**LKQ CORPORATION AND SUBSIDIARIES**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

**Note 1. Interim Financial Statements**

LKQ Corporation, a Delaware corporation, is a holding company and all operations are conducted by subsidiaries. When the terms "LKQ," "the Company," "we," "us," or "our" are used in this document, those terms refer to LKQ Corporation and its consolidated subsidiaries.

We have prepared the accompanying Unaudited Condensed Consolidated Financial Statements pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") applicable to interim financial statements. Accordingly, certain information related to our significant accounting policies and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normally recurring adjustments) necessary to fairly state, in all material respects, our financial position, results of operations and cash flows for the periods presented.

We have reclassified certain prior period amounts to conform to the current period presentation.

Results for interim periods are not necessarily indicative of the results that can be expected for any subsequent interim period or for a full year. These interim financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2023 filed with the SEC on February 22, 2024 ("2023 Form 10-K").

**Recent Accounting Pronouncements**

**Recently Adopted Accounting Pronouncements**

During the first quarter of 2023, we adopted Accounting Standards Update No. 2022-04, "Liabilities—Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations" ("ASU 2022-04"), which requires the buyer in a supplier finance program to disclose certain information about its program, including key terms, balance sheet presentation of amounts, outstanding amounts at the end of each period, and rollforwards of balances. We adopted the provisions of ASU 2022-04 on a retrospective basis (see Note 11, "Supply Chain Financing"), except for the disclosure of rollforward information, which will be adopted prospectively in our Annual Report on Form 10-K for the year ending December 31, 2024 as required. The adoption of ASU 2022-04 did not have a material impact on our unaudited condensed consolidated financial statements.

**Recently Issued Accounting Pronouncements**

In November 2023, the Financial Accounting Standards Board issued Accounting Standards Update No. 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment

Disclosures” (“ASU 2023-07”). The ASU expands public entities’ segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the CODM and included within each reported measure of segment profit or loss, an amount and description of its composition for other segment items, and interim disclosures of a reportable segment’s profit or loss and assets. The ASU is effective on a retrospective basis for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. We are currently evaluating the impact of adopting this ASU on our consolidated financial statements.

In December 2023, the Financial Accounting Standards Board issued Accounting Standards Update No. 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures” (“ASU 2023-09”). The ASU requires disclosure of disaggregated income taxes paid, prescribes standard categories for the components of the effective tax rate reconciliation, and modifies other income tax-related disclosures. The ASU will be effective for fiscal years beginning after December 15, 2024, and requires prospective application with the option to apply it retrospectively. Early adoption is permitted. We are currently evaluating the impact of adopting this ASU on our consolidated financial statements.

## **Note 2. Business Combinations**

During the three months ended March 31, 2024, we completed acquisitions of one business within our Wholesale - North America segment and one business within our Europe segment. These acquisitions were not material to our financial position or results of operations as of and for the three months ended March 31, 2024. Additionally, in January 2024, we paid \$23 million (€21 million) to a minority shareholder to settle a put option exercised on redeemable shares issued in conjunction with a previous acquisition. This payment was presented within Other financing activities, net in financing activities in our Unaudited Condensed Consolidated Statements of Cash Flows.

On February 26, 2023, we entered into a plan of arrangement to acquire all of Uni-Select's issued and outstanding shares. On August 1, 2023, we completed the acquisition of Uni-Select for an aggregate consideration paid of approximately Canadian dollar ("CAD") 2.8 billion (\$2.1 billion). In order to reduce the risk related to changes in CAD foreign exchange rates for the CAD purchase price, we entered into foreign exchange contracts. These foreign exchange contracts did not qualify for hedge accounting, and therefore the changes in fair value were reported in Gains on foreign exchange contracts - acquisition related in the Unaudited Condensed Consolidated Statements of Income. We reported Gains on foreign exchange contracts - acquisition related of \$23 million for the three months ended March 31, 2023. These foreign exchange contracts were settled in July 2023 ahead of closing of the Uni-Select Acquisition, resulting in total payments received of \$49 million. See Note 13, "Derivative Instruments and Hedging Activities" for information related to these foreign exchange contracts.

In addition to our acquisition of Uni-Select, we completed acquisitions of three businesses within our Wholesale - North America segment, four businesses within our Europe segment and one business in our Specialty segment, during the year ended December 31, 2023.

The purchase price allocations for these acquisitions are preliminary and are subject to change during the measurement periods, which is not to exceed 12 months from the close of the acquisitions. During the three months ended March 31, 2024, there have been no significant adjustments to the preliminary purchase price allocations from those disclosed in our December 31, 2023 Consolidated Financial Statements. At this time, we are in the process of finalizing the purchase price allocations, which includes finalizing the following: 1) valuation amounts for certain receivables, inventories and fixed assets acquired; 2) valuation amounts for certain intangible assets acquired; 3) the acquisition date fair value of certain liabilities assumed; and 4) the tax basis of the entities acquired.

### **Unaudited Pro Forma Financial Information**

The following unaudited pro forma financial information presents the effect of the businesses acquired during the three months ended March 31, 2024 as though the businesses had been acquired as of January 1, 2023, and the businesses acquired during the year ended December 31, 2023 as though they had been acquired as of January 1, 2022. The unaudited pro forma financial information is based upon accounting estimates and judgments that we believe are reasonable. The unaudited pro forma financial information includes the effect of purchase accounting adjustments, such as the adjustment of inventory acquired to fair value, adjustments to depreciation on acquired property, plant and equipment, adjustments to rent

expense for above or below market leases, adjustments to amortization on acquired intangible assets, adjustments to interest expense, and the related tax effects. These pro forma results are not necessarily indicative of what would have occurred if the acquisitions had been in effect for the periods presented or of future results. The unaudited pro forma financial information is as follows (in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2024</b>	<b>2023</b>
Revenue	\$ 3,703	\$ 3,759
Net income	158	235

The pro forma impact of our acquisitions also reflects the elimination of acquisition related expenses (net of tax) of \$10 million and gains on foreign exchange contracts - acquisition related of \$23 million for the three months ended March 31, 2023. Refer to Note 8, "Restructuring and Transaction Related Expenses" for further information regarding our acquisition related expenses.

### Note 3. Inventories

We classify our inventory into the following categories: (i) aftermarket and refurbished products, (ii) salvage and remanufactured products, and (iii) manufactured products.

Inventories consist of the following (in millions):

	<b>March 31, 2024</b>	<b>December 31, 2023</b>
Aftermarket and refurbished products	\$ 2,570	\$ 2,556
Salvage and remanufactured products	499	510
Manufactured products	54	55
Total inventories	<u>\$ 3,123</u>	<u>\$ 3,121</u>

Aftermarket and refurbished products and salvage and remanufactured products are primarily composed of finished goods. As of March 31, 2024, manufactured products inventory was composed of \$24 million of raw materials, \$7 million of work in process, and \$23 million of finished goods. As of December 31, 2023, manufactured products inventory was composed of \$26 million of raw materials, \$7 million of work in process, and \$22 million of finished goods.

### Note 4. Allowance for Credit Losses

Our allowance for credit losses was \$58 million and \$61 million as of March 31, 2024 and December 31, 2023, respectively. The provision for credit losses was \$3 million and \$5 million for the three months ended March 31, 2024 and 2023, respectively.

### Note 5. Intangible Assets

Goodwill and indefinite-lived intangible assets are tested for impairment at least annually. We performed our annual impairment test during the fourth quarter of 2023, and determined no impairment existed as all of our reporting units had a fair value estimate which exceeded the carrying value by at least 20%. The fair value estimates of our reporting units were established using weightings of the results of a discounted cash flow methodology and a comparative market multiples approach. Goodwill and indefinite-lived intangible assets impairment testing may also be performed on an interim basis when events or circumstances arise that may lead to impairment. We did not identify any indicators of impairment in the first three months of 2024 that necessitated an interim test of goodwill impairment or indefinite-lived intangible assets impairment.

### Note 6. Equity Method Investments

The carrying value of our Equity method investments were as follows (in millions):

	<b>Segment</b>	<b>Ownership as of March 31, 2024</b>	<b>March 31, 2024</b>	<b>December 31, 2023</b>
MEKO AB <sup>(1)</sup>	Europe	26.6%	\$ 152	\$ 145
Other			11	14
<b>Total</b>			<b>\$ 163</b>	<b>\$ 159</b>

<sup>(1)</sup> As of March 31, 2024, the Level 1 fair value of our investment in MEKO AB ("Mekonomen") was \$178 million based on the quoted market price for Mekonomen's common stock using the same foreign exchange rate as the carrying value. Our share of the book value of Mekonomen's net assets exceeded the book value of our investment by \$10 million; this difference is primarily related to Mekonomen's Accumulated Other Comprehensive Income balance as of our acquisition date in 2016. We record our equity in the net earnings of Mekonomen on a one quarter lag.

## **Note 7. Revenue Recognition**

### **Disaggregated Revenue**

We report revenue in two categories: (i) parts and services and (ii) other.

Parts revenue is generated from the sale of vehicle products including replacement parts, components and systems used in the repair and maintenance of vehicles and specialty products and accessories to improve the performance, functionality and appearance of vehicles. Services revenue includes (i) additional services that are generally billed concurrently with the related product sales, such as the sale of service-type warranties, (ii) fees for admission to our self service yards, and (iii) diagnostic and repair services.

For Wholesale - North America and Self Service, vehicle replacement products include sheet metal collision parts such as doors, hoods, and fenders; bumper covers; head and tail lamps; mirrors; grilles; wheels; and large mechanical items such as engines and transmissions. For Europe, and to a lesser extent for Wholesale - North America, vehicle replacement products include a wide variety of small mechanical products such as brake pads, discs and sensors; clutches; electrical products such as spark plugs and batteries; steering and suspension products; filters; and oil and automotive fluids. Additionally, in both our Wholesale - North America and Europe segments, we sell paint and paint related consumables for refinishing vehicles. For our Specialty operations, we serve seven product segments: truck and off-road; speed and performance; recreational vehicles; towing; wheels, tires and performance handling; marine; and miscellaneous accessories.

Other revenue includes sales of scrap and precious metals (platinum, palladium, and rhodium), bulk sales to mechanical manufacturers (including cores) and sales of aluminum ingots and sows from furnace operations. We derive scrap metal and other precious metals from several sources in both our Wholesale - North America and Self Service segments, including vehicles that have been used in our recycling operations and vehicles from original equipment manufacturers ("OEMs") and other entities that contract with us for secure disposal of "crush only" vehicles. Revenue from the sale of hulks in our Wholesale - North America and Self Service segments is recognized based on a price per ton of delivered material when the customer (processor) collects the scrap.

