to provider needs, supplying established solutions that are designed to help simplify, streamline, and automate essential tasks to enhance workflow.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the condensed consolidated financial statements and corresponding notes included elsewhere in this Quarterly Report on Form 10-Q. The following discussion and analysis provide information management believes to be relevant to understanding the financial condition and results of operations of GE HealthCare Technologies Inc. and its subsidiaries ("GE HealthCare," the "Company," "our," "us," or "we") for the three months ended March 31, 2024 and 2023. For a full understanding of our financial condition and results of operations, the below discussion should be read alongside the Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023. This discussion contains forward-looking statements that are based upon current expectations and are subject to uncertainty and changes in circumstances; see "Forward-Looking Statements." Our actual results could differ materially from the results contemplated by these forward-looking statements due to a number of factors, including those discussed below and elsewhere in this Quarterly Report on Form 10-Q, and particularly in Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

The following tables are presented in millions of United States ("U.S.") dollars unless otherwise stated, except for per-share amounts which are presented in U.S. dollars. Certain columns and rows throughout this document may not sum due to the use of rounded numbers. Percentages presented are calculated from the underlying whole-dollar amounts.

GE HealthCare's operations are organized and managed through four reportable segments: Imaging, Ultrasound, Patient Care Solutions ("PCS"), and Pharmaceutical Diagnostics ("PDX") and we evaluate their operating performance using Segment revenues and Segment EBIT.

### **TRENDS AND FACTORS IMPACTING OUR PERFORMANCE**

We believe that our performance and future success depend on a number of factors that present significant opportunities for us but also pose risks and challenges, including those discussed below and particularly in Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

### **KEY TRENDS AFFECTING RESULTS OF OPERATIONS.**

#### **Russia and Ukraine Conflict**

We had \$141 million and \$153 million of assets in, or directly related to, Russia and Ukraine as of March 31, 2024 and December 31, 2023 respectively, none of which are subject to sanctions that impact the carrying value of the assets. We generated revenues of \$77 million and \$78 million from customers in these two countries for the three months ended March 31, 2024 and 2023, respectively. The potential inability to repatriate earnings from these two countries will not have a material impact on our ability to operate.

We continue to monitor the effects of Russia's invasion of Ukraine, including the consideration of financial impact, cybersecurity risks, the applicability and effect of sanctions, and the employee base in Ukraine and Russia. In May 2023, the U.S. Department of Commerce implemented expanded measures that required us to obtain a license for the export, re-export, or transfer of specified medical equipment

and spare parts to customers in Russia. As of April 29, 2024, this requirement has been modified to permit us to export, re-export, or transfer medical equipment and spare parts that meet stated criteria under a License Exception, which will eliminate the need for us to obtain individual U.S. licenses in most cases. The European Union and other countries have also expanded licensing requirements for certain spare parts, services, software, and other items. We will continue to apply for licenses to supply to these customers and to support our business in Russia, as required. The implementation of these measures affected our ability to supply customers in Russia during the first quarter of 2024 and the last three quarters of 2023 and will continue to do so as we confirm applicability of the new U.S. License Exception to our transactions and continue to obtain licenses. There is no guarantee we will obtain all of the licenses for which we applied, that any approvals we obtain will be on a timely basis, or that our business in Russia will not be further disrupted due to evolving legal or operational considerations. The Board, together with management, will continue to assess whether developments related to the conflict have had, or are reasonably likely to have, a material impact on the Company.

#### Tax Valuation Allowances

Deferred income tax assets represent amounts available to reduce income taxes payable on taxable income in future years. We evaluate the recoverability of these future tax deductions and credits by evaluating all available positive and negative evidence. We have a valuation allowance against certain U.S. and foreign deferred tax assets and will release the valuation allowance when there is sufficient positive evidence to support a conclusion that it is more likely than not the deferred tax assets will be realized. Depending on our operating results in the future, we may release the valuation allowance associated with our Brazil deferred tax assets within the next year. The timing and amount of the valuation allowance release could vary based on our assessment of all available evidence. Release of all, or a portion, of the valuation allowance would result in the recognition of certain deferred tax assets and may result in a decrease to income tax expense for the period in which the release is recorded.

## **SUMMARY OF KEY PERFORMANCE MEASURES**

Management reviews and analyzes several key performance measures including Total revenues, Remaining performance obligations (“RPO”), Operating income, Net income attributable to GE HealthCare, Earnings per share, and Cash from (used for) operating activities. Management also reviews and analyzes Organic revenue\*, Adjusted earnings before interest and taxes\* (“Adjusted EBIT\*”), Adjusted net income\*, Adjusted tax expense\*, Adjusted effective tax rate\* (“Adjusted ETR\*”), Adjusted earnings per share\*, and Free cash flow\*, which are non-GAAP financial measures. These measures are reviewed and analyzed in order to evaluate our business performance, identify trends affecting our business, allocate capital, and make strategic decisions, including those discussed below. See “Results of Operations” and “Liquidity and Capital Resources” below for further discussion on our key performance measures.

The non-GAAP financial measures should be considered along with the most directly comparable U.S. GAAP financial measures. Definitions of these non-GAAP financial measures, a discussion of why we believe they are useful to management and investors as well as certain of their limitations, and reconciliations to their most directly comparable U.S. GAAP financial measures are provided below under “Non-GAAP Financial Measures.”

<b>Total revenues</b>	<b>\$ 4,650</b>	<b>\$ 4,707</b>	<b>(1)%</b>

For the three months ended March 31, 2024

Total revenues were \$4,650 million, decreasing 1% or \$57 million as reported and approximately flat organically\*. The reported decline was primarily due to Sales of products decreasing 3% or \$86 million, primarily due to decreased volume following double digit reported product revenue growth in the prior year, which benefited from improved supply chain fulfillment and COVID-related demand.

The segment revenues were as follows:

- Imaging segment revenues were \$2,466 million, decreasing 1% or \$30 million following double digit Organic revenue growth\* in the prior year, which benefited from improved supply chain fulfillment, and unfavorable foreign currency impacts;

- Ultrasound segment revenues were \$824 million, decreasing 4% or \$35 million primarily due to decreased volume following double digit Organic revenue growth\* in the prior year, which benefited from improved supply chain fulfillment and COVID-related stimulus programs;
- PCS segment revenues were \$747 million, decreasing 4% or \$34 million primarily due to decreased volume driven by in-quarter fulfillment delays and following double digit Organic revenue growth\* in the prior year, which benefited from COVID-related demand in China; and
- PDx segment revenues were \$599 million, growing 7% or \$41 million with growth in the USCAN and EMEA regions driven by increased price, growth in volume, and new product introductions.

The regional revenues were as follows:

- USCAN revenues were \$2,093 million, flat to the prior year with growth in PDx revenues largely offset by declines in other segment revenues, following high single digit growth in the prior year, which benefited from improved supply chain fulfillment;
- EMEA revenues were \$1,174 million, growing 1% or \$6 million with growth in PDx and Imaging revenues largely offset by decreases in PCS and Ultrasound revenues.
- China region revenues were \$597 million, decreasing 11% or \$75 million with declines in all segment revenues following double digit growth in the prior year due to the regional stimulus program; and
- Rest of World revenues were \$785 million, flat to the prior year due to unfavorable foreign currency impacts offset by growth in Imaging revenues.

RPO represents the estimated revenue expected from customer contracts that are partially or fully unperformed inclusive of amounts deferred in contract liabilities, excluding contracts, or portions thereof, that provide the customer with the ability to cancel or terminate without incurring a substantive penalty. RPO as of March 31, 2024 decreased 2% from December 31, 2023, primarily due to fulfillment and cancellations outpacing new contracts and renewals.

## OPERATING INCOME, NET INCOME ATTRIBUTABLE TO GE HEALTHCARE, ADJUSTED EBIT\*, AND ADJUSTED NET INCOME\*.

	For the three months ended March 31					
	2024	% of Total revenues	2023	% of Total revenues	% change	
Operating income	\$ 540	11.6%	\$ 559	11.9%	(3)%	
Net income attributable to GE HealthCare	374	8.0%	372	7.9%	—%	
Adjusted EBIT*	681	14.7%	664	14.1%	3%	
Adjusted net income*	413	8.9%	388	8.2%	6%	

For the three months ended March 31, 2024

Operating income was \$540 million, a decrease of \$19 million and 30 basis points as a percent of Total revenues. The decrease as a percent of Total revenues was due to the following factors:

- Gross profit increased \$11 million or 70 basis points as a percent of Total revenues primarily due to a reduction in Cost of products sold. Cost of products sold decreased \$70 million or 50 basis points as a percent of Sales of products. The decrease as a percent of sales was driven by cost productivity and an increase in pricing of our products, partially offset by cost inflation. Cost of services sold increased \$3 million but decreased 70 basis points as a percent of Sales of services. The decrease as a percent of sales was driven by cost productivity and an increase in pricing of our service offerings, partially offset by cost inflation. Included in our total cost of revenue as part of our product investment was \$101 million in engineering costs for design follow-through on new product introductions and product lifecycle maintenance subsequent to the initial product launch, compared to \$110 million for the prior year comparable period; and
- Total operating expenses increased \$30 million due to an increase in Research and Development (“R&D”) investments of \$54 million, partially offset by a decrease in Selling, general, and

administrative (“SG&A”) expense of \$24 million primarily driven by corporate cost productivity, including Information Technology savings. As a result, R&D as a percentage of Total revenues increased by 120 basis points while SG&A as a percentage of Total revenues decreased by 20 basis points.

Net income attributable to GE HealthCare and Net income margin were \$374 million and 8.0%, an increase of \$2 million and 10 basis points, respectively, primarily due to the following factors:

- Operating income decreased \$19 million, as discussed above;
- Interest and other financial charges – net decreased \$14 million primarily driven by lower overall borrowings due to the repayments made on the Term Loan Facility;
- Non-operating benefit income decreased \$13 million primarily related to lower amortization of net gains on our Pension Plans;
- Other income (expense) – net decreased \$16 million primarily related to lower net financing and investment income; and
- Provision for income taxes decreased \$39 million primarily due to prior year results impacted by an incremental charge for the accrual of withholding and other foreign taxes due upon future distribution of earnings. For additional detail regarding our income taxes, see Note 10, “Income Taxes” to the condensed consolidated financial statements.

Adjusted EBIT\* and Adjusted EBIT margin\* were \$681 million and 14.7%, an increase of \$17 million and 50 basis points, respectively, primarily due to a decrease in Total operating expenses, when excluding the impact of Restructuring and Spin-Off and separation costs.

---

\*Non-GAAP Financial Measure

Adjusted net income\* was \$413 million, an increase of \$25 million primarily due to the decrease in Total operating expenses, when excluding the impact of Restructuring and Spin-Off and separation costs, and the decrease of Interest and other financial charges – net.

## RESULTS OF OPERATIONS – SEGMENTS

We exclude from Segment EBIT certain corporate-related expenses and certain transactions or adjustments that our Chief Operating Decision Maker (which is our Chief Executive Officer) considers to be non-operational, such as Interest and other financial charges – net, Benefit (provision) for income taxes, Restructuring costs, Acquisition and disposition-related benefits (charges), Spin-Off and separation costs, Non-operating benefit (income) costs, Gain (loss) on business and asset dispositions, Amortization of acquisition-related intangible assets, Net (income) loss attributable to noncontrolling interests, Income (loss) from discontinued operations, net of taxes, and Investment revaluation gain (loss). See “Results of Operations” section above for discussion on the performance of segments on revenue.

(1) For additional details regarding Segment EBIT, see Note 3, “Segment Information.”

For the three months ended March 31, 2024

- Imaging Segment EBIT was \$240 million, an increase of \$49 million due to cost productivity and an increase in price, partially offset by cost inflation;
- Ultrasound Segment EBIT was \$182 million, a decrease of \$25 million due to cost inflation and a decrease in sales volume, partially offset by cost productivity;
- PCS Segment EBIT was \$81 million, a decrease of \$28 million due to cost inflation and a decrease in sales volume, partially offset by cost productivity; and
- PDx Segment EBIT was \$178 million, an increase of \$23 million due to an increase in price, cost productivity, and an increase in volume, partially offset by investments.