The following table sets forth our revenue disaggregated by category and reportable segment (in millions):

		<b>Three Months Ended March 31,</b>	
		<b>2024</b>	<b>2023</b>
Wholesale - North America	\$	1,422	\$ 1,148
Europe		1,637	1,548
Specialty		422	396
Self Service		54	60
Parts and services		3,535	3,152
Wholesale - North America		78	81
Europe		7	7
Self Service		83	109
Other		168	197
Total revenue	\$	3,703	\$ 3,349

#### Variable Consideration

Amounts related to variable consideration on our Unaudited Condensed Consolidated Balance Sheets are as follows (in millions):

		<b>March 31, 2024</b>	<b>December 31, 2023</b>

## Note 8. Restructuring and Transaction Related Expenses

From time to time, we initiate restructuring plans to integrate acquired businesses, to align our workforce with strategic business activities, or to improve efficiencies in our operations. Below is a summary of our current restructuring plans:

### 2024 Global Restructuring Plan

In the first quarter of 2024, we began a global restructuring initiative focused on enhancing profitability. The largest portion of the activity will come from the Europe segment and will include exiting certain businesses or markets which do not align with our strategic objectives. Initially, this includes exiting markets located in Bosnia and Slovenia. In April 2024, we entered into agreements to divest our operations in Slovenia, which closed in April 2024, and Bosnia, which we expect to close in the third quarter of 2024 subject to regulatory approval. Our decision to exit these and other markets constituted a triggering event to evaluate certain long-lived assets for impairment, and as a result, we incurred and expect to incur impairment charges as we move forward with the plans to exit Bosnia, Slovenia and any other identified markets. In addition to these impairment charges, we will incur charges to write-down or dispose of long-lived assets, inventory and other assets; for employee severance; and to terminate leases. This plan is scheduled to be substantially complete by the end of 2025 with an estimated total incurred cost of between \$55 million and \$75 million. In the future, we may identify additional initiatives under the plan that may result in additional expenditures, although we are currently unable to estimate the range of charges for such potential future initiatives.

### 2022 Global Restructuring Plan

In the fourth quarter of 2022, we began a restructuring initiative covering all of our reportable segments designed to reduce costs, streamline operations, consolidate facilities and implement other strategic changes to the overall organization. We have incurred and expect to incur costs primarily for employee severance, inventory or other asset write-

downs, and exiting facilities. This plan is scheduled to be substantially complete by the end of 2024 with an estimated total incurred cost of between \$28 million and \$35 million.

#### 1 LKQ Europe Plan

In 2019, we announced a multi-year plan called "1 LKQ Europe" which is intended to create structural centralization and standardization of key functions to facilitate the operation of the Europe segment as a single business. Under the 1 LKQ Europe plan, we are reorganizing our non-customer-facing teams and support systems through various projects including the implementation of a common Enterprise Resource Planning platform, rationalization of our product portfolio, and creation of a Europe headquarters office and central back office. We completed the organizational design and implementation projects in June 2021, with the remaining projects scheduled to be completed by the end of 2027 with a total incurred cost of between \$30 million and \$40 million.

## Acquisition Integration Plans

As we complete the acquisition of a business, we may incur costs related to integrating the acquired business into our current business structure and systems. These costs are typically incurred within a year from the acquisition date and vary in magnitude depending on the size and complexity of the related integration activities. We expect to incur additional expenses of between \$5 million and \$15 million by the end of 2024 to substantially complete the integration plan related to the Uni-Select Acquisition in our Wholesale - North America segment.

The following table sets forth the expenses incurred related to our restructuring plans (in millions):

#### Transaction Related Expenses

During the three months ended March 31, 2024 and 2023, we incurred expenses totaling \$2 million and \$10 million, respectively for legal, accounting and advisory services related to completed and potential transactions.

**Note 9. Earnings Per Share**

The following chart sets forth the computation of earnings per share (in millions, except per share amounts):

	<b>Three Months Ended March 31,</b>

Balance as of March 31, 2023	<u>\$ (276)</u>	<u>\$ (17)</u>	<u>\$ 11</u>	<u>\$ 2</u>	<u>\$ (280)</u>

Our policy is to reclassify the income tax effect from Accumulated other comprehensive income (loss) to the Provision for income taxes when the related gains and losses are released to the Unaudited Condensed Consolidated Statements of Income.

**Note 11. Supply Chain Financing**

We utilize voluntary supply chain finance programs to support our efforts in negotiating payment term extensions with suppliers as part of our effort to improve our operating cash flows. These programs provide participating suppliers the opportunity to sell their LKQ receivables to financial institutions at the sole discretion of both the suppliers and the financial institutions. We are not a party to the agreement between the suppliers and financial institutions. The financial institutions participate in the supply chain financing initiative on an uncommitted basis and can cease purchasing receivables from our suppliers at any time. Our obligation to our suppliers, including amount due and payment date, are not impacted by the supplier's decision to sell amounts under these agreements. Our payment terms to the financial institutions, including the timing and amount of payments, are unchanged from the original supplier invoice. All outstanding payments owed under the supply chain finance programs with the participating financial institutions are recorded within Accounts payable on our Unaudited Condensed Consolidated Balance Sheets. As of March 31, 2024 and December 31, 2023, we had \$422 million and \$411 million of Accounts payable outstanding under the arrangements, respectively.

**Note 12. Long-Term Obligations**

Long-term obligations consist of the following (in millions):

#### Senior Unsecured Credit Agreement

Our Senior Unsecured Credit Agreement consists of (i) an unsecured revolving credit facility of up to a U.S. Dollar equivalent of \$2.0 billion, which includes a \$150 million sublimit for the issuance of letters of credit and a \$150 million sublimit for swing line loans and (ii) an unsecured term loan facility of up to \$500 million. Borrowings under the agreement bear interest at the Secured Overnight Financing Rate (i.e. "SOFR") plus the applicable spread or other risk-free interest rates that are applicable for the specified currency plus a spread based on the Company's debt rating and total leverage ratio.

## Senior Unsecured Term Loan Credit Agreement

The Senior Unsecured Term Loan Credit Agreement ("CAD Note") established an unsecured term loan facility of up to CAD 700 million maturing in July 2026. The variable interest rate applicable to the CAD Note may be (i) a forward-looking term rate based on the Canadian Dollar Offer Rate for an interest period chosen by the Company of one or three months or (ii) the Canadian Prime Rate (as defined in the CAD Note), plus in each case a spread based on the Company's debt rating and total leverage ratio.

## Unsecured Senior Notes

On March 13, 2024, LKQ Corporation, together with its indirect, wholly-owned subsidiary, LKQ Dutch Bond B.V., a private company with limited liability, completed an offering and sale of €750 million aggregate principal amount of its 4.125% Notes due March 13, 2031 ("Euro Notes (2031)").

The Euro Notes (2031) bear interest at a rate of 4.125% per year. Interest on the Euro Notes (2031) is payable annually on each March 13, commencing on March 13, 2025. The Euro Notes (2031) will be initially fully and unconditionally guaranteed on a senior unsecured basis (the "Guarantees") by the Company and each of its wholly owned U.S. subsidiaries that are guarantors under our Senior Unsecured Credit Agreement and our CAD Note. The Euro Notes (2031) will also be guaranteed by each of the Company's U.S. subsidiaries that in the future agrees to guarantee the Company's obligations under the Senior Unsecured Credit Agreement, the CAD Note, any other Credit Facility Debt or any Capital Markets Debt (both as defined in the Company's preliminary prospectus supplement filed with the SEC on February 28, 2024).

Prior to December 13, 2030 (the "Par Call Date"), the Euro Notes (2031) are redeemable, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of: (1)(a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date (assuming that the Euro Notes (2031) matured on the Par Call Date) on an annual (ACTUAL/ACTUAL (ICMA)) basis at a rate equal to the Comparable Government Bond Rate (as defined in the Indenture, dated March 13, 2024 (the "Euro Notes (2031) Indenture")) plus 30 basis points, less (b) interest accrued to the date of redemption; and (2) 100% of the principal amount of the Euro Notes (2031) to be redeemed; plus, in either case, accrued and unpaid interest thereon to, but excluding, the redemption date. On or after the Par Call Date, we may redeem the Euro Notes (2031), in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the Euro Notes (2031) being redeemed plus accrued and unpaid interest thereon to, but excluding, the redemption date.

The Euro Notes (2031) and the Guarantees have been registered under the United States Securities Act of 1933 under the Registration Statement on Form S-3 (File No. 333-277267) filed by the Company with the SEC on February 22, 2024, as supplemented by the prospectus supplement filed by the Company with the SEC on March 1, 2024. Subsequently, the Euro Notes (2031) were approved for listing and registration on the Nasdaq.

Related to the offering and sale of the Euro Notes (2031) in March 2024, we incurred \$7 million of fees, which were capitalized as an offset to Long-Term Obligations and are amortized over the term of the Euro Notes (2031).

We used the net proceeds from this offering to (i) pay outstanding indebtedness, including all of the outstanding €500 million aggregate principal amount of the 3.875% senior notes due 2024 (the "Euro Notes (2024)") issued by the Company's indirect wholly-owned subsidiary, LKQ Italia Bondco di LKQ Italia Bondco GP S.r.l e C.S.A.P.A. (f/k/a LKQ Italia Bondco S.p.A.) (the "Redemption"), and (ii) pay accrued interest and related fees, premiums and expenses. The Euro Notes (2031) are governed by the Euro Notes (2031) Indenture, dated as of March 13, 2024.

Interest on the U.S. Notes (2028/33) is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2023. Interest on our 4.13% senior notes due April 2028 (the "Euro Notes (2028)") is payable in arrears on April 1 and October 1 of each year.

### **Note 13. Derivative Instruments and Hedging Activities**

We are exposed to market risks, including the effect of changes in interest rates, foreign currency exchange rates and commodity prices. Under current policies, we may use derivatives to manage our exposure to variable interest rates on our debt and changing foreign exchange rates for certain foreign currency denominated transactions. We do not hold or issue derivatives for trading purposes.

## Derivative Instruments Designated as Cash Flow Hedges

In February 2023, we entered into interest rate swap agreements to mitigate the risk of changing interest rates on our variable interest rate payments related to borrowings under our Senior Unsecured Credit Agreement. Under the terms of the interest rate swap agreements, we pay the fixed interest rate and receive a variable interest rate based on term SOFR that matches a contractually specified rate under the Senior Unsecured Credit Agreement. The agreements include a total \$400 million notional amount maturing in February 2025 with a weighted average fixed interest rate of 4.63% and a total \$300 million notional amount maturing in February 2026 with a weighted average fixed interest rate of 4.23%. Changes in the fair value of the interest rate swaps are recorded in Accumulated other comprehensive loss and reclassified to Interest expense when the hedged interest payments affect earnings. The activity related to the interest rate swaps is classified in operating activities in our Unaudited Condensed Consolidated Statements of Cash Flows as the activity relates to normal recurring settlements to match interest payments.

In March 2023, we entered into forward starting interest rate swaps to hedge the risk of changes in interest rates related to forecasted debt issuance to finance a portion of the Uni-Select Acquisition. These swaps were settled in May 2023 upon issuance of the U.S. Notes (2028/33), resulting in total payments of \$13 million. Changes in the fair value of the interest rate swaps were recorded in Accumulated other comprehensive loss and the fair value at the termination date is being reclassified to Interest expense over the term of the debt.

All of our interest rate swap contracts have been executed with counterparties that we believe are creditworthy, and we closely monitor the credit ratings of these counterparties.

As of March 31, 2024 and December 31, 2023, the notional amounts, balance sheet classification and fair values of our derivative instruments designated as cash flow hedges were as follows (in millions):

<b>March 31, 2024</b>			
	<b>Notional Amount</b>	<b>Balance Sheet Caption</b>	<b>Fair Value - Asset / (Liability)</b>
Interest rate swap agreements	\$ 400	Prepaid expenses and other current assets	\$ 1
Interest rate swap agreements	300	Other noncurrent assets	2
<b>December 31, 2023</b>			
	<b>Notional Amount</b>	<b>Balance Sheet Caption</b>	<b>Fair Value - Asset / (Liability)</b>
Interest rate swap agreements	\$ 700	Other noncurrent liabilities	\$ (2)

The activity related to our cash flow hedges is included in Note 10, "Accumulated Other Comprehensive Income (Loss)." As of March 31, 2024, we estimate that \$1 million of

derivative gains (net of tax) included in Accumulated other comprehensive loss will be reclassified into our Unaudited Condensed Consolidated Statements of Income within the next 12 months.

#### Derivative Instruments Not Designated as Hedges

To manage the foreign currency exposure related to the Uni-Select Acquisition purchase price (denominated in CAD), we entered into foreign exchange contracts in March 2023 to purchase CAD 1.6 billion for approximately \$1.2 billion. These contracts did not qualify for hedge accounting, and therefore, the contracts were adjusted to fair value through the results of operations as of each balance sheet date. We reported Gains on foreign exchange contracts - acquisition related of \$23 million for the three months ended March 31, 2023. These contracts were settled in July 2023 resulting in total payments received of \$49 million.

To manage our foreign currency exposure on other non-functional currency denominated intercompany loans, we entered into short-term foreign currency forward contracts in 2023. We have not elected to apply hedge accounting for these transactions, and therefore the contracts are adjusted to fair value through our results of operations as of each balance sheet date. The fair values of these short-term derivative instruments that remained outstanding as of March 31, 2024 were recorded in either Prepaid expenses and other current assets or Other accrued expenses on our Unaudited Condensed Consolidated Balance Sheets and were not material at March 31, 2024 and December 31, 2023.

Additionally, we hold other short-term derivative instruments, including foreign currency forward contracts, to manage our exposure to variability in the cash flows related to inventory purchases denominated in a non-functional currency. We have not elected to apply hedge accounting for these transactions. The notional amount and fair value of these contracts at March 31, 2024 and December 31, 2023, along with the effect on our results of operations during the three months ended March 31, 2024 and 2023, were not material. The fair values of these contracts were recorded in either Prepaid expenses and other current assets or Other accrued expenses on our Unaudited Condensed Consolidated Balance Sheets.

#### Gross vs. Net Presentation for Derivative Instruments

While certain derivative instruments executed with the same counterparty are subject to master netting arrangements, we present our cash flow hedge and other derivative instruments on a gross basis on our Unaudited Condensed Consolidated Balance Sheets. The impact of netting the fair values of these contracts would result in an immaterial decrease to Prepaid expenses and other current assets and Other accrued expenses on our Unaudited Condensed Consolidated Balance Sheets at March 31, 2024 and December 31, 2023.

#### **Note 14. Fair Value Measurements**

##### Financial Assets and Liabilities Measured at Fair Value

We use the market and income approaches to estimate the fair value of our financial assets and liabilities, and during the three months ended March 31, 2024, there were no significant changes in valuation techniques or inputs related to the financial assets or liabilities that we have historically recorded at fair value. The tiers in the fair value hierarchy include: Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as significant unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table presents information about our financial assets and liabilities measured at fair value on a recurring basis and indicate the fair value hierarchy of the valuation inputs we utilized to determine such fair value as of March 31, 2024 and December 31, 2023 (in millions):

	March 31, 2024				December 31, 2023			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
<b>Assets:</b>								
Interest rate swaps	\$ —	\$ 3	\$ —	\$ 3	\$ —	\$ —	\$ —	\$ —
Investments - debt securities	21	—	—	21	22	—	—	22
Investments - equity securities	5	—	—	5	3	—	—	3
Total Assets	<u>\$ 26</u>	<u>\$ 3</u>	<u>\$ —</u>	<u>\$ 29</u>	<u>\$ 25</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 25</u>
<b>Liabilities:</b>								
Interest rate swaps	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 2	\$ —	\$ 2
Contingent consideration liabilities	—	—	4	4	—	—	2	2
Total Liabilities	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 4</u>	<u>\$ 4</u>	<u>\$ —</u>	<u>\$ 2</u>	<u>\$ 2</u>	<u>\$ 4</u>

Investments in debt and equity securities relate to our captive insurance subsidiary and are included in Other noncurrent assets on the Unaudited Condensed Consolidated Balance Sheets. The balance sheet classification of the interest rate swap agreements is presented in Note 13, "Derivative Instruments and Hedging Activities." For contingent consideration liabilities, the current portion is included in Other current liabilities and the noncurrent portion is included in Other noncurrent liabilities on the Unaudited Condensed Consolidated Balance Sheets based on the expected timing of the related payments.

We value derivative instruments using a third party valuation model that performs discounted cash flow analysis based on the terms of the contracts and market observable inputs such as current and forward interest rates and current and forward foreign exchange rates.

Our contingent consideration liabilities are related to our business acquisitions. Under the terms of the contingent consideration agreements, payments may be made at specified future dates depending on the performance of the acquired business subsequent to the acquisition. The liabilities for these payments are classified as Level 3 liabilities because the related fair value measurement, which is determined using an income approach, includes significant inputs not observable in the market.

## Financial Assets and Liabilities Not Measured at Fair Value

Our debt is reflected on the Unaudited Condensed Consolidated Balance Sheets at cost. The fair value measurements of the borrowings under the credit agreement are classified as Level 2 within the fair value hierarchy since they are determined based upon significant inputs observable in the market, including interest rates on recent financing transactions with similar terms and maturities. We estimated the fair value by calculating the upfront cash payment a market participant would require at March 31, 2024 and December 31, 2023 to assume these obligations. The fair values of the U.S. Notes (2028), U.S. Notes (2033), Euro Notes (2024), Euro Notes (2028) and Euro Notes (2031) are determined based upon observable market inputs including quoted market prices in markets that are not active, and therefore are classified as Level 2 within the fair value hierarchy.

Based on market conditions as of March 31, 2024 and December 31, 2023, the fair value of the borrowings under the Senior Unsecured Credit Agreement reasonably approximated the carrying values of \$1,140 million and \$1,414 million, respectively. As of March 31, 2024 and December 31, 2023, the fair value of the borrowings under the CAD Note reasonably approximated the carrying values of \$517 million and \$529 million, respectively.

The following table provides the carrying and fair value for our other financial instruments as of March 31, 2024 and December 31, 2023 (in millions):

	<b>As of March 31, 2024</b>		<b>As of December 31, 2023</b>	
	<b>Carrying Value</b>	<b>Fair Value</b>	<b>Carrying Value</b>	<b>Fair Value</b>
U.S. Notes (2028)	\$ 800	\$ 815	\$ 800	\$ 820
U.S. Notes (2033)	600	624	600	628
Euro Notes (2024)	—	—	552	552
Euro Notes (2028)	270	271	276	276
Euro Notes (2031)	809	820	—	—

## Note 15. Employee Benefit Plans

We have funded and unfunded defined benefit plans covering certain employee groups in various European countries and Canada. Local statutory requirements govern many of our European and Canadian plans. The defined benefit plans are mostly closed to new participants and, in some cases, existing participants no longer accrue benefits.

As of March 31, 2024 and December 31, 2023, the aggregate funded status of the defined benefit plans was a net liability of \$80 million and \$83 million, respectively, and is reported in Other noncurrent assets, Other noncurrent liabilities and Accrued payroll-related liabilities on our Unaudited Condensed Consolidated Balance Sheets.

Net periodic benefit cost for our defined benefit plans were insignificant for each of the three-month periods ended March 31, 2024 and 2023. The service cost component is recorded in Selling, general and administrative ("SG&A") expenses, while the other components are recorded to Interest income and other income, net on the Unaudited Condensed Consolidated Statements of Income.

**Note 16. Income Taxes**

At the end of each interim period, we estimate our annual effective tax rate and apply that rate to our interim earnings. We also record the tax impact of certain unusual or infrequently occurring items, including changes in judgment about valuation allowances and the effects of changes in tax laws or rates, in the interim period in which they occur.

The computation of the annual estimated effective tax rate at each interim period requires certain estimates and significant judgment including, but not limited to, the expected operating income for the year, projections of the proportion of income earned and taxed in state and foreign jurisdictions, permanent and temporary differences between book and taxable income, and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, additional information is obtained or as the tax environment changes.

Our effective income tax rate for the three months ended March 31, 2024 was 30.7%, compared to 26.1% for the three months ended March 31, 2023. The increase in the effective tax rate for the three months ended March 31, 2024 compared to the three months ended March 31, 2023 was primarily attributable to the 4.4% unfavorable impact of discrete items, mostly related to the 2024 Global Restructuring Plan impairments. Refer to Note 8, "Restructuring and Transaction Related Expenses" for further information on the impairments.