\*Non-GAAP Financial Measure

## **NON-GAAP FINANCIAL MEASURES**

The non-GAAP financial measures presented in this Quarterly Report on Form 10-Q are supplemental measures of our performance and our liquidity that we believe help investors understand our financial condition, cash flows, and operating results, and assess our future prospects. We believe that presenting these non-GAAP financial measures, in addition to the corresponding U.S. GAAP financial measures, are important supplemental measures that exclude non-cash or other items that may not be indicative of or related to our core operating results and the overall health of our company. We believe that these non-GAAP financial measures provide investors greater transparency to the information used by management for its operational decision-making and allow investors to see our results “through the eyes of management.” We further believe that providing this information assists our investors in understanding our operating performance and the methodology used by management to evaluate and measure such performance. When read in conjunction with our U.S. GAAP results, these non-GAAP financial measures provide a baseline for analyzing trends in our underlying businesses and can be used by management as one basis for making financial, operational, and planning decisions. Finally, these measures are often used by analysts and other interested parties to evaluate companies in our industry.

The non-GAAP financial measures we report include:

### **Organic revenue and Organic revenue growth rate**

We believe that Organic revenue and Organic revenue growth rate, by excluding the effect of acquisitions, dispositions, and foreign currency rate fluctuations, provide management and investors with additional understanding and visibility into the underlying revenue trends of our established, ongoing operations. Organic revenue and Organic revenue growth rate also provide greater insight regarding the overall demand for our products and services.

### **EBIT, Adjusted EBIT, and Adjusted EBIT margin**

We believe Adjusted EBIT and Adjusted EBIT margin provide management and investors with additional understanding of our business by highlighting the results from ongoing operations and the underlying profitability factors. EBIT represents our earnings excluding interest expense, interest income, earnings (loss) attributable to non-controlling interests, non-operating benefit (income) costs, and tax expense. Adjusted EBIT additionally excludes non-recurring and/or non-cash items, which may have a material impact on our results. We may from time to time consider excluding other non-recurring items to enhance comparability between periods. We believe this provides additional insight into how our businesses are performing, on a normalized basis. However, Adjusted EBIT and Adjusted EBIT margin should not be construed as inferring that our future results will be unaffected by the items for which the measure adjusts.

### **Adjusted net income**

We believe Adjusted net income provides investors with improved comparability of underlying operating results and a further understanding and additional transparency regarding how we evaluate our business. Adjusted net income also provides management and investors with additional perspective regarding the impact of certain significant items on our earnings. Adjusted net income excludes non-operating benefit (income) costs, certain tax expense adjustments, and non-recurring and/or non-cash items, which may have a material impact on our results. We may from time to time consider excluding other non-recurring items to enhance comparability between periods. However, Adjusted net income

should not be construed as inferring that our future results will be unaffected by the items for which the measure adjusts.

#### Adjusted earnings per share

We believe Adjusted earnings per share provides investors with improved comparability of underlying operating results and a further understanding and additional transparency regarding how we evaluate our business. Adjusted earnings per share also provides management and investors with additional perspective regarding the impact of certain significant items on our per share earnings. Adjusted earnings per share excludes non-operating benefit (income) costs, certain tax expense adjustments, and non-recurring and/or non-cash items, which may have a material impact on our results. We may from time to time consider excluding other non-recurring items to enhance comparability between periods. However, Adjusted earnings per share should not be construed as inferring that our future results will be unaffected by the items for which the measure adjusts.

#### Adjusted tax expense and Adjusted effective tax rate

We believe that Adjusted tax expense and Adjusted effective tax rate provide investors with a better understanding of the normalized tax rate applicable to our business and provide more consistent comparability across periods. Adjusted tax expense excludes the income tax related to the pre-tax income adjustments included as part of Adjusted net income and certain income tax adjustments, such as adjustments to deferred tax assets or liabilities. We may from time to time consider excluding other non-recurring tax items to enhance comparability between periods. Adjusted effective tax rate is Adjusted tax expense divided by Income before income taxes less pre-tax income adjustments detailed above in Adjusted net income. However, Adjusted tax expense and Adjusted effective tax rate should not be construed as inferring that our future results will be unaffected by the items for which the measure adjusts.

#### Free cash flow

We believe that Free cash flow provides management and investors with an important measure of our ability to generate cash on a normalized basis. Free cash flow also provides insight into our flexibility to allocate capital, including reinvesting in the Company for future growth, paying down debt, paying dividends, and pursuing other opportunities that may enhance stockholder value. Free cash flow is Cash from (used for) operating activities including cash flows related to the additions and dispositions of property, plant, and equipment ("PP&E") and internal-use software. Additionally, Free cash flow does not represent residual cash flows available for discretionary expenditures, due to the fact that the measures do not deduct the payments required for debt repayments.