The OECD released a framework, referred to as Pillar Two, to implement a global minimum corporate tax rate of 15% on certain multinational enterprises. Certain countries have enacted legislation to adopt the Pillar Two framework while several countries are considering or still announcing changes to their tax laws to implement the minimum tax directive. While we do not currently estimate Pillar Two to have a material impact on our effective tax rate, our analysis will continue as the OECD continues to release additional guidance and countries implement legislation.

#### **Note 17. Segment and Geographic Information**

We have four operating segments: Wholesale - North America; Europe; Specialty; and Self Service, each of which is presented as a reportable segment.

The segments are organized based on a combination of geographic areas served and type of product lines offered. The segments are managed separately as the businesses serve different customers and are affected by different economic conditions. Wholesale - North America and Self Service have similar economic characteristics and have common products and services, customers and methods of distribution. We are reporting these operating segments separately to provide greater transparency to investors.

The following tables present our financial performance by reportable segment for the periods indicated (in millions):

	Wholesale - North America	Europe	Specialty	Self Service	Eliminations	Consolidated

The key measure of segment profit or loss reviewed by our chief operating decision maker, our Chief Executive Officer, is Segment EBITDA. We use Segment EBITDA to compare profitability among the segments and evaluate business strategies. Segment EBITDA includes revenue and expenses that are controllable by the segment. Corporate general and administrative expenses are allocated to the segments based on usage, with shared expenses apportioned based on the segment's percentage of consolidated revenue. We calculate Segment EBITDA as Net Income excluding net income and loss attributable to noncontrolling interest; income and loss from discontinued operations; depreciation; amortization; interest; gains and losses on debt extinguishment; income tax expense; restructuring and transaction related expenses (which includes restructuring expenses recorded in Cost of goods sold); change in fair value of contingent consideration liabilities; other gains and losses related to acquisitions, equity method investments, or divestitures; equity in losses and earnings of unconsolidated subsidiaries; equity investment fair value adjustments; impairment charges; and direct impacts of the Ukraine/Russia conflict and related sanctions.

The table below provides a reconciliation of Net Income to Segment EBITDA (in millions):

We report net receivables; inventories; net property, plant and equipment; and net operating lease assets by segment as that information is used by the chief operating decision maker in assessing segment performance. These assets provide a measure for the operating capital employed in each segment. Unallocated assets include cash and cash equivalents, prepaid expenses and other current and noncurrent assets, goodwill, other intangibles and equity method investments.

Our largest countries of operation are the U.S., followed by Germany and the United Kingdom ("U.K."). Additional European operations are located in the Netherlands, Italy, Czech Republic, Belgium, Austria, Slovakia, Poland, and other European countries. As a result of the Uni-

Select Acquisition, we further expanded our wholesale operations in Canada. Our operations in other countries include remanufacturing operations in Mexico, an aftermarket parts freight consolidation warehouse in Taiwan, and administrative support functions in India.

The following table sets forth our tangible long-lived assets by geographic area (in millions):

### **Forward-Looking Statements**

Statements and information in this Quarterly Report on Form 10-Q that are not historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are made pursuant to the “safe harbor” provisions of such Act.

Forward-looking statements include, but are not limited to, statements regarding our outlook, guidance, expectations, beliefs, hopes, intentions and strategies. Words such as “may,” “will,” “plan,” “should,” “expect,” “anticipate,” “believe,” “if,” “estimate,” “intend,” “project” and similar words or expressions are used to identify these forward-looking statements. These statements are subject to a number of risks, uncertainties, assumptions and other factors that may cause our actual results, performance or achievements to be materially different. All forward-looking statements are based on information available to us at the time the statements are made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

You should not place undue reliance on our forward-looking statements. Actual events or results may differ materially from those expressed or implied in the forward-looking statements. The risks, uncertainties, assumptions and other factors that could cause actual results to differ from the results predicted or implied by our forward-looking statements include factors discussed in our filings with the SEC, including those disclosed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2023 Form 10-K and our Quarterly Reports on Form 10-Q (including this Quarterly Report).

### **Overview**

LKQ, a member of the Standard & Poor's 500 Stock Index, is a global distributor of vehicle products, including replacement parts, components and systems used in the repair and maintenance of vehicles, and specialty aftermarket products and accessories to improve the performance, functionality and appearance of vehicles.

Buyers of vehicle replacement products have the option to purchase from primarily five sources: new products produced by OEMs; new products produced by companies other than the OEMs, which are referred to as aftermarket products; recycled products obtained from salvage and total loss vehicles; recycled products that have been refurbished; and recycled products that have been remanufactured. We distribute a variety of products to collision and mechanical repair shops, including aftermarket collision and mechanical products; recycled collision and mechanical products; refurbished collision products such as wheels, bumper covers and lights; and remanufactured engines and transmissions. Collectively, we refer to the four sources that are not new OEM products as alternative parts.

We are organized into four operating segments: Wholesale - North America; Europe; Specialty; and Self Service, each of which is presented as a reportable segment.

Our Wholesale - North America segment is a leading provider of alternative vehicle collision replacement products, paint and related products, and alternative vehicle mechanical replacement products, with our sales, processing, and distribution facilities reaching most major markets in the United States and Canada. Our Europe segment is a leading provider of alternative vehicle replacement and maintenance products in Germany, the U.K., the Benelux region (Belgium, Netherlands, and Luxembourg), Italy, Czech Republic, Austria, Slovakia, Poland, and various other European countries. Our Specialty segment is a leading distributor of specialty vehicle aftermarket equipment and accessories reaching most major markets in the U.S. and Canada. Our Self Service segment operates self service retail facilities across the U.S. that sell recycled automotive products from end-of-life-vehicles.

Our operating results have fluctuated on a quarterly and annual basis in the past and can be expected to continue to fluctuate in the future as a result of a number of factors, some of which are beyond our control. Please refer to the factors referred to in Forward-Looking Statements above. Due to these factors and others, which may be unknown to us at this time, our operating results in future periods can be expected to fluctuate. Accordingly, our historical results of operations may not be indicative of future performance.

## **Acquisitions and Investments**

Since our inception in 1998, we have pursued a growth strategy through both organic growth and acquisitions. Through 2018, our acquisition strategy was focused on consolidation to build scale in fragmented markets across North America and Europe. We targeted companies that were market leaders, expanded our geographic presence and enhanced our ability to provide a wide array of vehicle products through our distribution network. In the last few years, we have shifted our focus to acquisitions that target high synergies and/or add critical capabilities, including the Uni-Select Acquisition completed in August 2023 that complements our existing North American paint distribution operations and provides a scaled position in the Canadian mechanical parts space, with opportunity for future consolidation and growth. Additionally, we have made investments in various businesses to advance our strategic objectives. See Note 2, "Business Combinations," and Note 6, "Equity Method Investments," to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information related to our acquisitions and investments.

## **Sources of Revenue**

We report our revenue in two categories: (i) parts and services and (ii) other. Our parts revenue is generated from the sale of vehicle products, including replacement parts, components and systems used in the repair and maintenance of vehicles, and specialty products and accessories used to improve the performance, functionality and appearance of vehicles. Our service revenue is generated primarily from the sale of service-type warranties, fees for admission to our self service yards, and diagnostic and repair services. Revenue from other sources includes scrap and other metals (including precious metals - platinum, palladium and rhodium - contained in recycled parts such as catalytic converters) sales, bulk sales to mechanical manufacturers (including cores) and sales of aluminum ingots and sows from our furnace operations. Other revenue will vary from period to period based on fluctuations in commodity prices and the volume of materials sold. See Note 7, "Revenue Recognition" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information related to our sources of revenue.

## **Critical Accounting Estimates**

The discussion and analysis of our financial condition and results of operations are based upon our Unaudited Condensed Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make use of certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Our 2023 Form 10-K includes a summary of the critical accounting estimates we believe are the most important to aid in understanding our financial results. There have been no changes to those critical accounting estimates that have had a material impact on our reported amounts of assets, liabilities, revenues or expenses during the three months ended March 31, 2024.

## **Recently Issued Accounting Pronouncements**

See "Recent Accounting Pronouncements" in Note 1, "Interim Financial Statements" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information related to new accounting standards.

### **Financial Information by Geographic Area**

See Note 7, "Revenue Recognition" and Note 17, "Segment and Geographic Information" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information related to our revenue and long-lived assets by geographic region.

### **1 LKQ Europe Plan**

We have undertaken the 1 LKQ Europe plan to create structural centralization and standardization of key functions to facilitate the operation of the Europe segment as a single business. Under this multi-year plan, we expect to recognize the following:

- Restructuring expenses — Non-recurring costs resulting directly from the implementation of the 1 LKQ Europe plan from which the business will derive no ongoing benefit. See Note 8, "Restructuring and Transaction Related Expenses" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further details.

- Transformation expenses — Period costs incurred to execute the 1 LKQ Europe plan that are expected to contribute to ongoing benefits to the business (e.g. non-capitalizable implementation costs related to a common ERP platform). These expenses are recorded in SG&A expenses.
- Transformation capital expenditures — Capitalizable costs for long-lived assets, such as software and facilities, that directly relate to the execution of the 1 LKQ Europe plan.

Costs related to the 1 LKQ Europe plan are reflected in SG&A expenses, Restructuring and transaction related expenses and Purchases of property, plant and equipment in our Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

We are executing on the various projects associated with the 1 LKQ Europe plan and expect to be completed by the end of 2027. During the three months ended March 31, 2024, we incurred \$8 million in costs across all three categories noted above. We expect that costs of the plan, reflecting all three categories noted above, will range between \$125 million to \$155 million for 2024 through the projected plan completion date in 2027. In the future, we may also identify additional initiatives and projects under the 1 LKQ Europe plan that may result in additional expenditures, although we are currently unable to estimate the range of charges for such potential future initiatives and projects. We expect the plan to continue to enable trade working capital and productivity initiatives that will help fund the plan cost.

### **Key Performance Indicators**

We believe that organic revenue growth, Segment EBITDA and free cash flow are key performance indicators for our business. Segment EBITDA is our key measure of segment profit or loss reviewed by our chief operating decision maker. Free cash flow is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles ("non-GAAP").

- Organic revenue growth - We define organic revenue growth as total revenue growth from continuing operations excluding the effects of acquisitions and divestitures (i.e., revenue generated from the date of acquisition to the first anniversary of that acquisition, net of reduced revenue due to the disposal of businesses) and foreign currency movements (i.e., impact of translating revenue at different exchange rates). Organic revenue growth includes incremental sales from both existing and new (i.e., opened within the last twelve months) locations and is derived from expanding business with existing customers, securing new customers and offering additional products and services. We believe that organic revenue growth is a key performance indicator as this statistic measures our ability to serve and grow our customer base successfully.
- Segment EBITDA - See Note 17, "Segment and Geographic Information" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a description of the calculation of Segment EBITDA. We believe that Segment EBITDA provides useful information to evaluate our segment profitability by focusing on the indicators of ongoing operational results.

- Free Cash Flow - We calculate free cash flow as net cash provided by operating activities, less purchases of property, plant and equipment. Free cash flow provides insight into our liquidity and provides useful information to management and investors concerning cash flow available to meet future debt service obligations and working capital requirements, make strategic acquisitions, repurchase stock, and pay dividends.

These three key performance indicators are used as targets in determining incentive compensation at various levels of the organization, including senior management. By using these performance measures, we attempt to motivate a balanced approach to the business that rewards growth, profitability and cash flow generation in a manner that enhances our long-term prospects.

## Results of Operations—Consolidated

The following table sets forth statements of income data as a percentage of total revenue for the periods indicated:

	Three Months Ended March 31,	
	2024	2023
Revenue	100.0 %	100.0 %
Cost of goods sold	60.8 %	59.0 %
Gross margin	39.2 %	41.0 %
Selling, general and administrative expenses	28.2 %	27.8 %
Restructuring and transaction related expenses	0.8 %	0.5 %
Depreciation and amortization	2.4 %	1.7 %
Operating income	7.8 %	10.9 %
Total other expense, net	1.6 %	0.1 %
Income before provision for income taxes	6.3 %	10.8 %
Provision for income taxes	1.9 %	2.8 %
Equity in (losses) earnings of unconsolidated subsidiaries	(0.1)%	0.1 %
Net income	4.3 %	8.1 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

## Three Months Ended March 31, 2024 Compared to Three Months Ended March 31, 2023

### Revenue

The following table summarizes the changes in revenue by category (in millions):

	Three Months Ended March 31,		Percentage Change in Revenue			
	2024	2023	Organic	Acquisition and Divestiture	Foreign Exchange	Total Change
Parts & services revenue	\$ 3,535	\$ 3,152	(0.3)%	11.6 %	0.8 %	12.1 %
Other revenue	168	197	(15.1)%	0.5 %	— %	(14.6)%
Total revenue	<u>\$ 3,703</u>	<u>\$ 3,349</u>	(1.1)%	10.9 %	0.8 %	10.6 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

The increase in parts and services revenue of 12.1% represented increases in segment revenue of 23.8% in Wholesale - North America, 5.7% in Europe, and 6.7% in Specialty, partially offset by a decrease of 10.5% in Self Service. This overall increase was driven by an 11.6% increase due to the net impact of acquisitions and divestitures and a 0.8% increase due to fluctuations in foreign exchange rates, partially offset by an organic parts and services revenue decrease of 0.3% (0.5% increase on a per day basis). The decrease in other revenue of 14.6% was primarily driven by a decrease in organic revenue of \$30 million due to unfavorable movements in precious metals compared to the prior year period, which resulted in a \$26 million decrease in Self Service and a \$4 million decrease in Wholesale - North America. Refer to the discussion of our segment results of operations for factors contributing to the changes in revenue by segment for the three months ended March 31, 2024 compared to the three months ended March 31, 2023.

#### Cost of Goods Sold

Cost of goods sold as a percentage of revenue increased to 60.8% of revenue for the three months ended March 31, 2024 from 59.0% of revenue for the three months ended March 31, 2023. Cost of goods sold reflects increases of 1.4% from Wholesale - North America, 0.3% attributable to mix shift towards our lower margin segments and 0.2% from Specialty, partially offset by a decrease of 0.3% from Europe. Refer to the discussion of our segment results of operations for factors contributing to the changes in cost of goods sold as a percentage of revenue by segment for the three months ended March 31, 2024 compared to the three months ended March 31, 2023.

## Selling, General and Administrative Expenses

SG&A expenses as a percentage of revenue increased to 28.2% for the three months ended March 31, 2024 from 27.8% for the three months ended March 31, 2023. The year over year increase in SG&A expense primarily reflects impacts of 0.8% in Europe and 0.2% from Self Service, partially offset by a decrease of 0.6% related to Wholesale - North America. Refer to the discussion of our segment results of operations for factors contributing to the changes in SG&A expenses as a percentage of revenue by segment for the three months ended March 31, 2024 compared to the three months ended March 31, 2023.

## Restructuring and Transaction Related Expenses

The following table summarizes restructuring and transaction related expenses for the periods indicated (in millions):

	<b>Three Months Ended March 31,</b>		<b>Change</b>
	<b>2024</b>	<b>2023</b>	
Restructuring expenses	\$ 28 <sup>(1)</sup>	\$ 8 <sup>(2)</sup>	\$ 20
Transaction related expenses	2 <sup>(3)</sup>	10 <sup>(3)</sup>	(8)
Restructuring and transaction related expenses	<u>\$ 30</u>	<u>\$ 18</u>	<u>\$ 12</u>

<sup>(1)</sup> Restructuring expenses for the three months ended March 31, 2024 primarily consisted of (i) \$19 million related to our 2024 Global Restructuring plan, (ii) \$6 million related to our acquisition integration plans, (iii) \$2 million related to our 1 LKQ Europe plan, and (iv) \$1 million related to our 2022 Global Restructuring plan.

<sup>(2)</sup> Restructuring expenses for the three months ended March 31, 2023 primarily consisted of (i) \$5 million related to our 2022 Global Restructuring plan, (ii) \$2 million related to our acquisition integration plans, and (iii) \$1 million related to our 1 LKQ Europe plan.

<sup>(3)</sup> Transaction related expenses for the three months ended March 31, 2024 and 2023 primarily related to external costs such as legal, accounting and advisory fees related to completed and potential acquisitions (including Uni-Select transaction costs in 2023).

See Note 8, "Restructuring and Transaction Related Expenses" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information on our restructuring and acquisition integration plans.

## Depreciation and Amortization

The following table summarizes depreciation and amortization for the periods indicated (in millions):

	Three Months Ended March 31,		
	2024	2023	Change
Depreciation	\$ 44	\$ 36	\$ 8 <sup>(1)</sup>
Amortization	45	22	23 <sup>(2)</sup>
Depreciation and amortization	<u>\$ 89</u>	<u>\$ 58</u>	<u>\$ 31</u>

<sup>(1)</sup> Depreciation expense increased primarily related to an increase in capital expenditures in the last nine months of 2023, which is impacting depreciation expense in 2024.

<sup>(2)</sup> Amortization expense increased primarily due to an increase in Wholesale - North America due to our acquisition of Uni-Select in August 2023.

## Total Other Expense, Net

The following table summarizes Total other expense, net for the periods indicated (in millions):

	Three Months Ended March 31,		
	2024	2023	Change
Interest expense	\$ 64	\$ 36	\$ 28 <sup>(1)</sup>
Gains on foreign exchange contracts - acquisition related	—	(23)	23 <sup>(2)</sup>
Interest income and other income, net	(6)	(9)	3 <sup>(3)</sup>
Total other expense, net	<u>\$ 58</u>	<u>\$ 4</u>	<u>\$ 54</u>

<sup>(1)</sup> Interest expense increased primarily due to (i) a \$27 million increase from higher outstanding debt primarily related to the permanent financing for the Uni-Select Acquisition and (ii) a \$4 million increase from higher interest rates in the first quarter of 2024, partially offset by (iii) a \$3 million decrease related to amortization of pre-acquisition bridge loan financing costs related to the Uni-Select Acquisition in the first quarter of 2023.

<sup>(2)</sup> Related to the Uni-Select Acquisition. See Note 2, "Business Combinations" and Note 13, "Derivative Instruments and Hedging Activities" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information.

<sup>(3)</sup> The decrease in Interest income and other income, net is primarily comprised of (i) a \$5 million decrease from funds received to settle an eminent domain matter in 2023, partially offset by (ii) individually insignificant increases which in the aggregate had a \$2 million impact.

## Provision for Income Taxes

Our effective income tax rate for the three months ended March 31, 2024 was 30.7%, compared to 26.1% for the three months ended March 31, 2023. The increase in the effective tax rate for the three months ended March 31, 2024 compared to the three months ended March 31, 2023 is primarily attributable to the 4.4% unfavorable impact of discrete items, mostly related to the 2024 Global Restructuring Plan impairments. Refer to Note 8, "Restructuring and Transaction Related Expenses" for further information on the impairments.

See Note 16, "Income Taxes" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information.

## Equity in (Losses) Earnings of Unconsolidated Subsidiaries

Equity in (losses) earnings of unconsolidated subsidiaries for the three months ended March 31, 2024 decreased by \$5 million primarily related to a decrease in year over year results reported by Mekonomen, which is our largest equity method investment.

## Foreign Currency Impact

We translate our statements of income at the average exchange rates in effect for the period. Relative to the rates used during the three months ended March 31, 2023, the pound sterling, euro and Canadian dollar rates used to translate the 2024 statements of income increased by 4.3%, 1.2% and 0.3%, respectively, while the Czech koruna rate decreased by 4.0%. Realized and unrealized currency gains and losses (including the effects of hedge instruments) combined with the translation effect of the change in foreign currencies against the U.S. dollar had a net negative effect of \$0.06 on diluted earnings per share relative to the prior year period primarily related to the \$23 million pretax gain on foreign exchange contract in the first quarter of 2023 related to the Uni-Select acquisition.

## Results of Operations—Segment Reporting

We have four reportable segments: Wholesale - North America; Europe; Specialty; and Self Service.