#### Non-GAAP Reconciliations

Management recognizes that these non-GAAP financial measures have limitations, including that they may be calculated differently by other companies or may be used under different circumstances or for different purposes, thereby affecting their comparability from company to company. In order to compensate for these and the other limitations discussed below, management does not consider these measures in isolation from or as alternatives to the comparable financial measures determined in accordance with U.S. GAAP. Readers should review the reconciliations below and should not rely on any single financial measure to evaluate our business. The reconciliations of each non-GAAP financial measure to the most directly comparable U.S. GAAP financial measure are provided below.

## LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2024, our Cash, cash equivalents, and restricted cash balance in the Condensed Consolidated Statements of Financial Position was \$2,563 million. We have historically generated positive cash flows from operating activities. Additionally, we have access to revolving credit facilities of \$3,500 million in aggregate, described in detail in Note 8, "Borrowings" to the condensed consolidated financial statements.

We believe that our existing balance of Cash, cash equivalents, and restricted cash, future cash generated from operating activities, access to capital markets, and existing credit facilities will be sufficient to meet the needs of our current and ongoing operations, pay taxes due, service our existing debt, and fund investments in our business for at least the next 12 months.

The following table summarizes our cash flows for the periods presented:

Cash Flow	For the three months ended March 31	
	2024	2023
Cash from (used for) operating activities	\$ 419	\$ 468
Cash from (used for) investing activities	(188)	(266)
Cash from (used for) financing activities	(153)	673
Free cash flow*	274	325

### Operating Activities

Cash generated from operating activities in the three months ended March 31, 2024 was \$419 million and included Net income of \$388 million, non-cash charges for depreciation and amortization of \$148 million, and a \$116 million outflow from changes in assets and liabilities, primarily driven by company-funded benefit payments for postretirement benefit plans, annual prepayments, and an increase in inventory, partially offset by a decrease in receivables.

Cash generated from operating activities in the three months ended March 31, 2023 was \$468 million and included Net income of \$383 million, non-cash charges for depreciation and amortization of \$157 million, and a \$72 million outflow from changes in assets and liabilities, primarily driven by an increase in inventory and company-funded benefit payments for postretirement benefit plans, partially offset by an increase in contract liabilities and an increase in accounts payable.

### Investing Activities

Cash used for investing activities in the three months ended March 31, 2024 was \$188 million and primarily included additions to PP&E of \$145 million related mostly to manufacturing capacity expansion and new product introductions.

Cash used for investing activities in the three months ended March 31, 2023 was \$266 million and primarily included additions to PP&E of \$143 million related mostly to new product introductions and manufacturing capacity expansion and purchases of businesses, net of cash acquired, of \$127 million related to Caption Health, Inc.

#### Financing Activities

Cash used for financing activities in the three months ended March 31, 2024 was \$153 million and primarily included a repayment of \$150 million of our outstanding Term Loan Facility.

Cash generated from financing activities in the three months ended March 31, 2023 was \$673 million and primarily included \$2,000 million of newly issued debt, partially offset by \$1,317 million of transfers to GE.

#### Free cash flow\*

Free cash flow\* was \$274 million for the three months ended March 31, 2024 and primarily included \$419 million of cash generated from operating activities, partially offset by \$145 million of cash used for additions to PP&E.

Free cash flow\* was \$325 million for the three months ended March 31, 2023 and primarily included \$468 million of cash generated from operating activities, partially offset by \$143 million of cash used for additions to PP&E.

#### Capital Expenditures

Cash used for capital expenditures was \$145 million and \$143 million for the three months ended March 31, 2024 and 2023, respectively. Capital expenditures were primarily for manufacturing capacity expansion and equipment and tooling for existing products and new product introductions.

#### Material Cash Requirements

In the normal course of business, we enter into contracts and commitments that obligate us to make payments in the future. Information regarding our obligations under lease, debt, and other commitments are provided in Note 7, "Leases," Note 9, "Borrowings," and Note 14, "Commitments, Guarantees, Product Warranties, and Other Loss Contingencies" to the consolidated and combined financial statements contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023. We have material cash requirements related to our pension obligations as described in Note 9, "Postretirement Benefit Plans" to the condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. Additionally, on April 1, 2024, we funded the acquisition of MIM Software Inc. with cash on hand. Further information regarding this acquisition is provided in Note 18, "Subsequent Events" to the condensed consolidated financial statements.