We have presented the growth of our revenue and profitability in our operations on both an as reported and a constant currency basis. The constant currency presentation, which is a non-GAAP measure, excludes the impact of fluctuations in foreign currency exchange rates. We believe providing constant currency information provides valuable supplemental information regarding our growth and profitability, consistent with how we evaluate our performance, as this statistic removes the translation impact of exchange rate fluctuations, which are outside of our control and do not reflect our operational performance. Constant currency revenue and Segment EBITDA results are calculated by translating prior year revenue and Segment EBITDA in local currency using the current year's currency conversion rate. This non-GAAP financial measure has important limitations as an analytical tool and should not be considered in isolation or as a substitute for an analysis of our results as reported under GAAP. Our use of this term may vary from the use of similarly-titled measures by other issuers due to potential inconsistencies in the method of calculation and differences due to items subject to interpretation. In addition, not all companies that report revenue or profitability on a constant currency basis calculate such measures in the same manner as we do, and accordingly, our calculations are not necessarily comparable to similarly-named measures of other companies and may not be appropriate measures for performance relative to other companies.

The following table presents our financial performance, including third party revenue, total revenue and Segment EBITDA, by reportable segment for the periods indicated (in millions):

	Three Months Ended March 31,			
	2024	% of Total Segment Revenue	2023	% of Total Segment Revenue
<b>Third Party Revenue</b>				
Wholesale - North America	\$ 1,500		\$ 1,229

Europe	143	8.7 %	151	9.7 %
Specialty	27	6.4 %	31	7.9 %
Self Service	16	11.7 %	22	13.2 %

Note: In the table above, the percentages of total segment revenue may not recalculate due to rounding.

The key measure of segment profit or loss reviewed by our chief operating decision maker, our Chief Executive Officer, is Segment EBITDA. We use Segment EBITDA to compare profitability among the segments and evaluate business strategies. Segment EBITDA includes revenue and expenses that are controllable by the segment. Corporate general and administrative expenses are allocated to the segments based on usage, with shared expenses apportioned based on the segment's percentage of consolidated revenue. We calculate Segment EBITDA as Net income excluding net income and loss attributable to noncontrolling interest; income and loss from discontinued operations; depreciation; amortization; interest; gains and losses on debt extinguishment; income tax expense; restructuring and transaction related expenses (which includes restructuring expenses recorded in Cost of goods sold); change in fair value of contingent consideration liabilities; other gains and losses related to acquisitions, equity method investments, or divestitures; equity in losses and earnings of unconsolidated subsidiaries; equity investment fair value adjustments; impairment charges; and direct impacts of the Ukraine/Russia conflict and related sanctions. See Note 17, "Segment and Geographic Information" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a reconciliation of total Segment EBITDA to net income.

## Three Months Ended March 31, 2024 Compared to Three Months Ended March 31, 2023

### Wholesale - North America

#### Third Party Revenue

The following table summarizes the changes in third party revenue by category in our Wholesale - North America segment (in millions):

	Three Months Ended March 31,		Percentage Change in Revenue			
	2024	2023	Organic	Acquisition and Divestiture	Foreign Exchange	Total Change
<b>Wholesale - North America</b>						
Parts & services revenue	\$ 1,422	\$ 1,148	(3.3)% <sup>(1)</sup>	27.1 % <sup>(3)</sup>	— %	23.8 %
Other revenue	78	81	(4.9)% <sup>(2)</sup>	1.1 %	— %	(3.8)%
Total third party revenue	<u>\$ 1,500</u>	<u>\$ 1,229</u>	(3.4)%	25.4 %	— %	22.0 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- (1) Parts and services organic revenue decreased 3.3% for the three months ended March 31, 2024 compared to the prior year period, primarily driven by decreased aftermarket collision volumes which were negatively impacted by lower repairable claims, which we believe is primarily attributable to comparatively warmer weather.
- (2) Other organic revenue decreased 4.9%, or \$4 million, year over year primarily related to (i) a \$10 million decrease in revenue from precious metals due to lower prices, partially offset by (ii) a \$5 million increase in revenue from other scrap (e.g., aluminum) and cores due to higher prices and volumes and (iii) a \$1 million increase in revenue from scrap steel due to higher volumes.
- (3) Acquisition and divestiture parts and services revenue was an increase of \$312 million, or 27.1%, primarily due to the acquisition of Uni-Select in the third quarter of 2023. See Note 2, "Business Combinations" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information on the acquisition of Uni-Select.

#### Segment EBITDA

Segment EBITDA decreased \$8 million, or 3.1%, for the three months ended March 31, 2024 compared to the prior year period, which includes a positive impact related to the acquisition of Uni-Select in the third quarter of 2023 (Uni-Select increases Segment EBITDA dollars but dilutes the Segment EBITDA percentage). The decrease is primarily attributable to lower aftermarket volumes, a decrease in salvage margins and continued inflationary pressures. We estimate that precious metals and scrap steel prices had a net unfavorable effect of \$7 million, or 0.4%, on Segment EBITDA margin relative to the comparable prior year period.

The following table summarizes the changes in Segment EBITDA as a percentage of revenue in our Wholesale - North America segment:

<b>Wholesale - North America</b>	<b>Percentage of Total Segment Revenue</b>
Segment EBITDA for the three months ended March 31, 2023	20.5 %
Increase (decrease) due to:	
Change in gross margin	(5.3)% <sup>(1)</sup>
Change in segment operating expenses	1.5 % <sup>(2)</sup>
Change in other income and expenses, net	(0.4)% <sup>(3)</sup>
Segment EBITDA for the three months ended March 31, 2024	<u>16.3 %</u>

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

<sup>(1)</sup> The decrease in gross margin of 5.3% was driven by the dilutive nature of the acquisition of Uni-Select, which changed the segment's product mix to reflect a greater percentage of paint, body and equipment and maintenance product lines. These product lines have a lower gross margin structure than our other wholesale product lines. The year over year effect will be noted through the third quarter, after which the impact will be annualized. Additionally, gross margin was negatively affected by decreases in salvage margins tied to softening salvage revenue and the effects of higher car costs.

<sup>(2)</sup> The decrease in segment operating expenses as a percentage of revenue primarily reflects favorable impacts of (i) 0.6% from higher charitable contributions in the prior year period, (ii) 0.5% from decreased freight, vehicle, and fuel costs and (iii) 0.4% from lower incentive compensation.

- (3) The unfavorable impact in other income and expenses, net was primarily related to funds received to settle an eminent domain matter in 2023.

## Europe

### Third Party Revenue

The following table summarizes the changes in third party revenue by category in our Europe segment (in millions):

	Three Months Ended March 31,		Percentage Change in Revenue			
	2024	2023	Organic	Acquisition and Divestiture (2)	Foreign Exchange (3)	Total Change
<b>Europe</b>						
Parts & services revenue	\$ 1,637	\$ 1,548	2.7 % <sup>(1)</sup>	1.4 %	1.7 %	5.7 %
Other revenue	7	7	8.9 %	— %	1.3 %	10.3 %
Total third party revenue	<u>\$ 1,644</u>	<u>\$ 1,555</u>	2.7 %	1.4 %	1.7 %	5.7 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- (1) Parts and services organic revenue for the three months ended March 31, 2024 increased by 2.7% (4.4% on a per day basis), primarily driven by increased volumes and, to a lesser extent, pricing initiatives to offset increased costs resulting from inflationary pressures.
- (2) Acquisition and divestiture revenue was an increase of \$21 million, or 1.4%, related to our acquisition of five wholesale businesses from the beginning of 2023 through the one-year anniversary of the acquisition dates.
- (3) Exchange rates increased our revenue growth by \$26 million, or 1.7%, primarily due to the weaker U.S. dollar against the euro and pound sterling, partially offset by the Czech koruna for the three months ended March 31, 2024 relative to the prior year period.

### Segment EBITDA

Segment EBITDA decreased \$8 million, or 5.3%, for the three months ended March 31, 2024 compared to the prior year period. On a constant currency basis (i.e., excluding translation impact), Segment EBITDA decreased by \$11 million, or 7.2%, compared to the prior year period. The decrease in dollar terms is mainly attributable to the negative impact of higher operating expenses primarily related to increased personnel costs that more than offset the effects of organic revenue growth of \$42 million. Refer to the Foreign Currency Impact discussion within the Results of Operations-Consolidated section above for further detail regarding foreign currency impact on our results for the three months ended March 31, 2024.

The following table summarizes the changes in Segment EBITDA as a percentage of revenue in our Europe segment:

<b>Europe</b>	<b>Percentage of Total Segment Revenue</b>
Segment EBITDA for the three months ended March 31, 2023	9.7 %
Increase (decrease) due to:	
Change in gross margin	0.1 % <sup>(1)</sup>
Segment EBITDA adjustment: restructuring expense - cost of goods sold	0.5 % <sup>(1)</sup>
Change in segment operating expenses	(1.6)% <sup>(2)</sup>
Segment EBITDA for the three months ended March 31, 2024	8.7 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- <sup>(1)</sup> The increase in gross margin was primarily attributable to favorable pricing, procurement, and productivity initiatives to offset difficult macro-economic conditions arising from inflationary pressures. Additionally, reported gross margin includes a 0.5% reduction related to restructuring expenses incurred as part of the 2024 Global Restructuring Plan. These costs are excluded from the calculation of Segment EBITDA. See Note 8, "Restructuring and Transaction Related Expenses" and Note 17, "Segment and Geographic Information" for further information.

- (2) The increase in segment operating expenses as a percentage of revenue reflects unfavorable impacts of (i) 1.2% from increased personnel costs mainly due to wage inflation in Germany and Benelux, (ii) 0.3% from professional fees related to several strategic central and regional information technology initiatives, (iii) 0.2% from increased outbound freight and logistics costs, and (iv) other individually immaterial factors representing a 0.4% unfavorable impact in the aggregate, partially offset by (v) a favorable impact of 0.5% due to lower energy and utilities costs compared to the prior year period across all geographies.

## Specialty

### Third Party Revenue

The following table summarizes the changes in third party revenue by category in our Specialty segment (in millions):

Specialty	Three Months Ended March 31,		Percentage Change in Revenue			
	2024	2023	Organic (1)	Acquisition and Divestiture (2)	Foreign Exchange	Total Change
Parts & services revenue	\$ 422	\$ 396	(1.4)%	8.1 %	— %	6.7 %
Other revenue	—	—	— %	— %	— %	— %
Total third party revenue	<u>\$ 422</u>	<u>\$ 396</u>	<u>(1.4)%</u>	<u>8.1 %</u>	<u>— %</u>	<u>6.7 %</u>

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- (1) Parts and services organic revenue for the three months ended March 31, 2024 decreased by 1.4% primarily due to demand softness in the recreational vehicle ("RV") product line, as RV unit retail sales have declined year over year.
- (2) Acquisition and divestiture revenue was a net increase of \$32 million, or 8.1%, primarily related to our acquisition of one Specialty business in 2023.