#### Debt and Credit Facilities

As part of our capital structure, we have incurred debt. The servicing of this debt is supported by cash flows from our operations. As of March 31, 2024, we had \$9,255 million of total debt compared to \$9,442 million as of December 31, 2023. The decrease in debt was mainly driven by a repayment of \$150 million of the outstanding Term Loan Facility in the first quarter of 2024. As of March 31, 2024, there were \$1,000 million of senior notes due in November 2024 recognized within Short-term borrowings in our Condensed Consolidated Statements of Financial Position.

The weighted average interest rate for the Notes and our Credit Facilities for the three months ended March 31, 2024 was 6.08%. We had no principal debt repayments on the Notes for the three months ended March 31, 2024.

In addition to the Term Loan Facility, our credit facilities include a five-year senior unsecured revolving facility that provides borrowings of up to \$2,500 million expiring in January 2028, and a 364-day senior unsecured revolving facility that provides borrowings of up to \$1,000 million expiring in December 2024. As of March 31, 2024, there were no outstanding borrowings on either of the two revolving facilities.

The Credit Facilities include various customary covenants that limit, among other things, the incurrence of liens securing debt, the entry into certain fundamental change transactions by GE HealthCare, and the maximum permitted leverage ratio. As of March 31, 2024, we were in compliance with the covenant requirements, including the maximum consolidated net leverage ratio.

For additional details on debt and credit facilities, see Note 8, "Borrowings" to the condensed consolidated financial statements.

#### Access to Capital and Credit Ratings

In connection with the Spin-Off, we accessed the capital markets and raised \$10,250 million of debt by issuing \$8,250 million of senior unsecured notes in November 2022, and completed a drawdown of the Term Loan Facility of \$2,000 million in January 2023. In addition, we arranged \$3,500 million of revolving credit facilities to further support our liquidity needs. We plan to continue to rely on capital markets, and we expect to have access to credit facilities to fund our operations. The cost and availability of debt financing will be influenced by our credit ratings and market conditions. Moody's Investors Service ("Moody's"), Standard and Poor's Global Ratings ("S&P"), and Fitch Ratings ("Fitch") currently issue ratings on our long-term debt. Our credit ratings as of April 23, 2024 are set forth in the table below.

	Moody's	S&P	Fitch
Long-term rating	Baa2	BBB	BBB
Outlook	Stable	Stable	Stable

We are disclosing our credit ratings to enhance the understanding of our sources of liquidity and the effects of our ratings on our costs of funds and access to liquidity. Our ratings may be subject to a revision or withdrawal at any time by the assigning rating organization, and each rating should be evaluated independently of any other rating.

## RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

For a discussion of recently issued accounting standards, see Note 1, "Organization and Basis of Presentation" to the condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q.

## CRITICAL ACCOUNTING ESTIMATES

Management believes that there have been no significant changes during the three months ended March 31, 2024 to the items that we disclosed as our critical accounting estimates in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risk primarily from changes in interest rates, foreign currency exchange rates, commodity prices, and equity prices, which may impact future income, cash flows, and fair value of our business. There have been no material changes in our exposure to market risk from those disclosed in Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES.**

Under the supervision and with the participation of the Company’s management, including the Chief Executive Officer and Chief Financial Officer, the Company evaluated its disclosure controls and procedures as defined under Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of March 31, 2024, and that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

#### **CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING.**

During the quarter ended March 31, 2024, the Company continued to exit from various transition service agreements with GE related to IT systems that impact financial reporting. Consequently, responsibility for execution of related internal controls transferred to the Company. Other than those discussed in the preceding sentence, there were no changes in the Company’s internal control over financial reporting that occurred during the quarter ended March 31, 2024 that materially affected or are reasonably likely to materially affect the Company’s internal control over financial reporting.

#### **INHERENT LIMITATIONS ON EFFECTIVENESS OF CONTROLS.**

All internal control systems have inherent limitations; as such, they may not prevent or detect all misstatements or all fraud. Therefore, even those internal control systems determined to be effective can provide only reasonable assurance with respect to financial statements preparation and reporting. Additionally, projections of any evaluation of effectiveness to future periods are subject to the risk that the current control structure may become inadequate for changes in conditions or the degree of compliance with the policies may deteriorate.