### Segment EBITDA

Segment EBITDA decreased \$4 million, or 13.2%, for the three months ended March 31, 2024 compared to the prior year period primarily due to the organic revenue decline and the decline in gross margin as explained below.

The following table summarizes the changes in Segment EBITDA as a percentage of revenue in our Specialty segment:

<b>Specialty</b>	<b>Percentage of Total Segment Revenue</b>
Segment EBITDA for the three months ended March 31, 2023	7.9 %
Increase (decrease) due to:	
Change in gross margin	(1.7)% <sup>(1)</sup>
Change in segment operating expenses	0.1 % <sup>(2)</sup>
Change in other income and expenses, net	0.1 %
Segment EBITDA for the three months ended March 31, 2024	6.4 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- <sup>(1)</sup> The decrease in gross margin primarily was driven by higher discounts to help maintain sales volume.
- <sup>(2)</sup> The decrease in segment operating expenses as a percentage of revenue was due to individually immaterial factors representing a 0.1% favorable impact in the aggregate.

## Self Service

### Third Party Revenue

The following table summarizes the changes in third party revenue by category in our Self Service segment (in millions):

	Three Months Ended March 31,		Percentage Change in Revenue			
	2024	2023	Organic	Acquisition and Divestiture	Foreign Exchange	Total Change
<b>Self Service</b>						
Parts & services revenue	\$ 54	\$ 60	(10.5)% <sup>(1)</sup>	— %	— %	(10.5)%
Other revenue	83	109	(24.2)% <sup>(2)</sup>	— %	— %	(24.1)%
Total third party revenue	<u>\$ 137</u>	<u>\$ 169</u>	(19.3)%	— %	— %	(19.3)%

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- (1) Parts and services organic revenue decreased 10.5% for the three months ended March 31, 2024 compared to the prior year period, primarily driven by lower retail volumes from reduced admissions, which were impacted by adverse weather conditions (primarily in California).
- (2) Other organic revenue decreased 24.2%, or \$26 million, year over year primarily due to (i) a \$17 million decrease in revenue from precious metals due to lower prices and lower volumes and (ii) a \$9 million decrease in revenue from scrap steel primarily related to lower volumes and slightly lower prices.

### Segment EBITDA

Segment EBITDA decreased \$6 million for the three months ended March 31, 2024 compared to the prior year period. The decrease is driven by the decline in revenue due to unfavorable movements in commodity prices and lower volumes compared to the prior year period, partially offset by improved vehicle procurement costs and improvements in operational productivity. Decreases in precious metals prices contributed an estimated \$8 million decline in Segment EBITDA relative to the three months ended March 31, 2023. Net sequential changes in scrap steel prices had a negative year over year effect as the favorability in the current year was lower than in the prior year. During the three months ended March 31, 2024, scrap steel prices had a \$4 million favorable impact on Segment EBITDA, compared to an \$11 million favorable impact during the three months ended March 31, 2023. The favorable impacts for the three months ended March 31, 2024 resulted from the increase in scrap steel prices between the date we purchased a vehicle, which influences the price we pay for a vehicle, and the date we scrapped a vehicle, which influences the price we receive for scrapping a vehicle.

The following table summarizes the changes in Segment EBITDA as a percentage of revenue in our Self Service segment:

<b>Self Service</b>	<b>Percentage of Total Segment Revenue</b>
Segment EBITDA for the three months ended March 31, 2023	13.2 %
Increase (decrease) due to:	
Change in gross margin	2.6 % <sup>(1)</sup>
Change in segment operating expenses	(4.1)% <sup>(2)</sup>
Change in other income and expenses, net	0.1 %
Segment EBITDA for the three months ended March 31, 2024	11.7 %

Note: In the table above, the sum of the individual percentages may not equal the total due to rounding.

- <sup>(1)</sup> The increase in gross margin is attributable to improvements in vehicle procurement costs, which more than offset the negative effects from lower commodities prices.
- <sup>(2)</sup> The increase in segment operating expenses as a percentage of revenue reflects (i) a negative leverage effect of 5.2% from decreases in metals revenue, partially offset by (ii) other individually immaterial factors representing a 1.1% favorable impact in the aggregate.

## Liquidity and Capital Resources

We assess our liquidity and capital resources in terms of our ability to fund our operations and provide for expansion through both internal development and acquisitions. Our primary sources of liquidity are cash flows from operations and our revolving credit facilities. We utilize our cash flows from operations to fund working capital and capital expenditures, with the excess amounts going towards funding acquisitions, paying down outstanding debt, paying dividends or repurchasing our common stock. As we have pursued acquisitions as part of our historical growth strategy, our cash flows from operations have not always been sufficient to cover our investing activities. To fund our acquisitions, we have accessed various forms of debt financing, including revolving credit facilities, term loans, and senior notes. We currently believe we have sufficient access to capital markets to support our future growth objectives.

The following table summarizes liquidity data as of the dates indicated (in millions):

	<b>March 31, 2024</b>	<b>December 31, 2023</b>
Capacity under revolving credit facilities	\$ 2,000	\$ 2,000
Less: Revolving credit facilities borrowings	640	914
Less: Letters of credit	114	110
Availability under credit revolving facilities	1,246	976
Add: Cash and cash equivalents	344	299
Total liquidity	<u>\$ 1,590</u>	<u>\$ 1,275</u>

We had \$1,246 million available under our revolving credit facilities in place as of March 31, 2024. Combined with \$344 million of cash and cash equivalents at March 31, 2024, we had \$1,590 million in available liquidity, an increase of \$315 million from our available liquidity as of December 31, 2023, primarily as a result of reducing our revolving credit facilities borrowings by \$274 million with proceeds from the senior notes offering in March 2024.

As of March 31, 2024 we had \$4,287 million total debt outstanding and \$88 million current debt, including the following senior debt (in millions):

		March 31, 2024	
	Maturity Date	Interest Rate	Amount Outstanding
Senior Unsecured Credit Agreement:			
Term loan payable	January 2026	6.81 %	\$ 500
Revolving credit facilities	January 2028	6.58 % <sup>(1)</sup>	640
Senior Unsecured Term Loan Agreement:			
Term loan payable (CAD 700 million)	July 2026	6.67 %	517
Unsecured Senior Notes:			
U.S. Notes (2028)	June 2028	5.75 %	800
U.S. Notes (2033)	June 2033	6.25 %	600
Euro Notes (2028) (€250 million)	April 2028	4.13 %	270
Euro Notes (2031) (€750 million)	March 2031	4.13 %	809

<sup>(1)</sup> Interest rate derived via a weighted average

In March 2024, we completed an offering of €750 million aggregate principal amount of the 4.125% Euro Notes (2031). We used the net proceeds from the offering and cash on hand to pay outstanding indebtedness, including all of the outstanding €500 million aggregate principal amount of the 3.875% Euro Notes (2024) as well as Euro revolver borrowings, and pay accrued interest and related fees, premiums and expenses.

We believe that our current liquidity, cash expected to be generated by operating activities in future periods and access to capital markets will be sufficient to meet our current operating and capital requirements. Our capital allocation strategy includes spending to support growth driven capital projects, complete synergistic acquisitions, and return stockholder value through the payment of dividends and repurchasing shares of our common stock.

A summary of the dividend activity for our common stock for the three months ended March 31, 2024 is as follows:

<b>Dividend Amount</b>	<b>Declaration Date</b>	<b>Record Date</b>	<b>Payment Date</b>
\$0.30	February 20, 2024	March 14, 2024	March 28, 2024

On April 22, 2024, our Board of Directors declared a quarterly cash dividend of \$0.30 per share of common stock, payable on May 30, 2024, to stockholders of record at the close of business on May 16, 2024.

We believe that our future cash flow generation will permit us to continue paying dividends in future periods; however, the timing, amount and frequency of such future dividends will be subject to approval by our Board of Directors, and based on considerations of capital availability, and various other factors, many of which are outside of our control.

With \$1,590 million of total liquidity as of March 31, 2024 and \$88 million of current maturities, we have access to funds to meet our near term commitments. We have a surplus of current assets over current liabilities, which further reduces the risk of short-term cash shortfalls.

Our Senior Unsecured Credit Agreement and our CAD Note both include two financial maintenance covenants: a maximum total leverage ratio and minimum interest coverage ratio. The terms maximum total leverage ratio and minimum interest coverage ratio are specifically calculated per both the Senior Unsecured Credit Agreement and CAD Note, and differ in specified ways from comparable GAAP or common usage terms. We were in compliance with all applicable covenants under both our Senior Unsecured Credit Agreement and CAD Note as of March 31, 2024. The required debt covenants per both the Senior Unsecured Credit Agreement and CAD Note and our actual ratios with respect to those covenants are as follows as of March 31, 2024:

	<b>Covenant Level</b>	<b>Ratio Achieved as of March 31, 2024</b>
Maximum total leverage ratio	4.00 : 1.00	2.3
Minimum interest coverage ratio	3.00 : 1.00	7.4

The spread applied to the interest rate on our credit facility borrowings increased in the third quarter of 2023 and remained the same through the first quarter of 2024 as a result of the total leverage ratio rising above 2.0.

The indentures relating to our U.S. Notes and Euro Notes do not include financial maintenance covenants, and the indentures will not restrict our ability to draw funds under the Senior Unsecured Credit Agreement. The indentures do not prohibit amendments to the financial covenants under the Senior Unsecured Credit Agreement and CAD Note as needed.

While we believe that we have adequate capacity under our existing revolving credit facilities to finance our current operations, from time to time we may need to raise additional funds through public or private financing, strategic relationships or modification of our existing Senior Unsecured Credit Agreement to finance additional investments or to refinance existing debt obligations. There can be no assurance that additional funding, or refinancing of our Senior Unsecured Credit Agreement, if needed, will be available on terms attractive to us, or at all. Furthermore, any additional equity financing may be dilutive to stockholders, and debt financing, if available, may involve restrictive covenants or higher interest costs. Our failure to raise capital if and when needed could have a material adverse impact on our business, operating results, and financial condition.

As part of our effort to improve our operating cash flows, we may negotiate payment term extensions with suppliers. These efforts are supported by our supply chain finance programs. See Note 11, "Supply Chain Financing" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information related to our supply chain financing arrangements.

We hold interest rate swaps to hedge the variable rates on a portion of our credit agreement borrowings. After giving effect to these contracts outstanding, the weighted average interest rate on borrowings outstanding under our Senior Unsecured Credit Agreement was 6.1% at March 31, 2024. Including our senior notes and CAD Note, our overall weighted average interest rate on borrowings was 5.6% at March 31, 2024. Under the Senior Unsecured Credit Agreement, our borrowings bear interest at Secured Overnight Financing Rate (i.e. "SOFR") plus the applicable spread or other risk-free interest rates that are applicable for the specified currency plus a spread. Under the CAD Note, the interest rate may be (i) a forward-looking term rate based on the Canadian Dollar Offer Rate for an interest period chosen by the Company of one or three months or (ii) the Canadian Prime Rate (as defined in the CAD Note), plus in each case a spread. See Note 12, "Long-Term Obligations" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information related to our borrowings and related interest. The interest rate swaps are described in Note 13, "Derivative Instruments and Hedging Activities" to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

We had outstanding borrowings under our revolving credit facilities and term loans payable of \$1,657 million and \$1,943 million at March 31, 2024 and December 31, 2023, respectively. Of these amounts, there were no current maturities at March 31, 2024 or December 31, 2023.

The scheduled maturities of long-term obligations outstanding at March 31, 2024 are as follows (in millions):

	<b>Amount</b>
Nine months ending December 31, 2024 <sup>(1)</sup>	\$ 81
Years ending December 31:	
2025	26
2026	1,031
2027	12
2028	1,718
Thereafter	1,419
Total debt <sup>(2)</sup>	<u>\$ 4,287</u>

<sup>(1)</sup> Long-term obligations maturing by December 31, 2024 include \$55 million of short-term debt that may be extended beyond the current year ending December 31, 2024.

<sup>(2)</sup> The total debt amounts presented above reflect the gross values to be repaid (excluding debt issuance costs and unamortized bond discount of \$38 million as of March 31, 2024).

As of March 31, 2024, the Company had cash and cash equivalents of \$344 million, of which \$243 million was held by foreign subsidiaries. In general, it is our practice and intention to permanently reinvest the undistributed earnings of our foreign subsidiaries. We believe that we have sufficient cash flow and liquidity to meet our financial obligations in the U.S. without repatriating our foreign earnings. We may, from time to time, choose to selectively repatriate foreign earnings if doing so supports our financing or liquidity objectives. Distributions of dividends from our foreign subsidiaries, if any, would be generally exempt from further U.S.

taxation, either as a result of the 100% participation exemption under the Tax Cuts and Jobs Act enacted in 2017, or due to the previous taxation of foreign earnings under the transition tax and the Global Intangible Low-Taxed Income regime.

The procurement of inventory is the largest operating use of our funds. We normally pay for aftermarket product purchases on standard payment terms or at the time of shipment, depending on the manufacturer and the negotiated payment terms. We normally pay for salvage vehicles acquired at salvage auctions and under direct procurement arrangements at the time that we take possession of the vehicles.

The following table sets forth a summary of our aftermarket and manufactured inventory procurement for the three months ended March 31, 2024 and 2023 (in millions):

	<b>Three Months Ended March 31,</b>		
	<b>2024</b>	<b>2023</b>	<b>Change</b>
Wholesale - North America	\$ 522	\$ 273	\$ 249 <sup>(1)</sup>
Europe	957	920	37 <sup>(2)</sup>
Specialty	336	251	85 <sup>(3)</sup>
Total	<u>\$ 1,815</u>	<u>\$ 1,444</u>	<u>\$ 371</u>

<sup>(1)</sup> Inventory purchases across the Wholesale - North America segment increased in the three months ended March 31, 2024 compared to the prior year period primarily due to the acquisition of Uni-Select.

<sup>(2)</sup> The increase in inventory purchases in our Europe segment included an increase of \$18 million attributable to the increase in the value of the pound sterling and euro in the three months ended March 31, 2024 compared to the prior year period.

<sup>(3)</sup> The increase in inventory purchases in the Specialty segment compared to the prior year period was primarily due to decreased inventory purchases in the prior year period to align inventory levels with demand.

The following table sets forth a summary of our global wholesale salvage and self service procurement for the three months ended March 31, 2024 and 2023 (in thousands):

	<b>Three Months Ended March 31,</b>		
	<b>2024</b>	<b>2023</b>	<b>% Change</b>
Wholesale - North America salvage vehicles	61	64	(4.7)%
Europe wholesale salvage vehicles	9	8	12.5 %
Self Service salvage vehicles	111	137	(19.0)%

Wholesale - North America salvage purchases in 2024 decreased relative to the prior year period due to working down the backlog caused by ramped up purchasing in the fourth quarter of 2023. Self Service salvage purchases in 2024 decreased relative to the prior year period due to a focus on reducing car cost.

The following table summarizes the components of the year over year changes in cash provided by operating activities (in millions):

	<b>Operating Cash</b>
Net cash provided by operating activities for the three months ended March 31, 2023	\$ 223
Increase (decrease) due to:	
Working capital accounts: <sup>(1)</sup>	
Receivables	(13)
Inventories	(109)
Accounts payable	198
Other operating activities	(46) <sup>(2)</sup>
Net cash provided by operating activities for the three months ended March 31, 2024	\$ 253

<sup>(1)</sup> Cash flows related to our primary working capital accounts can be volatile as the purchases, payments and collections can be timed differently from period to period.

- Inventories represented \$109 million in incremental cash outflows in the first three months of 2024 compared to the same period of 2023, including \$53 million in our Specialty segment due to the benefit in the prior year period of decreasing inventory purchasing levels to align with softening demand, \$44 million in our Europe segment, and \$21 million in our Wholesale - North America segment, partially offset by our Self Service segment which contributed a \$9 million lower cash outflow.
- Accounts payable produced \$198 million in incremental cash inflows in the first three months of 2024 compared to the same period of 2023 on a consolidated basis. This was primarily attributable to higher cash inflows in our Europe segment of \$129 million and \$68 million in our Wholesale - North America segment both of which are primarily due to timing of payments.

<sup>(2)</sup> Primarily reflects the aggregate effect of lower cash earnings and higher interest payments (primarily due to higher interest rates and additional borrowings for the Uni-Select Acquisition), partially offset by lower cash paid for taxes during the three months ended March 31, 2024 compared to the same period of 2023.

Net cash used in investing activities totaled \$88 million and \$97 million during the three months ended March 31, 2024 and 2023, respectively. We invested \$17 million and \$25 million of cash in business acquisitions during the three months ended March 31, 2024 and 2023, respectively. Property, plant and equipment purchases were \$66 million in the three months ended March 31, 2024 compared to \$70 million in the prior year period.

The following table reconciles Net Cash Provided by Operating Activities to Free Cash Flow (in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2024</b>	<b>2023</b>
Net cash provided by operating activities	\$ 253	\$ 223
Less: purchases of property, plant and equipment	66	70
Free cash flow	<u>\$ 187</u>	<u>\$ 153</u>

For the three months ended March 31, 2024, net cash used in financing activities totaled \$113 million compared to \$66 million for the same period in 2023. Cash outflows for share repurchases were \$30 million and dividends paid were \$81 million for the three months ended March 31, 2024 compared to \$8 million for share repurchases and \$74 million for dividends paid for the same period of 2023. Net debt borrowings (net of unamortized bond discount) were \$35 million for the three months ended March 31, 2024 compared to \$41 million for the same period of 2023.

We intend to continue to evaluate markets for potential growth through the internal development of distribution centers, processing and sales facilities, and warehouses, through further integration of our facilities, and through selected business acquisitions. Our future liquidity and capital requirements will depend upon numerous factors, including the costs and timing of our internal development efforts and the success of those efforts.

### **Summarized Guarantor Financial Information**

Our U.S. Notes (2028/2033) and Euro Notes (2031) currently are guaranteed on a senior, unsecured basis by certain of our subsidiaries (each, a “subsidiary guarantor” and, together with LKQ, the “Obligor Group”), which are listed on the Company's Registration Statement on Form S-3 (File No. 333-277267) filed with the SEC on February 22, 2024. The guarantees are full and unconditional, joint and several, and subject to certain conditions for release. See Note 12, “Long-Term Obligations” to the Unaudited Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information related to the Euro Notes (2031) and Note 19, “Long-Term Obligations” in Item 8 of Part II of our Annual Report on Form 10-K for the year ended December 31, 2023 for information related to the U.S. Notes (2028/2033).

Holders of the notes have a direct claim only against the Obligor Group. The following summarized financial information is presented for the Obligor Group on a combined basis after elimination of intercompany transactions and balances within the Obligor Group and equity in the earnings from and investments in any non-guarantor subsidiary.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to market risks arising from adverse changes in foreign exchange rates, interest rates, commodity prices and inflation. There have been no material changes to our market risks from what was disclosed in Item 7A of Part II of our Annual Report on Form 10-K for the year ended December 31, 2023.

### **Item 4. Controls and Procedures**

#### Evaluation of Disclosure Controls and Procedures

As of March 31, 2024, the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of LKQ Corporation's management, including our Chief Executive Officer and our Chief Financial Officer, of our "disclosure controls and procedures" (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in providing reasonable assurance that information we are required to disclose in this Quarterly Report on Form 10-Q has been recorded, processed, summarized and reported as of the end of the period covered by this Quarterly Report on Form 10-Q. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file under the Securities Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

#### Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II OTHER INFORMATION

### Item 1. Legal Proceedings

We are from time to time subject to various claims and lawsuits incidental to our business. In the opinion of management, currently outstanding claims and suits will not, individually or in the aggregate, have a material adverse effect on our financial position, results of operations or cash flows.

### Item 1A. Risk Factors

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition and results of operations, and the trading price of our common stock. Please refer to our 2023 Form 10-K for information concerning risks and uncertainties that could negatively impact us.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our Board of Directors has authorized a stock repurchase program under which we are able to purchase up to \$3,500 million of our common stock from time to time through the scheduled duration of the program on October 25, 2025. Repurchases under the program may be made in the open market or in privately negotiated transactions, with the amount and timing of repurchases depending on market conditions and corporate needs. The repurchase program does not obligate us to acquire any specific number of shares and may be suspended or discontinued at any time.

The following table summarizes our stock repurchases for the three months ended March 31, 2024 (in millions, except per share data):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
